The Origin Of Values

M. Hechter, L. Nadel, R.E. Michod

The Origin Of Values:

The Origin of Values Raymond Boudon, 2001 Values have always been a central topic in both philosophy and the social sciences Statements about what is good or bad fair or unfair legitimate or illegitimate express clear beliefs about human existence The fact that values differ from culture to culture and century to century opens many questions In *The Origin of Values* Raymond Boudon offers empirical data based analysis of existing theories about values while developing his own perspective as to why people accept or reject value statements Boudon classifies the main theories of value including those based on firm belief social or biological factors and rational or utilitarian attitudes He discusses the popular and widely influential Rational Choice Model and critiques the postmodernist approach Boudon investigates why relativism has become so powerful and contrasts it with the naturalism represented by the work of James Q Wilson on moral sensibility He follows with a constructive attempt to develop a new theory beginning with Weber's idea of non instrumental rationality as the basis for a more complex idea of rationality Applying Boudon's own and existing theories of value to political issues and social ideas the end of apartheid the death penalty multiculturalism communitarianism *The Origin of Values* is a significant work Boudon fulfills a major task of social science explanation of collective belief His book will be of interest to sociologists philosophers psychologists and political scientists Provided by publisher *The Origin of Values* Raymond Boudon, 2013-03-01 Values have always been a central topic in both philosophy and the social sciences Statements about what is good or bad fair or unfair legitimate or illegitimate express clear beliefs about human existence The fact that values differ from culture to culture and century to century opens many questions In *The Origin of Values* Raymond Boudon offers empirical data based analysis of existing theories about values while developing his own perspective as to why people accept or reject value statements Boudon classifies the main theories of value including those based on firm belief social or biological factors and rational or utilitarian attitudes He discusses the popular and widely influential Rational Choice Model and critiques the postmodernist approach Boudon investigates why relativism has become so powerful and contrasts it with the naturalism represented by the work of James Q Wilson on moral sensibility He follows with a constructive attempt to develop a new theory beginning with Weber's idea of non instrumental rationality as the basis for a more complex idea of rationality Applying Boudon's own and existing theories of value to political issues and social ideas the end of apartheid the death penalty multiculturalism communitarianism *The Origin of Values* is a significant work Boudon fulfills a major task of social science explanation of collective belief His book will be of interest to sociologists philosophers psychologists and political scientists *The Origin of Values* Michael Hechter, Lynn Nadel, Richard E. Michod, 1993-01-01 Although values play a leading role in nearly every explanatory theory in the broad realm of the social and behavioral sciences very little multidisciplinary research material on values is available Addressing this need the editors bring together distinguished social scientists psychologists and biologists who collaboratively explore fundamental questions about values What are the

determinants of social values taboos and ideologies What are the determinants of individual values What is the nature of motivations and rewards Is there an evolutionary basis for the development of values

The Origin of Values Raymond Boudon, 2017-07-12 Values have always been a central topic in both philosophy and the social sciences Statements about what is good or bad fair or unfair legitimate or illegitimate express clear beliefs about human existence The fact that values differ from culture to culture and century to century opens many questions In *The Origin of Values* Raymond Boudon offers empirical data based analysis of existing theories about values while developing his own perspective as to why people accept or reject value statements Boudon classifies the main theories of value including those based on firm belief social or biological factors and rational or utilitarian attitudes He discusses the popular and widely influential Rational Choice Model and critiques the postmodernist approach Boudon investigates why relativism has become so powerful and contrasts it with the naturalism represented by the work of James Q Wilson on moral sensibility He follows with a constructive attempt to develop a new theory beginning with Weber's idea of non instrumental rationality as the basis for a more complex idea of rationality Applying Boudon's own and existing theories of value to political issues and social ideas the end of apartheid the death penalty multiculturalism communitarianism *The Origin of Values* is a significant work Boudon fulfills a major task of social science explanation of collective belief His book will be of interest to sociologists philosophers psychologists and political scientists

The Origins of Value William N. Goetzmann, K. Geert Rouwenhorst, 2005 The analysis of original documents is a means for economists to focus on the primary text to analyze and interpret the object and to move to interpretation and understanding of its relationship to modern financial instruments and markets The result is a collection of interdisciplinary studies of the key innovations in finance from the Old Babylonian loan tablets to the 1953 London Debt Agreement that span regions in Asia Africa North America and Europe

The Origin of Values Michael Hechter, Lynn Nadel, Richard E. Michod, 1993-01-01 Although values play a leading role in nearly every explanatory theory in the broad realm of the social and behavioral sciences very little multidisciplinary research material on values is available Addressing this need the editors bring together distinguished social scientists psychologists and biologists who collaboratively explore fundamental questions about values What are the determinants of social values taboos and ideologies What are the determinants of individual values What is the nature of motivations and rewards Is there an evolutionary basis for the development of values
