Structural Economic Dynamics:

Structural Economic Dynamics Luigi L. Pasinetti, 1993-02-26 This book is a theoretical investigation of the influence of human learning on the development through time of a pure labour economy The theory proposed is a simple one but aims to grasp the essential features of all industrial economies Economists have long known that two basic phenomena lie at the root of long term economic movements in industrial societies capital accumulation and technical progress Attention has been concentrated on the former In this book by contrast technical progress is assigned the central role Within a multi sector framework the author examines the structural dynamics of prices production and employment implied by differentiated rates of productivity growth and expansion of demand against a background of natural relations He also considers a number of institutional problems Institutional and social learning know how and the diffusion of knowledge emerge as the decisive factors accounting for the success and failure of industrial societies *Structural Dynamics and Economic Growth* Richard

Arena, Pier Luigi Porta, 2012-05-03 Ever since Adam Smith economists have been preoccupied with the puzzle of economic growth The standard mainstream models of economic growth were and often still are based either on assumptions of diminishing returns on capital with technological innovation or on endogenous dynamics combined with a corresponding technological and institutional setting An alternative model of economic growth emerged from the Cambridge School of Keynesian economists in the 1950s and 1960s This model developed mainly by Luigi Pasinetti emphasizes the importance of demand human learning and the growth dynamics of industrial systems Finally in the past decade new mainstream models have emerged incorporating technology or demand based structural change and extending the notion of balanced growth This collection of essays reassesses Pasinetti's theory of structural dynamics in the context of these recent developments with contributions from economists writing in both the mainstream and the Cambridge Keynesian traditions and including Luigi Pasinetti William Baumol Geoffrey Harcourt and Nobel laureate Robert Solow **Resources, Production and Structural**
