Technology Time And The Conversations Of Modernity:

Technology, Time, and the Conversations of Modernity Lorenzo Charles Simpson, 1995 By confronting issues raised in the various theoretical discourses concerning modernity with those engendered by a critical assessment of technology Simpson elaborates a systematic critique of technological rationality

Technology, Time, and the Conversations of Modernity Lorenzo C. Simpson, 2014-04-23 Technology Time and the Conversations of Modernity takes as its impetus the idea that technology is an embodiment of our uneasiness with finitude Lorenzo Simpson argues that technology has succeeded in granting our wish to domesticate time He shows how this attitude affects our understanding of the meaning of action and our ability to discern meaning in our lives

Philosophy and Temporality from Kant to Critical Theory Espen Hammer, 2011-03-31 This book is a critical analysis of how key philosophers in the European tradition have responded to the emergence of a modern conception of temporality Espen Hammer suggests that it is a feature of Western modernity that time has been forcibly separated from the natural cycles and processes with which it used to be associated In a discussion that ranges over Kant Hegel Schopenhauer Nietzsche Heidegger and Adorno he examines the forms of dissatisfaction which result from this together with narrative modes of configuring time the relationship between agency and temporality and possible challenges to the modern world's linear and homogenous experience of time His study is a rich exploration of an enduring philosophical theme the role of temporality in shaping and reshaping modern human affairs

Global Perspectives on E-Learning Alison A. Carr-Chellman, 2004-12-15 Global Perspectives on E Learning Rhetoric and Reality presents several cases of international online education and the rhetoric that surrounds this form of teaching and learning Editor Alison A Carr Chellman examines the impact of online distance education throughout the world in an effort to understand more deeply the merits of such initiatives Written from a critical perspective the book sheds light on some of the problems faced by international distance educators It particularly focuses on who benefits and who does not by the advance of international e learning and how we can respond to the needs of the disenfranchised This book is intended to supplement what has to this point been largely a positive how to literature in distance education It offers a balanced perspective on the problems and possibilities of distance education worldwide

Christian Ethics in a Technological Age Brian Brock, 2010-06-28 Through close analysis of the historical and conceptual roots of modern science and technology Brian Brock here develops a theological ethic addressing a wide range of contemporary perplexities about the moral challenges raised by new technology

Digital Performance Steve Dixon, 2015-01-30 The historical roots key practitioners and artistic theoretical and technological trends in the incorporation of new media into the performing arts The past decade has seen an extraordinarily intense period of experimentation with computer technology within the performing arts Digital media has been increasingly incorporated into live theater and dance and new forms of interactive performance have emerged in participatory installations on CD ROM and on the Web In Digital Performance Steve Dixon traces the evolution of these

practices presents detailed accounts of key practitioners and performances and analyzes the theoretical artistic and technological contexts of this form of new media art Dixon finds precursors to today's digital performances in past forms of theatrical technology that range from the deus ex machina of classical Greek drama to Wagner's Gesamtkunstwerk concept of the total artwork and draws parallels between contemporary work and the theories and practices of Constructivism Dada Surrealism Expressionism Futurism and multimedia pioneers of the twentieth century For a theoretical perspective on digital performance Dixon draws on the work of Philip Auslander Walter Benjamin Roland Barthes Jean Baudrillard and others To document and analyze contemporary digital performance practice Dixon considers changes in the representation of the body space and time He considers virtual bodies avatars and digital doubles as well as performances by artists including Stelarc Robert Lepage Merce Cunningham Laurie Anderson Blast Theory and Eduardo Kac He investigates new media's novel approaches to creating theatrical spectacle including virtual reality and robot performance work telematic performances in which remote locations are linked in real time Webcams and online drama communities and considers the extratemporal illusion created by some technological theater works Finally he defines categories of interactivity from navigational to participatory and collaborative Dixon challenges dominant theoretical approaches to digital performance including what he calls postmodernism's denial of the new and offers a series of boldly original arguments in their place

Technoculture and Critical Theory Simon Cooper, 2003-08-29 The author explores the work of major thinkers and cultural movements that have grappled with the complex relationship between technology politics and culture Subjects such as the Internet cloning warfare fascism and Virtual Reality are placed within a broad theoretical context which explores how humanity might through technology establish a more ethical relationship with the world Examining the philosophy of writers such as Heidegger Benjamin Lyotard Virilio and Žižek and cultural movements such as Italian Futurism this book marks a timely intervention in critical theory debates The broad scope of the book will be of vital interest to those in the fields of philosophy critical theory cultural studies politics and communications

Empires of Speed Robert Hassan, 2009 The beginning of the 21st century is witnessing the emergence of a social political and technological revolution in networked computing We now live in a networked society but it functions and develops at such an accelerating rate that it becomes increasingly difficult to adequately understand the nature of this radical society Empires of Speed is the first book to analyse the far reaching transformations of speed filled everyday life In a compelling study Hassan shows that we are leaving behind a modern world based upon the time of the clock and are entering a new and volatile phase where an accelerating network time poses fundamental economic and political challenges in our postmodern world challenges we barely comprehend and are thus woefully unprepared for
