Phegley, 2015-12-04 This book brings together the experiences of Anglo American teachers and discusses some of the challenges which face teachers of nineteenth century fiction suggesting practical ways in which these might start to be overcome by considering the constantly changing canon issues related to course design and the possibilities offered by film and ICT

Narrative Ontology Axel Hutter, 2021-11-18 This book is a critical inquiry into three ideas that have been at the heart of philosophical reflection since time immemorial freedom God and immortality Their inherent connection has disappeared from our thought We barely pay attention to the latter two ideas and the notion of freedom is used so loosely today that it has become vacuous Axel Hutter's book seeks to remind philosophy of its distinct task only in understanding itself as human self knowledge that articulates itself in these three ideas will philosophy do justice to its own concept In developing this line of argument Hutter finds an ally in Thomas Mann whose novel *Joseph and His Brothers* has more to say about freedom God and immortality than most contemporary philosophy does Through his reading of Mann's novel Hutter explores these three ideas in a distinctive way He brings out the intimate connection between philosophical self knowledge and narrative form Mann's novel gives expression to the depth of human self understanding and thus demands a genuinely philosophical interpretation In turn philosophical concepts are freed from abstractness by resonating with the novel's motifs and its rich language *Narrative Ontology* is both a highly original work of philosophy and a vigorous defence of humanism It brings together philosophy and literature in a creative way it will be of great interest to students and scholars in philosophy literature and the humanities in general

vigorous genre while suggesting fascinating new directions for research Xushu as a discursive practice reinforces the paradox that innovation is impossible without imitation It presents us with fertile ground for studying the intricate ties that bind the writer and reader of traditional Chinese fiction the writer of xushu is always self consciously assuming the dual role of author and reader and in the writing process must consider both the work in progress as well as its precursor s Snakes Legs contains detailed discussions of some representative xushu works from the late Ming and Qing periods many of which have received little scholarly attention It will shed light on the development of Chinese fiction and the various textual practices in traditional China as well as account for the genre s continuing vitality in modern times Contributors Robert E Hegel Siao chen Hu Martin W Huang Keith McMahon Qiancheng Li Ying Wang Ellen Widmer Laura H Wu Shuhui Yang
