The wars that "made" nations and the wars waged between nations have been the traditional province of the historian. But it has been the bias of the Western tradition of political research to assume that once nations were "made," internal violence was a disagreeable and aberrational activity destructive to political life, rather than a revelation of some of its deepest sources. B., Jr.), and we attempted, here, to assemble the essays and chapters that have proved valuable in the classroom, enhanced by some new additions. Conversations and exchanges with other social scientists confirmed our
