Structural Arithmetic Metaphor In The Oxford Roland:

Structural Arithmetic Metaphor in the Oxford "Roland." Eleanor Webster Bulatkin,1972 **The Song of Roland** W. S. Merwin,2011-04-20 A contemporary prose rendering of the great medieval French epic The Song of Roland is as canonical and significant as the Anglo Saxon Beowulf It extols the chivalric ideals in the France of Charlemagne through the exploits of Charlemagne s nephew the warrior Roland who fights bravely to his death in a legendary battle Against the bloody backdrop of the struggle between Christianity and Islam The Song of Roland remains a vivid portrayal of medieval life knightly adventure and feudal politics The first great literary works of a culture are its epic chronicles those that create simple hero figures about whom the imagination of a nation can crystallize observed V S Pritchett The Song of Roland is animated by the crusading spirit and fortified by national and religious propaganda This edition features W S Merwin s glowing lyrical translation *La Chanson de Roland* Gerard J. Brault,2010-11-01 [The Medieval Charlemagne Legend](#) Susan E. Farrier,2024-02-02 Originally published in 1993 The Medieval Charlemagne Legend is a selective bibliography for the literary scholar of historical and literary material relating to Charlemagne The book provides a chronological listing of sources on the legend and man is split into three distinct sections covering the history of Charlemagne the literature of Charlemagne and the medieval biography and chronicle of Charlemagne *Essays in the Numerical Criticism of Medieval Literature* Caroline D. Eckhardt,1979 The essays in this collection are attempts to understand medieval aesthetic principles and products not to champion the numerical approach All the essays share a confidence that when Chaucer for example wrote alle thynges been ordeyned and nombred he was enunciating a philosophical and aesthetic principle of fundamental importance to medieval thought [Metaphor](#) ,1985-01-01 The aim of the present bibliography is to provide the student of metaphor with an up to date and comprehensive albeit not exhaustive overview of recent publications dealing with various aspects of metaphor in a variety of disciplines Where the emphasis is primarily on specific works about metaphor mainly in philosophy linguistics and psychology the list has been supplemented with references to studies where metaphor is explicitly recognized as an instrument of research or analysis e g in literature or in the elaboration of scientific and religious models or where its use is illustrated [A Guide to Studies on the Chanson de Roland](#) Joseph J. Duggan,1976 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1974 *Lost Knowledge* Benjamin B. Olshin,2019-02-19 *Lost Knowledge* The Concept of Vanished Technologies and Other Human Histories examines the idea of lost knowledge reaching back to a period between myth and history It investigates a peculiar idea found in a number of early texts that there were civilizations with knowledge of sophisticated technologies and that this knowledge was obscured or destroyed over time along with the civilization that had created it This book presents critical studies of a series of early Chinese South Asian and other texts that look at the idea of specific lost technologies such as mechanical flight and the transmission of images There is also an examination of why concepts of a vanished golden age were prevalent in so many

cultures Offering an engaging and investigative look at the propagation of history and myth in technology and culture this book is sure to interest historians and readers from many backgrounds **Don Quixote Among the Saracens** Frederick A. de Armas, 2013-06-17 The fictional Don Quixote was constantly defeated in his knightly adventures In writing Quixote s story however Miguel Cervantes succeeded in a different kind of quest the creation of a modern novel that conquers and assimilates countless literary genres spanDon Quixote among the Saracens considers how Cervantes s work reflects the clash of civilizations and anxieties towards cultural pluralism that permeated Golden Age Spain Frederick A de Armas unravels an essential mystery of one of world literature s best known figures why Quixote sets out to revive knight errantry and why he comes to feel at home only among the Moorish Saracens a people whom Quixote feared at the beginning of the novel De Armas also reveals Quixote s inner conflicts as both a Christian who vows to battle the infidel but also a secret Saracen sympathizer While delving into genre theory Don Quixote among the Saracens adds a new dimension to our understandings of Spain s multicultural history
