Mpofu, 2021-11-03 *The Politics of Laughter in the Social Media Age Perspectives from the Global South* brings to critical and intellectual attention the role of humour in the digital era in the Global South. Many citizens of the Global South live disempowered and precarious lives. Digital media and humour, as chapters in the volume demonstrate, have empowered these citizens through engagement with power and their peers, enabling a pursuit of a better future. Contributors to the volume, while alive to challenges associated with the digital divide, highlight the potentials of social media and humour to engage and seek redress on issues such as corruption, human rights violations, racism, and sexism. Contributors expertly analyse memes, videos, cartoons, and other social media texts to demonstrate how citizens mimic, disrupt, ridicule, and challenge status quo. This book caters for academics and students in media and communication studies, political studies, sociology, and Global South studies.
