Civilizing and Decivilizing Processes Christa Buschendorf, Astrid Franke, Johannes Voetz, 2011-01-18 This volume collects new articles that explore the theoretical framework of figurational or relational sociology as represented by Norbert Elias and Pierre Bourdieu with regard to its relevance to American history culture and literature The emphasis is put on Elias's theory of the civilizing process and the question in how far his study of the European process of state formation and the correlative psycho-social changes is relevant to the analysis of the development of the American nation state and the habitus of Americans Leading scholars from the field of figurational sociology team up with an international cast of renowned Americanists to shed new light on a variety of issues from the domains of social theory cultural history and literary criticism With Elias as a guide drinking and democracy in the early republic nineteenth century Indian boarding schools the fear of slave insurrections and the modern day black ghetto appear as steps in an open ended and non teleological civilizing process that weaves together changes in habitus and social structure Without stumbling into the pitfalls of an ideology of American exceptionalism the figurational approach to American studies allows the contributors of this pioneering collection to give new answers to the tenacious question of the United States peculiar characteristics Adapting Elias's analyses to US American conditions the authors provide fresh impulses for theorizing civilizing and decivilizing processes thus transforming the field of both American studies and figurational sociology The contributors are Jesse F Battan Christa Buschendorf Rachel Hope Cleves Winfried Fluck Astrid Franke Mary O Furner G nter Leyboldt Stephen Mennell Ruxandra R dulescu Kirsten Twelbeck Johannes Voetz Lo c Wacquant and Cas Wouters

Masterful Women Kirsten E. Wood, 2005-12-15 Many early nineteenth century slaveholders considered themselves masters not only over slaves but also over the institutions of marriage and family According to many historians the privilege of mastery was reserved for white males But as many as one in ten slaveholders sometimes more was a widow and as Kirsten E Wood demonstrates slaveholding widows between the American Revolution and the Civil War developed their own version of mastery Because their husbands wills and dower law often gave women authority over entire households widowhood expanded both their domestic mandate and their public profile They wielded direct power not only over slaves and children but also over white men particularly sons overseers and debtors After the Revolution southern white men frequently regarded powerful widows as direct threats to their manhood and thus to the social order By the antebellum decades however these women found support among male slaveholders who resisted the popular claim that all white men were by nature equal regardless of wealth Slaveholding widows enjoyed material legal and cultural resources to which most other southerners could only aspire The ways in which they did and did not translate those resources into social political and economic power shed new light on the evolution of slaveholding society

Reynolds, 2018-05-31 Using Jit Poumisak's *The Real Face of Thai Feudalism Today* 1957 Reynolds both rewrites Thai history and critiques relevant historiography Discussing imperialism feudalism and the nature of power Reynolds argues that comparisons between European and Thai premodern societies reveal Thai social formations to be historical contingent and temporally bounded *For Slavery and Union* Patrick A. Lewis, 2015-03-06 Benjamin Forsythe Buckner 1836 1901 faced a dire choice as the flames of Civil War threatened his native Kentucky As an ambitious Bluegrass aristocrat he was sympathetic to fellow slave owners but was also convinced that the Peculiar Institution could not survive a war for southern independence Defying the wishes of his Rebel fiancée and her powerful family yet still hoping to impress them with his resolve independence and courage Buckner joined the 20th Kentucky Volunteer Infantry in 1861 as a Union soldier President Abraham Lincoln's Emancipation Proclamation ultimately destroyed Buckner's faith in his cause however and he resigned his commission In this groundbreaking biography author Patrick A Lewis uses Buckner's story to illuminate the origins and perspectives of Kentucky's conservative proslavery Unionists and explain why this group became a key force in repressing social and political change during the Reconstruction era and beyond While other studies have explored how this former Union state cultivated a Confederate identity after the Civil War *For Slavery and Union* is the first major work to personify
