Structural Allegory:

The Structural Allegory John Fekete, 1984 The Structural Allegory was first published in 1984 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The radical questions raised by Saussure Barthes Foucault Levi Strauss and others have had an enormous impact on Anglo American literary and cultural studies over the past twenty years John Fekete argues that we can see this strategic development of French thought in terms of what he calls the structural allegory Structuralism proper has given way to the currently dominant model of post structuralism yet we remain uncertain of the practical orientations favored by thinkers associated with both phases of the movement With the aim of uncovering the legacy of the structural tradition the essays in this volume survey key French thinkers including some not well known in the Anglo American context Baudrillard and Castoriadis The essays are reconstructive not deconstructive in character scholarly in method and ecumenical in spirit While the structural allegory emerges from this critical analysis as an inescapable intellectual paradigm analogous to the transformations in quantum physics and modern biology the authors argue that it merits admiration and reservation in equal measure

The Half-vanished Structure Magnus Ullén, 2004 This book takes issue with the tendency in twentieth century Hawthorne criticism to blur the distinction between symbolism and allegory Rejecting the long standing notion that Hawthorne is a symbolist in allegorical disguise Ullén argues that allegory is the key to understanding how religion sexuality aesthetics and politics are interwoven in Hawthorne's writings The study presents a model for allegorical interpretation of general applicability which is brought to bear on each of Hawthorne's mature romances and on the oft neglected Wonder Books written for children An unparalleled analysis of the formal intricacies of Hawthorne's writings this book is an eloquent plea for the necessity of grounding ideological analysis in aesthetical considerations

The Great Pyramid, Its Divine Message David Davidson, Herbert Aldersmith, 1927

Rhetoric's Pragmatism Steven Mailloux, 2017-04-27 For over thirty years Steven Mailloux has championed and advanced the field of rhetorical hermeneutics a historically and theoretically informed approach to textual interpretation This volume collects fourteen of his most recent influential essays on the methodology plus an interview Following from the proposition that rhetorical hermeneutics uses rhetoric to practice theory by doing history this book examines a diverse range of texts from literature history law religion and cultural studies Through four sections Mailloux explores the theoretical writings of Heidegger Burke and Rorty among others Jesuit educational treatises and products of popular culture such as Azar Nafisi's Reading Lolita in Tehran and Star Trek The Next Generation In doing so he shows how rhetorical perspectives and pragmatist traditions work together as two mutually supportive modes of understanding and he demonstrates how the combination of rhetoric and interpretation works both in theory and in practice Theoretically rhetorical hermeneutics can be understood as a form of neopragmatism Practically it focuses on the production circulation and reception of written and

performed communication A thought provoking collection from a preeminent literary critic and rhetorician Rhetoric s Pragmatism assesses the practice and value of rhetorical hermeneutics today and the directions in which it might head Scholars and students of rhetoric and communication studies critical theory literature law religion and American studies will find Mailloux s arguments enlightening and essential **Rhetoric, Language, and Reason** Michel Meyer,2010-11-01 Contemporary or postmodern thought is based on the lack of foundation The impossibility of having a principle for philosophy has become a position of principle As a result rhetoric has taken over Content has given way to the priority of form Michel Meyer s book aims at showing that philosophy as foundational is possible and necessary and that rhetoric can flourish alongside but the conception of reason must be changed Questioning rather than answering must be considered as the guiding principle What the author calls problematology is not only the study of questioning but also the analysis of the reasons why it has been repressed throughout the history of philosophy Since Socrates philosophers and scientists have reasoned by asking questions and by trying to solve them Questioning has been the unthematized foundation of philosophy and thought at large Philosophers however have preferred another norm granting privilege to the answers and thereby repressing the questions into the realm of the preliminary and unessential They have not considered their discursive practice as being based upon some question answer or problem solution complex but exclusively on the results they call propositions Meyer argues that propositions ensue from corresponding questions and not the other way around Anthropology ontology reasoning and language thus receive a new interpretation in the problematological conception of philosophy a conception in which questions and problems are thematized afresh The theory of language in everyday use in argumentation or in literary analysis receives a full and decisive treatment here making Meyer s question view one of the leading theories in contemporary thought alongside his rhetoric for which he is already well known **Fictocritical Strategies** Gerrit Haas,2017-02-15 Gerrit Haas re theorises the peculiar textual conduct of ficto critical writing which inextricably intersects fictional with critical discourses as well as aesthetics with poetics and ethics The slash here signals the conjunction between a self reflexive ficto critical insight and a wider discursive ficto critical motivation In its refined form this twofold trope shifts perspective from the prevalent generic between onto the meta generic level of our textual practices Ultimately the ficto critical is thus qualified as an unheard of interventionist aesthetic of deconstruction directed at the ramifications of our textual cultures **Approaches to Teaching the Romance of the Rose** Daisy Delogu,Anne-Hélène Miller,2023-03-21 One of the most influential texts of its time the Romance of the Rose offers readers a window into the world view of the late Middle Ages in Europe including notions of moral philosophy and courtly love Yet the Rose also explores topics that remain relevant to readers today such as gender desire and the power of speech Students however can find the work challenging because of its dual authorship by Guillaume de Lorris and Jean de Meun its structure as an allegorical dream vision and its encyclopedic length and scope The essays in this volume offer strategies for teaching the poem with confidence and

enjoyment Part 1 Materials suggests helpful background resources Part 2 Approaches presents contexts critical approaches and strategies for teaching the work and its classical and medieval sources illustrations and adaptations as well as the intellectual debates that surrounded it Writing Sites Jon Stratton,1990 A provocative analysis of the theories of Marx Foucault and Derrida *Poetical Works* Edmund Spenser,1912 *Allegories of Contamination* Patrick Rumble,1996-12-15

The Trilogia della vita Trilogy of Life is a series of three films that Pier Paolo Pasolini completed before his horrifying assassination in 1975 and it remains among the most controversial of his cinematic works In *Allegories of Contamination* Patrick Rumble provides an incisive critical and theoretical study of these films and the Marxist filmmaker's complex original concept of the cinematic medium With the three films that make up the Trilogy of Life *The Decameron* *Canterbury Tales* and *The Arabian Nights* Pasolini attempts to recapture the aura surrounding popular predominantly oral forms of storytelling through a pro modern vision of innocent unalienated bodies and pleasures In these works Pasolini appears to abandon the explicitly political engagement that marked his earlier works films that led him to be identified with other radical filmmakers such as Bellocchio Bertolucci and Godard However Pasolini insisted that these were his most ideological films and his political engagement translates into a mannerist anti classical style or what he called a cinema of poetry Rumble offers a comparative study based on the concept of aesthetic contamination which is fundamental to the understanding of Pasolini's poetics Aesthetic contamination concerns the mediation between different cultures and different historical moments Through stylistic experimentation the Trilogy of Life presents a genealogy of visual codes an interrogation of the subjectivity of narrative cinema In these films Pasolini celebrates life and perhaps therein lies their simple heresy
