Speaking Of Gender:

Speaking of Gender Elaine Showalter, 1989 **Speaking from the Heart** Stephanie A. Shields, 2002-06-06 In *Speaking From the Heart* Professor Shields uses examples from everyday life contemporary culture and the latest research to illustrate how culturally shared beliefs about emotion are used to shape our identities as women and men and exposes the historically shifting and tacit assumptions these beliefs are based on This fascinating exploration of gender and emotion covers everything from nineteenth century ideals of womanhood to baseball and the new man and is a must read for anyone interested in the way emotion effects our everyday lives **Speaking of Sex** Deborah L. Rhode, 1999 *Speaking of Sex* explores a topic that frequently is absent from our discussions about sex the persistence of sex based inequality and the cultural forces that sustain it On critical issues affecting women most Americans deny either that gender inequality is a serious problem or that it is one which they have a personal or political responsibility to address In tracing this no problem problem *Speaking of Sex* examines the most fundamental causes of women s disadvantages and the inadequacy of current public policy to combat them **Gender and Green Governance** Bina Agarwal, 2010-07-29 Yet they have hardly been empirically investigated *Gender Acquisition in Spanish* Jessica Diebowski, 2021-04-06 The comparative investigation of the acquisition of gender in Spanish by early and late bilinguals of different language combinations is highly debated and crucial as the phenomenon of gender involves grammatical features that differ in all three languages under investigation Against this background both early and late bilinguals face an arduous learning task which differs in complexity Couched within a generative framework the empirical study focuses on 257 participants with different levels of proficiency in Spanish ranging from low to advanced and through a series of tests aims to discover which extra linguistic and intra linguistic factors act as triggers for non native outcomes in adult heritage speakers and L2 learners The observed morphological variability is argued not to stem from a representational i e syntactic deficit but rather from a mapping problem in L2 learners and heritage speakers Successful attainment in terms of gender is possible but dependent on the interplay between various extralinguistic and linguistic factors *Education, Gender and Development* Mari-Anne Okkolin, 2016-10-14 This compelling book takes a novel approach to the complexities of girls and women s education in the global South To unravel the critical issues and processes behind educational advancement and to identify the factors that support the construction of educational well being and agency from gender perspective the book narrates the stories of women who have successfully built their educational careers to higher education The book creatively applies the human development and capabilities approach to analyze and assess educational advancement and development Mari Anne Okkolin offers a fresh voice to the field of education gender and development The book draws on rich in depth evidence from Tanzanian women who have reached higher education placing them amongst the very small percentage of women in the Tanzanian and sub Saharan contexts The book explores the women s school experiences everyday life practices and familial arrangements and the values expectations
