Student Ratings Of Instruction Issues For Improving Practice:

Student Ratings of Instruction Michael Theall, Jennifer Franklin, 1990 *Student Ratings of Instruction* Michael Theall, 1990 Online Student Ratings of Instruction D. Lynn Sorenson, Trav D. Johnson, 2011-09-28 This volume examines the development and growing use of online student ratings and the potential impact online rating systems will have on the future of students evaluations of teaching The contributors demonstrate how the preference for online evaluation is growing even amidst challenges and doubt Sharing their first hand experience as researchers and administrators of online systems they explore major concerns regarding online student ratings and suggest possible solutions D Lynn Sorenson and Christian M Reiner review existing online rating systems that have been developed independently across the globe Kevin Hoffman presents the results of a national survey that tracks the increased use of the Internet for student ratings of instruction At Northwestern University Nedra Hardy demonstrates how ongoing research about online student evaluations is helping to dispel common misperceptions Application of online rating systems can present institutions with new challenges and obligations Trav D Johnson details a case study based on five years of research in the response rates for one university s online evaluation system and suggests strategies to increase student participation Reviewing online reporting of results of online student ratings Donna C Llewellyn explores the emerging issues of security logistics and confidentiality Other chapters explore existing online systems highlighting their potential benefits for institution and instructor alike Beatrice Tucker Sue Jones Lean Straker and Joan Cole analyze Course Evaluation on the Web CEW a comprehensive online system for instructional feedback and improvement Cheryl Davis Bullock reviews the Evaluation Online EON system and its successful role in facilitating midcourse student feedback The fate of online rating may rest in the unique advantages it may or may not have over traditional ratings systems Debbie E McGhee and Nana Lowell compare online and paper based methods through mean ratings inter rater reliabilities and factor structure of items Comparing systems from another angle Timothy W Bothell and Tom Henderson examine the fiscal costs and benefits of implementing an online evaluation system over paper based systems Finally Christina Ballantyne considers the prominent issues and thought provoking ideas for the future of online student ratings raised in this volume Together the contributors bring insight and understanding to the processes involved in researching and initiating innovations in online rating systems This is the 96th issues of the quarterly journal *New Directions for Teaching and Learning* Top 10 Flashpoints in Student Ratings and the Evaluation of Teaching Ronald A. Berk, 2023-07-03 ATTENTION ALL FACULTY ADMINISTRATORS Another book on student ratings Are you kidding me Nope but this one is REALLY different Another review of the research or step by step on how to develop and interpret rating scales NOT Berk did that with Thirteen Strategies Designed to solve YOUR problems conflicts and confusion about how to evaluate teaching Written expressly for YOU with Berk s signature sense of humor FLASHPOINT a critical stage in a process trouble spot contentious issue volatile hot button or lowest temperature at which a flammable liquid will give off enough vapor to

igniteThe flashpoints covered are the topics that pop up the most frequently and heatedly on listservs blogs and the literature Each flashpoint is defined succinctly options are presented and then evidence based recommendations for concrete action steps are proffered in an effort to stop the popping The recommendations are grounded in psychometric professional and legal standards The last named in particular can protect you from costly litigation If you hire promote demote and fire full and part time faculty based on student ratings and other measures then you are vulnerable to violations of federal anti discrimination laws Several flashpoints address procedures you can take to stay out of court If you are a faculty member you need to know whether your institution s measures of teaching are appropriate and defensible and what you should do if they are not Four sample flashpoints and solutions Use of global items for summative decisions SOLUTION Cease desist and use scale and subscale ratings Low response rate in online administrations SOLUTION 20 strategies to increase rates Scales to evaluate online and blended hybrid courses SOLUTION 7 strategies are suggested and evaluated Use of ratings for contract renewal pay raise teaching awards and promotion and tenure SOLUTION Applying 80 20 rule for adverse impact to avoid lawsuits related to unequal pay gender race ethnicity and age discrimination Teacher Thinking, Beliefs and Knowledge in Higher Education N. Hativa,Jeffrey Goodyear,2012-12-06 This volume addresses the important problem of understanding good university teaching and focuses on the thinking beliefs and knowledge which accompany teachers actions It is the first book to address this area and it promises to become a landmark volume in the field helping us to understand a complex area of human activity and improve both teaching and learning It is for education researchers staff faculty developers and educational developers **Thirteen Strategies to Measure College Teaching** Ronald A. Berk,2023-07-03 Student evaluations of college teachers perhaps the most contentious issue on campus This book offers a more balanced approach Evaluation affects pay promotion and tenure so of intense interest to all faculty Major academic marketing and publicity Combines original research with Berk s signature wacky humorTo many college professors the words student evaluations trigger mental images of the shower scene from Psycho with those bloodcurdling screams They re thinking Why not just whack me now rather than wait to see those ratings again This book takes off from the premise that student ratings are a necessary but not sufficient source of evidence for measuring teaching effectiveness It is a fun filled but solidly evidence based romp through more than a dozen other methods that include measurement by self peers outside experts alumni administrators employers and even aliens As the major stakeholders in this process both faculty AND administrators plus clinicians who teach in schools of medicine nursing and the allied health fields need to be involved in writing adapting evaluating or buying items to create the various scales to measure teaching performance This is the first basic introduction in the faculty evaluation literature to take you step by step through the process to develop these tools interpret their scores and make decisions about teaching improvement annual contract renewal dismissal merit pay promotion and tenure It explains how to create appropriate high quality items and detect those that can introduce bias and unfairness into the results Ron

Berk also stresses the need for triangulation the use of multiple complementary methods to provide the properly balanced comprehensive and fair assessment of teaching that is the benchmark of employment decision making This is a must read to empower faculty administrators and clinicians to use appropriate evidence to make decisions accurately reliably and fairly Don t trample each other in your stampede to snag a copy of this book **Effective Teaching in Higher Education**
