## **Solidarity And Contention The Politics Of Security And Sustainability In The Naftconflict:**

Solidarity and Contention Michael C. Dreiling, 2001 First published in 2001 Routledge is an imprint of Taylor Francis an informa company

**Sustainability, Civil Society and International Governance** John J. Kirton, 2017-11-28 How can civil society and global governors come together in new ways to improve links among trade environmental and social values In this important and wide ranging volume an unparalleled array of contributors examines the many new processes of civil society engagement that have been introduced at the local regional and global levels Assessing what more can be done to strengthen the productive partnerships between civil society and global governance the book draws on the extensive inventory of existing practices and community based alternatives to demonstrate how particular mechanisms for civil society participation in global governance have enhanced or impeded the specific economic environmental and political outcomes that many seek to achieve

**Political Meanings of Solidarity** Marta Kozłowska, 2024-07-09 This monograph discusses the concept of solidarity Using Germany as a case study the book investigates how political actors political parties in specific use the term solidarity in their programmatic documents It maps out the attitudes features and behaviors that the parties continuously denote as expressions of solidarity and reconstructs the generalized concept of solidarity held by each party It categorizes earlier ideas of solidarity into micro and macro perspectives and uses both theoretical and empirical considerations to build a model of solidarity and identify the elements that make solidarity what it is Departing from the typical procedure in intellectual history research this volume takes inspiration from Wittgenstein starting with the language and tracing it back to its historical setting Thus it avoids the trap of speaking of only one meaning of solidarity and allows for more attuned analysis of the differences in understanding the concept Furthermore it links the scientific study of the concept of solidarity with research on political competition and in broader sense political theory and party politics research Closing the gap in scientific coverage of the concept of solidarity this book will be of interest to students and researchers studying political theory political sociology political philosophy political history and political parties

Green Issues and Debates Howard S. *The Legitimacy of Regional Integration in Europe and the Americas* Achim Hurrelmann, Steffen Schneider, 2015-10-29 Based on cutting edge research this edited volume examines how citizens and political elites perceive

the legitimacy of regional integration in Europe and the Americas It analyses public opinion and political discourse on the EU NAFTA and MERCOSUR arguing that legitimization patterns shape the development of regional governance

**Challenges of Globalization and Prospects for an Inter-civilizational World Order** Ino Rossi,2020-11-24 This is a must read volume on globalization in which some of the foremost scholars in the field discuss the latest issues Truly providing a global perspective it includes authorship and discussions from the Global North and South and covers the major facets of globalization cultural economic ecological and political It discusses the historical developments in governance preceding globalization the diverse theoretical and methodological approaches to globalization and analyzes underdevelopment anti globalization movements global poverty global inequality and the debates on international trade versus protectionism Finally the volume looks to the future and provides prospects for inter civilizational understanding rapprochement and global cooperation This will be of great interest to academics and students of sociology social anthropology political science and international relations economics social policy social history as well as to policy makers

**Trade Battles** Tamara Kay,R.L. Evans,2018-07-10 Winner of ASA s 2019 Charles Tilly Distinguished Book Award Trade was once an esoteric economic issue with little domestic policy resonance Activists did not prioritize it and grassroots political mobilization seemed unlikely to free trade advocates The passage of the North American Free Trade Agreement in the early 1990s was therefore expected to be a fait accompli Yet as Trade Battles shows activists pushed back they increased the public consciousness on trade mobilized new constituencies against it and demanded that the rules of the global economy protect the collective rights and common good of citizens Activists also forged a sustained challenge to U S trade policies after NAFTA setting the stage for future trade battles Using data from extensive archival materials and over 215 interviews with Mexican Canadian and U S trade negotiators labor and environmental activists and government officials Tamara Kay and R L Evans assess how activists politicized trade policy by leveraging broad divisions across state and non state arenas Further they demonstrate how activists were not only able to politicize trade policy but also to pressure negotiators to include labor and environmental protections in NAFTA s side agreements A timely contribution Trade Battles seeks to understand the role of civil society in shaping state policy

The New Handbook of Political Sociology Thomas Janoski,Cedric de Leon,Joya Misra,Isaac William Martin,2020-03-05 Political sociology is a large and expanding field with many new developments and The New Handbook of Political Sociology supplies the knowledge necessary to keep up with this exciting field Written by a distinguished group of leading scholars in sociology this volume provides a survey of this vibrant and growing field in the new millennium The Handbook presents the field in six parts theories of political sociology the information and knowledge explosion the state and political parties civil society and citizenship the varieties of state policies and globalization and how it affects politics Covering all subareas of the field with both theoretical orientations and empirical studies it directly connects scholars with current research in the field A total reconceptualization of the first edition the new handbook features nine additional

chapters and highlights the impact of the media and big data     Migrant Imaginaries Alicia Schmidt Camacho, 2008-07-24  
Winner of the 2009 Lora Romero First Book Prize from the American Studies Association 2009 Choice Outstanding Academic  
Title Explores the transnational movements of Mexican migrants including their expressive culture and social movement  
practices Migrant Imaginaries explores the transnational movements of Mexican migrants in pursuit of labor and civil rights  
in the United States from the 1920s onward Working through key historical moments such as the 1930s the Chicano  
Movement and contemporary globalization and neoliberalism Alicia Schmidt Camacho examines the relationship between  
ethnic Mexican expressive culture and the practices sustaining migrant social movements Combining sustained historical  
engagement with theoretical inquiries she addresses how struggles for racial and gender equity cross border unity and  
economic justice have defined the Mexican presence in the United States since 1910 Schmidt Camacho covers a range of  
archives and sources including migrant testimonials and songs Amrico Parede s last published novel The Shadow the film  
Salt of the Earth the foundational manifestos of El Movimiento Richard Rodriguez s memoirs narratives by Marisela Norte  
and Rosario Sanmiguel and testimonios of Mexican women workers and human rights activists as well as significant  
ethnographic research Throughout she demonstrates how Mexicans and Mexican Americans imagined their communal ties  
across the border and used those bonds to contest their noncitizen status Migrant Imaginaries places migrants at the center  
of the hemisphere s most pressing concerns contending that border crossers have long been vital to social change

**Hegemonic Transitions, the State and Crisis in Neoliberal Capitalism** Yildiz Atasoy, 2009-01-08 More than 15 years  
have passed since the end of the Cold War but uncertainty persists in the political economic shaping of the world economy  
and state system Although many countries have institutionalized neoliberal policies since the mid 1970s these policies have  
not taken hold to the same degree nor have their effects been uniform across all countries Nevertheless there has been  
widespread deepening of inequalities and therefore scepticism towards the neoliberal project Uncertainty prevails not only in  
the relations between states but also in the relations between forces of capital citizens and political power within states  
Moreover there is conceptual confusion in our understanding of the events and processes of neoliberal global transformation  
This collection of essays provides a comprehensive theoretical and empirical examination of neoliberal restructuring as a  
complex political process In an effort to penetrate and clarify this complexity the book explores the connections between the  
economy state society and citizens while also offering current examples of resistance to neoliberalism The book provides a  
forum for rethinking politics that represents a turn to societal forces as essential not only to the uncovering of this  
complexity but also to the formulation of democratic possibilities beyond global hegemonic projects The book does not seek  
to produce a new model for social change nor does it dwell on the spatial aspects of modernity s new form or the emergence  
of a new state hegemony China or new forms of rule empire in managing the world capitalist economy Instead the book  
argues that an understanding of hegemonic transformations requires the problematization of global power as embedded in

historically specific social relations      *Border Governance and the "Unruly" South* I. Hussain, 2013-08-07 Though 9 11 tightened borders against hard threats why were soft threats able to create havoc in the cracks The studies explored by the contributors of this volume lead to the conclusion that the state is not and should not be the only viable actor in successful border governance      *Agents of Neoliberal Globalization* Michael C. Dreiling, Derek Y. Darves, 2016-09-26 Depictions of globalization commonly recite a story of a market unleashed bringing Big Macs and iPhones to all corners of the world Human society appears as a passive observer to a busy revolution of an invisible global market paradoxically unfolding by its own energy Sometimes this market is thought to be unleashed by politicians working on the surface of an autonomous state This book rejects both perspectives and provides an analytically rich alternative to conventional approaches to globalization By the 1980s an enduring corporate coalition advanced in nearly synonymous terms free trade tax cuts and deregulation Highly networked corporate leaders and state officials worked in concert to produce the trade policy framework for neoliberal globalization Marshalling original network data and a historical narrative this book shows that the globalizing corporate titans of the late 1960s aligned with economic conservatives to set into motion this vision of a global free market

**Constructing the International Economy** Rawi Abdelal, Mark Blyth, Craig Parsons, 2015-10-27 Focusing empirically on how political and economic forces are always mediated and interpreted by agents both in individual countries and in the international sphere *Constructing the International Economy* sets out what such constructions and what various forms of constructivism mean both as ways of understanding the world and as sets of varying methods for achieving that understanding It rejects the assumption that material interests either linearly or simply determine economic outcomes and demands that analysts consider as a plausible hypothesis that economies might vary substantially for nonmaterial reasons that affect both institutions and agents interests *Constructing the International Economy* portrays the diversity of models and approaches that exist among constructivists writing on the international political economy The authors outline and relate several different arguments for why scholars might attend to social construction inviting the widest possible array of scholars to engage with such approaches They examine points of terminological or theoretical confusion that create unnecessary barriers to engagement between constructivists and nonconstructivist work and among different types of constructivism This book provides a tool kit that both constructivists and their critics can use to debate how much and when social construction matters in this deeply important realm Contributors Rawi Abdelal Harvard Business School Jacqueline Best University of Ottawa Mark Blyth Brown University Mlada Bukovansky Smith College Jeffrey M Chwieroth London School of Economics Francesco Duina Bates College Charlotte Epstein University of Sydney Yoshiko M Herrera University of Wisconsin Madison Paul Langley Northumbria University Craig Parsons University of Oregon Catherine Weaver University of Texas at Austin Wesley W Widmaier Saint Joseph's University Cornelia Woll CERI Sciences Po Paris      *Building Transnational Networks* Marisa von Bülow, 2010-09-13 *Building Transnational Networks* tells the story of how a broad group of civil society

organizations came together to contest free trade negotiations in the Americas Based on research in Brazil Chile Mexico the United States and Canada it offers a full hemispheric analysis of the creation of civil society networks as they engaged in the politics of trade The author demonstrates that most effective transnational actors are the ones with strong domestic roots and that southern organizations occupy key nodes in trade networks The fragility of activist networks stems from changes in the domestic political context as well as from characteristics of the organizations the networks or the actions they undertake These findings advance and suggest new understandings of transnational collective action Free Traders Malcolm Fairbrother,2020 Today s global economy was largely established by political events and decisions in the 1980s and 90s when scores of nations opened up their economies to the forces of globalization In Free Traders Malcolm Fairbrother argues that politicians embrace of globalization was much less motivated by public preferences than by the agendas of businesspeople and other elites Drawing on over one hundred interviews with decision makers and analyses of archival materials from Canada Mexico and the U S Fairbrother tells the story of how each country negotiated and ratified two agreements that substantially opened and integrated their economies the 1989 Canada U S and trilateral 1994 North American Free Trade Agreement Contrary to what many commentators believe these agreements like free trade elsewhere were based less on mainstream neoclassical economics than on the informal self serving economic ideas of business While the stakes in the globalization debate remain high Free Traders uses a comparative historical approach to sharpen our understanding of how globalization arose in the past to provide us with clearer trajectory for how it will develop in the future

**Power and Transnational Activism** Thomas Olesen,2010-12-03 Offering new and critical insights on global activism and power it features case studies on China and Tibet HIV AIDS climate change child labour the WTO women and the UN the global public sphere world social forums and global civil society Encyclopedia of U.S. Labor and Working-class History Eric Arnesen,2007 Publisher Description *Limits to Regional Integration* Søren Dosenrode,2016-03-09 Regionalization in general and regional integration in particular have taken place at a growing pace since the end of the Cold War when states were set free from various security overlays Regional integration is logical as it is supposed to advance wealth and peace Still the picture is far from clear and the process of regional integration is not automatic disintegration takes place as we saw in the cases of the Soviet Union Yugoslavia and Czechoslovakia to mention a few This is the case not only in states recently brought together but also in traditional states like Britain The Netherlands and Spain where strong groups strive for independence In some places regionalization is flourishing but regional integration is not Some regional integration projects like the North American Free Trade Agreement and Mercosur seem to stagnate Certainly there are limits to regional integration This comprehensive volume written by high profiled academics covers these themes by examining eleven cases ranging from the lack of integration in the Arctic and the Middle East to ongoing or progressing integration in Europe to uncover what blocks regional integration the results of which are used for developing new theoretical insights **Does**

**North America Exist?** Stephen Clarkson, 2008-10-21 In the wake of the North American Free Trade Agreement and the terrorist attacks of September 11 2001 renowned public intellectual and scholar Stephen Clarkson asks whether North America exists in the sense that the European Union has made Europe exist Clarkson's rigorous study of the many political and economic relationships that link Canada the United States and Mexico answers this unusual question by looking at the institutions created by NAFTA a broad selection of economic sectors and the security policies put in place by the three neighbouring countries following 9 11 This detailed meticulously researched and up to date treatment of North America's transborder governance allows the reader to see to what extent the United States dominance in the continent has been enhanced or mitigated by trilateral connections with its two continental partners An illuminating product of seven years political economy international relations and policy research Does North America Exist is an ambitious and path breaking study that will be essential reading for those wanting to understand whether the continent containing the world's most powerful nation is holding its own as a global region

Legalizing Transnational Activism Jonathan Graubart, 2010-11 Examines the effectiveness of the citizen petition mechanisms established by North American Free Trade Agreement's parallel labor and environmental accords Reconceptualizes the changing roles of international law and transnational activism in shaping global and domestic politics Provided by publisher
