Rezazadeh,2003 For more information about the author and his publications visit www.democracywhere.com This study demonstrates that because their opposing nature democracy and capitalism or socialism cannot coexist To have a democratic society we have to replace capitalism or socialism with a democratic free market economy and take government out of regulating people s business and daily life The author attempts to present such a democratic concept its societal structure and function and how under such a system people understand the purpose of life work less hours yet have a prosperous leisurely and satisfying life The book is actually the story of some parts from the author s life written in an autobiographical form showing hardships sufferings failures incredible adventures romance and love he encountered in developing his theory and how persistence and determination despite repeated failures helped him to succeed in developing his theory and at the same time transformed him to a better human being

Dark Worlds Bryan Kovach,2010-12-09

When Val Anna Naruna vanishes in 1901 her parents believe she is dead and they are unaware that her friend Taran had entrusted her with a secret stone More than one hundred years later Val Anna mysteriously reappears on the Auriga a spacecraft buried deep beneath the Canaanite city of Hazor Val Annas stone holds the key to a destiny The stones were one before they were broken Then the War of Destroying Fire came and the Ban followed Now 150 000 years later the power that was divided and hidden is awakening Its arrival threatens the Earth fracturing time and space into countless dark worlds In this sequel to Dark Mirror scientists Seijung Ford and Hannah Aston join the covert Foundation Technologies International group on an expedition to the bottom of the Atlantic at a secret location in international waters Though granted little explanation for the location or the presence of company paramilitaries Ford and Aston soon discover the truth their corporate sponsors have been hiding from them all along

Science and Technology in World History James E. McClellan III,Harold Dorn,2015-12-15

Arguably the best general history of science and technology ever published Tracing the relationship between science and technology from the dawn of civilization to the early twenty first century James E McClellan III and Harold Dorn s bestselling book argues that technology as applied science emerged relatively recently as industry and governments began funding scientific research that would lead directly to new or improved technologies McClellan and Dorn identify two great scientific traditions the useful sciences which societies patronized from time immemorial and the exploration of questions about nature itself which the ancient Greeks originated The authors examine scientific traditions that took root in China India and Central and South America as well as in a series of Near Eastern empires in late antiquity and the Middle Ages From this comparative

perspective McClellan and Dorn survey the rise of the West the Scientific Revolution of the seventeenth century the Industrial Revolution and the modern marriage of science and technology They trace the development of world science and technology today while raising provocative questions about the sustainability of industrial civilization This new edition of Science and Technology in World History offers an enlarged thematic introduction and significantly extends its treatment of industrial civilization and the technological supersystem built on the modern electrical grid The Internet and social media receive increased attention Facts and figures have been thoroughly updated and the work includes a comprehensive Guide to Resources incorporating the major published literature along with a vetted list of websites and Internet resources for students and lay readers

The Futurist, 1982 Window of the Dark World Josiah C. Racer, 2009-07-28 Peace will never be in generation where evil seems to be legislated accustomed denied concealed redefined and rationalized Humankind has neglected norms for moral uprightness

Women, Power, and Childbirth Kathleen D. Turkel, 1995-11-06 Based on her 12 year study of a free standing birth center Turkel analyzes the medical model of childbirth in contrast to the midwifery model In the medical model of birth women are defined as patients and birth takes place in hospitals where women have little if any control over their experience The midwifery model views birth as a healthy process where midwives act as teachers and guides for women during pregnancy and birth helping women and their families to shape and define their experience to meet their needs and expectations Under existing legal and cultural circumstances free standing birth centers face a dilemma They must continually accomodate the medical model while trying to maintain the midwifery model and give women an option to home birth or to hospital birth
