Species of Men Thomas Coley Allen,1999-08-01 **Adam's Ancestors** David N. Livingstone,2011-03-15 Although the idea that all human beings are descended from Adam is a long standing conviction in the West another version of this narrative exists humans inhabited the Earth before or alongside Adam and their descendants still occupy the planet This book traces the history of and debates surrounding the idea of non Adamic humanity *American Indians at the Margins* H. Roy Kaplan,2022-05-11 Since the earliest days of America racist imagery has been used to create harmful stereotypes of the indigenous people In this book the conflict between invading European white settlers and the indigenous groups who occupied the land that became the United States is described through the context of race and racism Using depictions from art literature radio cinema and television the origin and persistence of such stereotypes are explained and their debilitating effects on the well being of Indians are presented This text also explores their accomplishments in attempts to maintain their sovereignty dignity and respect *Fire in the Stone* Nicholas Ruddick,2012-01-01 The genre of prehistoric fiction contains a surprisingly large and diverse group of fictional works by American British and French writers from the late nineteenth century to the present that describe prehistoric humans Nicholas Ruddick explains why prehistoric fiction could not come into being until after the acceptance of Charles Darwin s theories and argues that many early prehistoric fiction works are still worth reading even though the science upon which they are based is now outdated Exploring the history and evolution of the genre Ruddick shows how prehistoric fiction can offer fascinating insights into the possible origins of human nature sexuality racial distinctions language religion and art The book includes discussions of well known prehistoric fiction by H G Wells Jules Verne J H Rosny A n Jack London William Golding Arthur C Clarke and Jean M Auel and reminds us of some unjustly forgotten landmarks of prehistoric fiction It also briefly covers such topics as the recent boom in prehistoric romance notable prehistoric fiction for children and young adults and the most entertaining movies featuring prehistoric humans The book includes illustrations that trace the changing popular images of cave men and women over the past 150 years

Understanding Conflict and Change in a Multicultural World H. Roy Kaplan, 2014-05-09 Learning about the history of cultural conflict helps teachers reduce it in classrooms This book shows our common origins and reviews sources of conflict in the former Yugoslavia Northern Ireland and the Middle East It reveals how prejudice and stereotypes about racial and religious minorities create problems in our schools Beginning with the human exodus out of Africa 60 000 years ago tension arose among ethnic groups separated by geographic barriers Changes in population immigration work and the role of religion are creating clashes in society and schools Students from different cultural backgrounds are being thrown together as mass transportation and telecommunications shrink our world Inclusive classrooms with respectful learning environments can be achieved when we identify the sources of tension that separate and divide us Students are more alike than different Knowing about our common origin and challenges will help teachers become more effective
