Northerners, 1787-1865. Edited by Dorothy Sterling Dorothy STERLING, 1973 **The Black Box** Henry Louis Gates, Jr., 2025-03-18 A New York Times Notable Book Henry Louis Gates is a national treasure Here he returns with an intellectual and at times deeply personal meditation on the hard fought evolution and the very meaning of African American identity calling upon our country to transcend its manufactured divisions Isabel Wilkerson author of The Warmth of Other Suns and Caste This is a literary history of Black America but it is also an argument that African American history is inextricable from the history of African American literature The New York Times A magnificent foundational reckoning with how Black Americans have used the written word to define and redefine themselves in resistance to the lies of racism and often in heated disagreement with one another over the course of the country s history Distilled over many years from Henry Louis Gates Jr s legendary Harvard introductory course in African American studies The Black Box Writing the Race is the story of

Black self definition in America through the prism of the writers who have led the way From Phillis Wheatley and Frederick Douglass W E B Du Bois and Booker T Washington to Zora Neale Hurston and Rich ard Wright James Baldwin and Toni Morrison these writers used words to create a livable world a home for Black people destined to live out their lives in a bitterly racist society It is a book grounded in the beautiful irony that a group formed legally and conceptually by its oppressors to justify brutal subhuman bondage transformed itself through the word into a community joined in overcoming one of history s most pernicious lies Out of that contested ground has flowered a resilient creative powerful diverse culture of people who have often disagreed markedly about what it means to be Black and about how best to use the past to create a more just and equitable future This is the epic story of how through essays and speeches novels plays and poems a long line of creative thinkers has unveiled the contours of and resisted confinement in the black box inside which this nation within a nation has been assigned willy nilly from the nation s founding through to today This is a book that records the compelling saga of the creation of a people

The Republic of Violence J.D. Dickey,2022-03-01 A New York Times bestselling author reveals the story of a nearly forgotten moment in American history when mass violence was not an aberration but a regular activity and nearly extinguished the Abolition movement The 1830s were the most violent time in American history outside of war Men battled each other in the streets in ethnic and religious conflicts gangs of party henchmen rioted at the ballot box and assault and murder were common enough as to seem unremarkable The president who presided over the era Andrew Jackson was himself a duelist and carried lead in his body from previous gunfights It all made for such a volatile atmosphere that a young Abraham Lincoln said outrages committed by mobs form the every day news of the times The principal targets of mob violence were abolitionists and black citizens who had begun to question the foundation of the U S economy chattel slavery and demand an end to it Led by figures like William Lloyd Garrison and James Forten the anti slavery movement grew from a small band of committed activists to a growing social force that attracted new followers in the hundreds and enemies in the thousands Even in the North abolitionists faced almost unimaginable hatred with newspaper publishers businessmen with a stake in the slave trade and politicians of all stripes demanding they be suppressed silenced or even executed Carrying bricks and torches guns and knives mobs created pandemonium and forced the abolition movement to answer key questions as it began to grow Could nonviolence work in the face of arson and attempted murder Could its leaders stick together long enough to build a movement with staying power or would they turn on each other first And could it survive to last through the decade and inspire a new generation of activists to fight for the cause J D Dickey reveals the stories of these Black and white men and women persevered against such threats to demand that all citizens be given the chance for freedom and liberty embodied in the Declaration of Independence Their sacrifices and strategies would set a precedent for the social

movements to follow and lead the nation toward war and emancipation in the most turbulent era of our republic of violence

A Curse upon the Nation Kay Wright Lewis, 2017-08-15 From the inception of slavery as a pillar of the Atlantic World economy both Europeans and Africans feared their mass extermination by the other in a race war In the United States says Kay Wright Lewis this ingrained dread nourished a preoccupation with slave rebellions and would later help fuel the Civil War thwart the aims of Reconstruction justify Jim Crow and even inform civil rights movement strategy And yet says Lewis the historiography of slavery is all but silent on extermination as a category of analysis Moreover little of the existing sparse scholarship interrogates the black perspective on extermination A Curse upon the Nation addresses both of these issues To explain how this belief in an impending race war shaped eighteenth and nineteenth century American politics culture and commerce Lewis examines a wide range of texts including letters newspapers pamphlets travel accounts slave narratives government documents and abolitionist tracts She foregrounds her readings in the long record of exterminatory warfare in Europe and its colonies placing lopsided reprisals against African slave revolts or even rumors of revolts in a continuum with past brutal incursions against the Irish Scots Native Americans and other groups out of favor with the empire Lewis also shows how extermination became entwined with ideas about race and freedom from early in the process of enslavement making survival an important form of resistance for African peoples in America For African Americans enslaved and free the potential for one sided violence was always present and deeply traumatic This groundbreaking study reevaluates how extermination shaped black understanding of the Atlantic slave trade and the political social and economic worlds in which it thrived

Black Foremothers Dorothy Sterling, 1988 Three heroic women whose stories in the words of Margaret Walker every woman man and child should know Ellen Craft the daring runaway Georgia slave who used her freedom to serve the cause of abolition Ida B Wells the firebrand journalist whose crusade against lynching awakened the consciousness of a nation and Mary Church Terrell a gifted and untiring leader in the movement for suffrage civil rights and world peace Through painstaking research Sterling not only produces a fascinating account of three outstanding leaders she also documents the role hitherto faceless nameless millions of African American women have played in shaping our culture and history Reflecting and connecting the historical struggle of the years 1826 through 1954 Black Foremothers will captivate and inspire readers young and old

Witness for Freedom C. Peter Ripley, Roy E. Finkenbine, Michael F. Hembree, Donald Yacovone, 2000-11-15 Encompassing a broad range of African American voices from Frederick Douglass to anonymous fugitive slaves this collection collects eighty nine exceptional documents that represent the best of the five volume Black Abolitionist Papers In these compelling texts African Americans tell their own stories of the struggle to end slavery and claim their rights as American citizens of the battle against colonization and the back to Africa movement and of their troubled relationship with the federal government
