Technological Options For User Authorized Handguns A Technology Readiness Assessment:

Technological Options for User-Authorized Handguns National Academy of Engineering, Committee on User-Authorized Handguns, 2005-08-28 Misuse of handguns is a significant factor in deaths morbidity and crime in the United States One approach to reducing certain types of handgun misuse is to create a user authorized handgun UAHG a firearm that can be operated only by an authorized user s Technological Options for User Authorized Handguns clarifies the technical challenges of developing a reliable UAHG This report determines the requirements and specifications of UAHGs for those concerned with public and or personal safety and identifies technologies that could satisfy these needs *Emily Gets Her Gun* Emily Miller, 2013-09-03 In the wake of tragic shootings in Newtown and Aurora the anti gun lobby has launched a campaign of lies distortion misrepresentation and emotional manipulation that is breathtaking in its vitriol and its denial of basic facts Their goal is to take away our Second Amendment rights and then disarm law abiding Americans Emily Miller tells her personal story of how being a single female victim of a home invasion drove her to try to obtain a legally registered gun in Washington D C The narrative sometimes shocking other times hilarious in its absurdity gives the reader a real life understanding of how gun control laws only make it more difficult for honest law abiding people to get guns while violent crime continues to rise Using facts and newly uncovered research Miller exposes the schemes politicians on Capitol Hill in the White House and around the country are using to deny people their Second Amendment rights She exposes the myths that gun grabbers and liberal media use to get new laws passed that infringe on our right to keep and bear arms The gun rights debate isn t just about firearms It s about protecting a fundamental right that is enshrined in the U S Constitution It s about politicians who lie manipulate and outright break existing laws to get what they want It s about President Obama wanting a bigger federal government to control you Not just your guns you The fight for gun rights is the fight for freedom Emily Miller says stand up and fight back now because your Second Amendment will only be the first to go *Strengthening the National Institute of Justice* National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on Assessing the Research Program of the National Institute of Justice, 2010-10-14 The National Institute of Justice NIJ is the nation s primary resource for advancing scientific research development and evaluation on crime and crime control and the administration of justice in the United States Headed by a presidentially appointed director it is one of the major units in the Office of Justice Programs OJP of the U S Department of Justice Under its authorizing legislation NIJ awards grants and contracts to a variety of public and private organizations and individuals At the request of NIJ Strengthening the National Institute of Justice assesses the operations and quality of the full range of its programs These include social science research science and technology research and development capacity building and technology assistance The book concludes that a federal research institute such as NIJ is vital to the nation s continuing efforts to control crime and administer justice No other federal state local or private organization can do what NIJ

was created to do Forty years ago Congress envisioned a science agency dedicated to building knowledge to support crime prevention and control by developing a wide range of techniques for dealing with individual offenders identifying injustices and biases in the administration of justice and supporting more basic and operational research on crime and the criminal justice system and the involvement of the community in crime control efforts As the embodiment of that vision NIJ has accomplished a great deal It has succeeded in developing a body of knowledge on such important topics as hot spots policing violence against women the role of firearms and drugs in crime drug courts and forensic DNA analysis It has helped build the crime and justice research infrastructure It has also widely disseminated the results of its research programs to help guide practice and policy But its efforts have been severely hampered by a lack of independence authority and discretionary resources to carry out its mission

Priorities for Research to Reduce the Threat of Firearm-Related Violence

National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Institute of Medicine, Executive Office, Institute of Medicine, Committee on Priorities for a Public Health Research Agenda to Reduce the Threat of Firearm-Related Violence, 2013-10-03 In 2010 more than 105 000 people were injured or killed in the United States as the result of a firearm related incident Recent highly publicized tragic mass shootings in Newtown CT Aurora CO Oak Creek WI and Tucson AZ have sharpened the American public's interest in protecting our children and communities from the harmful effects of firearm violence While many Americans legally use firearms for a variety of activities fatal and nonfatal firearm violence poses a serious threat to public safety and welfare In January 2013 President Barack Obama issued 23 executive orders directing federal agencies to improve knowledge of the causes of firearm violence what might help prevent it and how to minimize its burden on public health One of these orders directed the Centers for Disease Control and Prevention CDC to along with other federal agencies immediately begin identifying the most pressing problems in firearm violence research The CDC and the CDC Foundation asked the IOM in collaboration with the National Research Council to convene a committee tasked with developing a potential research agenda that focuses on the causes of possible interventions to and strategies to minimize the burden of firearm related violence Priorities for Research to Reduce the Threat of Firearm Related Violence focuses on the characteristics of firearm violence risk and protective factors interventions and strategies the impact of gun safety technology and the influence of video games and other media
