# COMMON SENSE PHYSICS & COSMOLOGY

ALL PHENOMENA HAVE PHYSICAL ORIGINS!

All universal phenomena such as gravity and light are logically explained by the classical (Galilean) physics, taught in high schools!

The universe has both gravity and antigravity matters in 3-dimensional space!

The Hubble Image of a small region of the observable universe.

Since there can be only one consistent and coherent interpretation of the universe and all universal phenomena, Galilean physics is now proven to be the only correct physics!

## JOSEF TSAU, PH.D.

# Skip From Common Sense To Cosmology

**John Fiske**

## **Skip From Common Sense To Cosmology:**

**Common Sense Cosmology** Lenard Metzger, 2010-07-30 This is a personal alternative view of how the universe came into being where it is going and its place in the cosmos Presented are new concepts about black holes the big bang gravity and time With my apology to Albert Einstein Also included are ideas about photons and atomic structure *How Shall the Rich Escape?* Frank Seaver Billings, 1894 **The Epic Trickster in American Literature** Gregory E. Rutledge, 2013-04-26 Just as Africa and the West have traditionally fit into binaries of Darkness Enlightenment Savage Modern Ugly Beautiful and Ritual Art among others much of Western cultural production rests upon the archetypal binary of Trickster Epic with trickster aesthetics and commensurate cultural forms characterizing Africa Challenging this binary and the exceptionalism that underlies anti hegemonic efforts even today this book begins with the scholarly foundations that mapped out African trickster continuities in the United States and excavated the aesthetics of traditional African epic performances Rutledge locates trickster like capacities within the epic hero archetype the epic trickster paradigm and constructs an Homeric Diaspora which is to say that the modern Homeric performance foundation lies at an absolute time and distance away from the ancient storytelling performance needed to understand the cautionary aesthetic inseparable from epic potential As traditional epic performances demonstrate unchecked epic trickster dynamism anticipates not only brutal imperialism and creative diversity but the greatest threat to everyone an eco apocalypse Relying upon the preeminent scholarship on African American trickster heroes traditional African heroic performances and cultural studies approaches to Greco Roman epics Rutledge traces the epic trickster aesthetic through three seminal African American novels keenly attuned to the American Homeric Diaspora Charles Chesnutt's *The Marrow of Tradition* Richard Wright's *Native Son* and Toni Morrison's *Beloved* *The Cosmic Time of Empire* Adam Barrows, 2011 Combining original historical research with literary analysis Adam Barrows takes a provocative look at the creation of world standard time in 1884 and rethinks the significance of this remarkable moment in modernism for both the processes of imperialism and for modern literature As representatives from twenty four nations argued over adopting the Prime Meridian and thereby measuring time in relation to Greenwich England writers began experimenting with new ways of representing human temporality Barrows finds this experimentation in works as varied as Victorian adventure novels high modernist texts and South Asian novels including the work of James Joyce Virginia Woolf H Rider Haggard Bram Stoker Rudyard Kipling and Joseph Conrad Demonstrating the investment of modernist writing in the problems of geopolitics and in the public discourse of time Barrows argues that it is possible and productive to rethink the politics of modernism through the politics of time *The Writings of John Fiske ...: Outlines of cosmic philosophy* John Fiske, 1902 *The Culinary Plagiarist* Jason Peters, 2020-05-28 More than a collection of vignettes and stories from garden grill and kitchen *The Culinary Plagiarist* is a sustained adventure in gustatory delight an intensely private but candid account of desire and all its objects Opinionated on the full range of human experience from fasting to

inebriety from sports to politics from religion to raunch it is at once serious humorous ironic reflective grateful allusive and appetitive Along the way it offers a defense of small scale local life of family of place and of the bread we do not live alone by And also the drinks Don t forget the drinks This is a book for people who enjoy being alive whether in the kitchen the pasture the library the barn the trout stream the henhouse or the doghouse or the bedroom *Cosmic Codes* Chuck Missler,2004

*Common Sense Destroys Faith in the Theory of Evolution* W.D. Cain,2023-06-08 The false theory of evolution kicks aside God but now in non tech terms you can destroy it You don t have to be a white coat evolutionary scientist to know that Nothingness did not create everything That chaos did not create our remarkable ordered world That blindness did not create sight or deafness create hearing That unconsciousness did not create consciousness and the list goes on and on It s not even common sense Evolution is merely a way for God denying people to give an alternate case for creation that leaves God out of the picture Why would they do that Well to many scientists and others in our self oriented world the thought of God restricting their desires is not a good thought Wake up Christian influencers You now have a common sense evidence based non technical way to win against the unfounded theory of evolution which UNDERMINES God and His Word beginning in Genesis 1 1 We now have generations doubting the authenticity of God and His Word all springing out of the false philosophy of evolution and you wonder why our Christian heritage is slipping away How do evolutionists say it all got started Why is nature so orderly and predictable Why does it lend itself to classification Agronomy to Zoology and everything in between The periodic table The laws of physics The overall harmony and interconnection of Ecology There must be an uncaused first cause Yes The God of the Bible This book will make more sense than anything you ve read in a while Understandable Convincing Christ centered And above all arming you to DO SOMETHING with these truths to promote belief in God They insist evolution is the better answer but never explain why *Earth, Cosmos and Culture* Oliver Tristan Dunnett,2021-04-19 This book traces the development of diverse British cultures of outer space utilizing key geographical concepts such as landscape place and national identity It examines the early visionary ideas of writers H G Wells and Olaf Stapledon the ambitious British space programme of the 1960s and narrations of British cultural identity that accompanied the space missions of Helen Sharman Beagle 2 and Tim Peake The exploration of British cultures of outer space throughout the book helps understand the emergence of the British Interplanetary Society It also explains its significance in pre war and post war periods through an analysis of the roles of influential figures such as Arthur C Clarke and Patrick Moore The chapters explore utopian and dystopian representations of space exploration examine the mysterious phenomenon of UFO culture and consider plans for humanity s imagined future across interstellar space Throughout the book geography is advocated as a home for critical studies of outer space illuminating its significance in terms of the reciprocal relationships between exploration and the sublime science and the imagination Earth and cosmos As an emergent field of research in the social sciences this book makes an excellent contribution to the study of the outer space in Britain and abroad developing a

distinctive kind of outer spatial geography with major implications for future teaching and research      Cosmology Edward Harrison,2000-03-16 Cosmology The Science of the Universe is an introduction to past and present cosmological theory For much of the world s history cosmological thought was formulated in religious or philosophical language and was thus theological or metaphysical in nature However cosmological speculation and theory has now become a science in which the empirical discoveries of the astronomer theoretical physicist and biologist are woven into intricate models that attempt to account for the universe as a whole Professor Harrison draws on the discoveries and speculations of these scientists to provide a comprehensive survey of man s current understanding of the universe and its history Tracing the rise of the scientific method the major aim of this book is to provide an elementary understanding of the physical universe of modern times Thoroughly revised and updated this second edition extends the much acclaimed first edition taking into account the many developments that have occurred      *Outlines of Cosmic Philosophy, Based on the Doctrine of Evolution* John

Fiske,1874      *Land of the Cosmic Race* Christina A. Sue,2013-03-07 Land of the Cosmic Race is a richly detailed ethnographic account of the powerful role that race and color play in organizing the lives and thoughts of ordinary Mexicans It presents a previously untold story of how individuals in contemporary urban Mexico construct their identities attitudes and practices in the context of a dominant national belief system The book centers around Mexicans engagement with three racialized pillars of Mexican national ideology the promotion of race mixture the assertion of an absence of racism in the country and the marginalization of blackness in Mexico The subjects of this book are mestizos the mixed race people of Mexico who are of Indigenous African and European ancestry and the intended consumers of this national ideology Land of the Cosmic Race illustrates how Mexican mestizos navigate the sea of contradictions that arise when their everyday lived experiences conflict with the national stance and how they manage these paradoxes in a way that upholds protects and reproduces the national ideology Drawing on a year of participant observation over 110 interviews and focus groups from Veracruz Mexico Christina A Sue offers rich insight into the relationship between race based national ideology and the attitudes and behaviors of mixed race Mexicans Most importantly she theorizes as to why elite based ideology not only survives but actually thrives within the popular understandings and discourse of those over whom it is designed to govern

*Outlines of Cosmic Philosophy Based on the Doctrine of Evolution, with Criticisms of the Positive Philosophy* John Fiske,1874      **Outlines of Cosmic Philosophy Based on the Doctrine of Evolution** Fiske,1892      The Elusiveness of the Ordinary Stanley Rosen,2008-10-01 The concept of the ordinary along with such cognates as everyday life ordinary language and ordinary experience has come into special prominence in late modern philosophy Thinkers have employed two opposing yet related responses to the notion of the ordinary scientific and phenomenological approaches on the one hand and on the other more informal or even anti scientific procedures Eminent philosopher Stanley Rosen here presents the first comprehensive study of the main approaches to theoretical mastery of ordinary experience He evaluates the responses of a

wide range of modern and contemporary thinkers and grapples with the peculiar problem of the ordinary how to define it in its own terms without transforming it into a technical and so extraordinary artifact Rosen s approach is both historical and philosophical He offers Montesquieu and Husserl as examples of the scientific approach to ordinary experience contrasts Kant and Heidegger with Aristotle to illustrate the transcendental approach and its main alternatives discusses attempts by Wittgenstein and Strauss to return to the pre theoretical domain and analyzes the differences among such thinkers as Moore Austin Grice and Russell with respect to the analytical response to ordinary language Rosen concludes with a theoretical exploration of the central problem of how to capture the elusive ordinary intact *Cosmic Banditos* A. C.

Weisbecker,2001-03-01 Soon to be a major motion picture starring John Cusack Mr Quark is a down on his luck pot smuggler hiding out in the mountains of Colombia with his dog High Pockets and a small band of banditos led by the irascible Jose Only months before these three and their fearless associates were rolling in millions in cash and high grade marijuana eluding prosecution on ridiculously false drug and terrorism charges But times have quickly grown lean and to liven up their exile Jose decides to mug a family of American tourists Among the spoils are physics texts which launch Mr Quark on a side splitting boisterous adventure north to California where he confronts the owner of the books with his own theories on relativity the nature of the universe and looking for the meaning of life in all the wrong places **Outlines of cosmic**

**philosophy** John Fiske,1902 LC copy incomplete v 12 only Vols 1 4 Outlines of cosmic philosophy v 5 Myths and myth makers v 6 The unseen world and other essays v 7 Excursions of an evolutionist v 8 Darwinism and other essays v 9 Studies in religion v 10 A century of science v 11 The Mississippi Valley in the Civil War v 12 Civil government in the United States

**The Cosmic Laws, Being Volume Two of the Arcane Teaching Or Secret Doctrine of Ancient Atlantis, Egypt, Chaldea & Greece** ,1909 *Redefining Nature* Roy Ellen,Katsuyoshi Fukui,2021-01-07 How can anthropology improve our understanding of the interrelationship between nature and culture What can anthropology contribute to practical debates which depend on particular definitions of nature such as that concerning sustainable development Humankind has evolved over several million years by living in and utilizing nature and by assimilating it into culture Indeed the technological and cultural advancement of the species has been widely acknowledged to rest upon human domination and control of nature Yet by the 1960s the idea of culture in confrontation with nature was being challenged by science philosophy and the environmental movement Anthropology is increasingly concerned with such issues as they become more urgent for humankind as a whole This important book reviews the current state of the concepts of nature we use both as scientific devices and ideological constructs and is organised around three themes nature as a cultural construction the cultural management of the environment and relations between plants animals and humans Light and Matter, Two Sides of the Same Coin Daniele Funaro,2024-05-24 With an opinionated and irreverent tone the author debunks most of the current theories in the field of modern physics appealing to the scientific method and common sense At the same time in strict

compliance with the already known experimental evidence he proposes his own version of the facts aimed at rationalizing and unifying the various aspects in which the nature that surrounds us manifests itself The result is a possible model of the universe where events are all connected by a common thread even if distributed on different scales ranging from the subatomic to that of galaxies In this perspective in the middle the living cell profits from a substrate and a habitat that have favoured its very existence Reading of this book does not require any advanced scientific knowledge and is therefore accessible to non experts provided they are equipped with the necessary dose of eccentricity that allows them to appreciate these provocative pages

## **Skip From Common Sense To Cosmology** Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has are more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is truly remarkable.
