Joshua Gunn

Structure And Perversions:

Structure and Perversions Joël Dor, 2001 In this volume Joël Dor's practiced command of psychoanalytic theory and rigorous expository style are brought to bear on a concept which has long been a subject of fascination and misapprehension: perversion. In Dor's account, perversion is something that applies to each of us at least when it comes to the structural dynamics of desire that it reveals. Clearing away the surrounding ideological clutter, Dor explains perversion in structural terms that go beyond the occurrence of a psychopathological scenario and brings us closer through compelling clinical tales to a profound understanding of the concept of psychic structure.

Perversions of Fascism Antonios Vadolos, 2018-04-17 Contemporary versions of evil demonise modern fascists' totalitarian threats and Hitlers. As if not obscure enough, fascist evil has been equivocally linked with perversion. This book reveals that both fascism and perversion implicate the non-symbolisable kernel in politics which becomes the source of their mystification. It argues that the fascist does not take the same discursive position as the pervert does regarding this symbolic gap. The author develops a new rhetoric: de-pathologised and de-ideologised regarding the structure of the so-called pervert, introducing new vocabularies and directions for psychoanalytic research that further distance the pervert or whom he calls the extra-ordinary subject from fascist politics and instead exposes his diachronic fascist isolation from the social edifice. This reveals the fruitful alternatives that can stem from a return to Freud cum Lacan which supports a flexible ongoing reformulation of psychoanalytic knowledge.

Perversion Prof. Lisa Downing, Dany Nobus, 2018-04-24 Perversion's ubiquity in infantile life and its persistence in the psychical and sexual lives of some adults was a central element of Freud's lifelong work. The problem of perversion has since been revisited by many psychoanalytic schools with the result that Freud's original view of perversion has been replaced by numerous often contradictory perspectives on its aetiology, development and treatment. The concept of perversion has also been significant for the disciplines of cultural studies and gender and queer theory which have explored the creative and dissident powers of perversion while expressing a suspicion of its operation as a pathological category. This bi-partite collection offers a series of perspectives on perversion by a range of psychoanalytic practitioners and theorists edited by Dany Nobus and a selection of papers by scholars who work with or critique psychoanalytic theories of perversion edited by Lisa Downing. It stages a serious dialogue between psychoanalysis and its commentators on the controversial issue of non-normative sexuality.

The World of Perversion James Penney, 2012-02-01 In *The World of Perversion* James Penney argues that antihomophobic criticism has nothing to lose and indeed everything to gain by reclaiming the psychoanalytic concept of perversion as psychic structure. Analyzing the antagonism between psychoanalytic approaches to perversion and those inspired by the work of Michel Foucault, Penney explores how different assumptions about sexuality have determined the development of contemporary queer theory and how the universalizing approach to homosexuality in psychoanalysis actually leads to more useful political strategies for nonheterosexual subjects. Having established this theoretical context, Penney focuses on works

by Georges Bataille Blaise Pascal Denis Diderot and Jacques Lacan tracing the implications of various sexual and moral understandings of the term perversion and illustrating how a psychoanalytic approach to the question of perversion enables politicized readings that are foreclosed by a Foucauldian methodology

Perversion Fiona Ross, 2018-04-17 Theoretical understanding of perversion is neglected in analytical psychology and narrowly developed in psychoanalysis where it traditionally refers to sexual perversion Etymological exploration of the word perversion including its use in religious moral sociological and legal contexts reveals a wider meaning than that adopted in psychoanalysis The aim of the author is to revise the psychoanalytic model through the introduction of Jungian concepts that extend the understanding of perversion beyond the bounds of sexuality to a more general relational context By describing the development of psychoanalytic thinking on perversion in detail the author is able to highlight the central differences between the Freudian and Jungian interpretive traditions and to explain why Jungian ideas on perversion have remained underdeveloped leading to the absence of a unique or available Jungian contribution to the theory of perversion

Aggression in Personality Disorders and Perversions Otto F. Kernberg, 1992-01-01 In this important new book Dr Otto F Kernberg one of the world's foremost psychoanalysts explores the role of aggression in severe personality disorders and in normal and perverse sexuality integrating new developments in psychoanalytic theory with findings from clinical work with severely regressed patients The book also integrates Dr Kernberg's recent studies of the descriptive structural and psychodynamic features of problems stemming from pathological aggression with the vicissitudes of their psychoanalytic treatment Finally Dr Kernberg demonstrates the importance of differential diagnosis for effective psychoanalytically inspired treatment of these disorders providing a rich variety of clinical illustrations The book begins by relating the dual drive theory of libido and aggression to contemporary developments in affect theory Dr Kernberg then applies this general theory of affects to aggression which in its pathological form centers on the affect of hatred He analyzes sado masochistic hysterical hysteroid and narcissistic antisocial spectrums of personality disorders emphasizing how aggression is structured in each group Dr Kernberg next describes and updates the theoretical frame underlying his approach to the treatment of these disorders outlines their clinical manifestations and illustrates their diagnosis and treatment ranging from standard psychoanalysis with infantile personalities to psychoanalytic psychotherapy with borderline personalities to the psychotherapeutic approach to the treatment of psychosis and hospital milieu treatment in the management of highly regressed patients In the final section Dr Kernberg links the findings from psychoanalytic approaches to personality disorders with those from the psychoanalytic study of sexual perversions

Perversity and Ethics William Egginton, 2006 Perversity and Ethics argues that a psychoanalytic reading of the phenomenon of perversity is crucial to understanding contemporary philosophical ethics

Perversion Now! Diana Caine, Colin Wright, 2017-04-06 This collection written by leading Lacanian psychoanalytic theorists and practitioners explores the impact of shifts in contemporary culture politics and society on the notion of perversion which has undergone numerous profound changes in

recent years The book explores a wide range of issues from changes in the psychoanalytic clinic to transformations in the relationship between transgression and the law from the epistemic and diagnostic status of perversion as a term to the perverse turn in contemporary politics from representations of perversion in cultural productions to the interpretation of perverse cultural practices Topical and controversial academics and students of psychoanalysis critical and cultural theory and media studies will find this collection invaluable In providing cutting edge theoretical debate the book will also be attractive to practising and training psychoanalysts and psychoanalytic psychotherapists div

The Postcolonial Eye Alison Ravenscroft, 2016-03-03 Informed by theories of the visual knowledge and desire *The Postcolonial Eye* is about the eye and the I in contemporary Australian scenes of race Specifically it is about seeing where vision is taken to be subjective and shaped by desire and about knowing one another across the cultural divide between white and Indigenous Australia Writing against current moves to erase this divide and to obscure difference Alison Ravenscroft stresses that modern Indigenous cultures can be profoundly even bewilderingly strange and at times unknowable within the terms of white cultural forms She argues for a different ethics of looking in particular for aesthetic practices that allow Indigenous cultural products especially in the literary arts to retain their strangeness in the eyes of a white subject The specificity of her subject matter allows Ravenscroft to deal with the broad issues of postcolonial theory and race and ethnicity without generalising This specificity is made visible in for example Ravenscroft's treatment of the figuring of white desire in Aboriginal fiction film and life stories and in her treatment of contemporary Indigenous cultural practices While it is located in Australian Studies Ravenscroft's book in its rigorous interrogation of the dynamics of race and whiteness and engagement with European and American literature and criticism has far reaching implications for understanding the important question of race and vision

Political Perversion Joshua Gunn, 2020-10-10 When Trump became president much of the country was repelled by what they saw as the vulgar spectacle of his ascent a perversion of the highest office in the land In his bold innovative book *Political Perversion* rhetorician Joshua Gunn argues that this mean spirited turn in American politics of which Trump is the paragon is best understood as a structural perversion in our common culture on a continuum with infantile and gotcha forms of entertainment meant to engender provocation and sadistic enjoyment Drawing on insights from critical theory media ecology and psychoanalysis Gunn argues that perverse rhetorics dominate not only the political sphere but also our daily interactions with others in person and online From sexting to campaign rhetoric Gunn advances a new way to interpret our contemporary political context that explains why so many of us have difficulty deciphering the appeal of aberrant public figures In this book Trump is only the tip of a sinister rapidly growing iceberg one to which we ourselves unwittingly contribute on a daily basis

Structure And Perversions Book Review: Unveiling the Power of Words

In a world driven by information and connectivity, the ability of words has are more evident than ever. They have the ability to inspire, provoke, and ignite change.
