

Sound of Sunshine, Sound of Rain

Florence Parr, Heide

288

Part One

It must be morning, for I hear the morning
cuckoo.

I have been dreaming of a sound that whis-
pers *Follow me, Follow me*, but not in words. I
follow the sound up and up until I feel I am
floating in the air.

Now I am awake, and I listen to the voices.

My mother's voice is as warm and soft as a
pillow.

My sister's voice is little and sharp and high,
like needles flying in the air.

I do not listen to the words but to the sound,
low, high, low, high, soft, hard, soft, hard, and
then the sounds coming together at the same
time and making a new sound. And with it all,
the sharp sounds of my sister's heels putting
holes in what I hear.

Then I hear the clattering of kitchen drawers
and the banging of pans, and there is no more
talking.

strong focus is given to Excel object manipulations and these operations are covered in complete sets of operations while it s meaningful to show how to delete a column but a corporate problem typically requires you to find multiple columns that match some criteria before deleting them so it s more meaningful if a demonstration shows how you might go about solving the problem from start to finish rather than showing a few lines of code for only the deletion itself this ebook gives such comprehensive content The typical Excel user doesn t need to create overly complex solutions for this reason this manual doesn t cover peripheral topics that either extend VBA s reach or substitute it in impractical ways This ebook is not too trivial but not too heavy either topic wise and computationally VBA is a simple programming language but the complexity of writing intelligent and reusable code is still a hurdle ultimately you need to tell VBA what to do for it to do its magic this is where the challenge is this manual helps overcome that discounted complexity
