The Origin Of Civilisation And The Primitive Condi:

The Origin of Civilisation and the Primitive Condition of Man Sir John Lubbock, 1912 Reading Darwin in Arabic, 1860-1950 Marwa Elshakry, 2014-01-06 In Reading Darwin in Arabic Marwa Elshakry questions current ideas about Islam science and secularism by exploring the ways in which Darwin was read in Arabic from the late 1860s to the mid twentieth century Borrowing from translation and reading studies and weaving together the history of science with intellectual history she explores Darwin s global appeal from the perspective of several generations of Arabic readers and shows how Darwin s writings helped alter the social and epistemological landscape of the Arab learned classes Providing a close textual political and institutional analysis of the tremendous interest in Darwin s ideas and other works on evolution Elshakry shows how in an age of massive regional and international political upheaval these readings were suffused with the anxieties of empire and civilizational decline The politics of evolution infiltrated Arabic discussions of pedagogy progress and the very sense of history They also led to a literary and conceptual transformation of notions of science and religion themselves Darwin thus became a vehicle for discussing scriptural exegesis the conditions of belief and cosmological views more broadly The book also acquaints readers with Muslim and Christian intellectuals bureaucrats and theologians and concludes by exploring Darwin s waning influence on public and intellectual life in the Arab world after World War I

Domestic Intimacies Brian Connolly, 2014-05-21 Although it is commonly thought that incest has been taboo throughout history nineteenth century Americans evinced a great cultural anxiety that the prohibition was failing Theologians debated the meaning and limits of biblical proscription while jurists abandoned such injunctions and invented a new prohibition organized around the nuclear family Novelists crafted fictional tales of accidental incest resulting from the severed ties between public and private life while antislavery writers lamented the ramifications of breaking apart enslaved families Phrenologists and physiologists established reproduction as the primary motivation of the incest prohibition while naturalizing the incestuous eroticism of sentimental family affection Ethnographers imagined incest as the norm in so called primitive societies in contrast to modern civilization In the absence of clear biological or religious limitations the young republic developed numerous varied and contradictory incest prohibitions **Domestic Intimacies** offers a wide ranging critical history of incest and its various prohibitions as they were defined throughout the nineteenth century Historian Brian Connolly argues that at the center of these convergent anxieties and debates lay the idea of the liberal subject an autonomous individual who acted on his own desires yet was tempered by reason who enjoyed a life in public yet was expected to find his greatest satisfaction in family and home Always lurking was the need to exercise personal freedom with restraint indeed the valorization of the affectionate family was rooted in its capacity to act as a bulwark against licentiousness However it was defined incest was thus not only perceived as a threat to social stability it also functioned to regulate social relations within families and

between classes as well as among women and men slaves and free citizens strangers and friends Domestic Intimacies overturns conventional histories of American liberalism by placing the fear of incest at the heart of nineteenth century conflicts over public life and privacy kinship and individualism social contracts and personal freedom
