Teen Violence A Global View:

Teen Violence Allan M. Hoffman, Randal W. Summers, 2001 The complexities and tragedies arising from teen violence are problems faced on every continent in the world Fourteen case studies of carefully selected countries representative of every region of the world are presented in this absorbing volume that is the first to examine the causes and possible solutions for the problem of teen violence around the world Students and teachers can make cross cultural comparisons to discover how the problem is viewed in different countries how the problem is changing which factors seem to contribute to the rate of teen violence in almost all of the countries and which are unique to specific countries Readers can also take a fascinating look at the various solutions to the problem that have been proposed and tested throughout the world Each chapter is divided into similar subsections so students can easily compare specific topics among different countries and cultures They will find that the perception of teen violence in different countries does not always reflect the reality They can discover how such factors as drug use family dynamics and educational settings play an important role in teen violence across many different cultures while also discovering the unique settings and situations that contribute to violence in unfamiliar cultures This world view will help build better understanding of how social issues affect all societies *Teen Gangs* Maureen P. Duffy, Scott E. Gillig, 2004-03-30 Teen gangs are a hot issue in the United States This volume shows the international scope of the

phenomenon today Gang activity in 14 countries including the United States is discussed within the larger framework of social and economic conditions Each chapter explains the nature of the gang activity in that country touches on the causes such as poverty marginalization and self identity problems and heavily emphasizes the responses including education and community based intervention Students and researchers will find a wealth of current information on teen gangs to mine and use for comparisons

Migration and Immigration Maura I. Toro-Morn, Marisa Alicea, 2004-03-30 The post World War II period has been called the age of migration since an unprecedented number of people worldwide have been on the move This reference surveys migration and immigration past and present in 14 representative countries Historical social political and economic consequences of migration are considered Students and researchers will find the synthesis indispensable and the format ideal for comparisons The collective analysis of the contributors who hail from a range of disciplines ultimately defies the simple characterization of migration as a choice of people seeking better income opportunities The authors are sensitive to the ways that race class and gender dynamics influence the composition of migratory flows the reasons why people migrate and the outcomes of population movements Each chapter explicates the human cost of migration giving readers a better understanding of social issues underlying migration at the beginning of the 21st century

Teenage Pregnancy Andrew L. Cherry Jr., Mary E. Dillon, Douglas Rugh, 2001-09-30 Teenage pregnancy is a worldwide problem that accompanies the initiation of sexual activity at increasingly younger ages This unique reference resource provides students with cross cultural comparisons of the issues associated with teenage pregnancy How do different cultures deal with this problem How

has the problem changed in recent years What programs have been initiated to try to control the problem Answers to these and other questions for fifteen different countries are explored in detail to give a global perspective and to challenge students to think about how the problem should be addressed The fifteen countries represented have been carefully chosen to represent the different regions of the world Student researchers can use this resource to study the similarities that cross national and regional boundaries despite the varying needs and experiences of adolescents around the world By understanding the history of teenage pregnancy and how it is viewed both socially and politically in each of the countries students can come to an understanding of how it affects the world what its dangers are and how we can come up with a comprehensive strategy for preventing and coping with it everywhere *Encyclopedia of Juvenile Violence* Laura L. Finley, 2006-12-30 From concerns about juveniles incorrigibility at the turn of the century to school violence in the 1990s adults have attempted to understand control and prevent juvenile violence Yet juvenile violence takes many forms including both violence by juveniles and violence against juveniles and has various causes and consequences Since juvenile violence cannot be understood without examining the social context of a given time this comprehensive encyclopedia provides a historical overview of many significant time periods and offers entries about many types of juvenile violence It covers competing theories of youth violence issues such as gender race and educational status and the criminal justice system s methods for dealing with both victims and offenders over time Additionally several topics that receive little attention in traditional volumes about juvenile violence such as hazing systemic violence in schools peaceable schools are covered in these pages Each entry utilizes current sources making the book as up to date as possible The front and back matter offer important information including a chronological list of significant events related to juvenile violence and book and Web resources Authors represent many different fields including Sociology Psychology Education History Social Work Political Science Policing and English This offers readers a diversity of perspectives and information from a variety of sources Confronting a difficult and often misunderstood subject this encyclopedia is essential to a better understanding of juvenile violence **Teen Violence** Allan M. Hoffman, Randal W. Summers, 2001 The complexities and tragedies arising from teen violence are problems faced on every continent in the world Fourteen case studies of carefully selected countries representative of every region of the world are presented in this absorbing volume that is the first to examine the causes and possible solutions for the problem of teen violence around the world Students and teachers can make cross cultural comparisons to discover how the problem is viewed in different countries how the problem is changing which factors seem to contribute to the rate of teen violence in almost all of the countries and which are unique to specific countries Readers can also take a fascinating look at the various solutions to the problem that have been proposed and tested throughout the world Each chapter is divided into similar subsections so students can easily compare specific topics among different countries and cultures They will find that the perception of teen violence in different countries does not always reflect the reality They can

discover how such factors as drug use family dynamics and educational settings play an important role in teen violence across many different cultures while also discovering the unique settings and situations that contribute to violence in unfamiliar cultures This world view will help build better understanding of how social issues affect all societies Youth Violence Kathryn Seifert, Karen Ray (Ph. D.), 2012 Print CourseSmart *Girls and Aggression* Marlene M. Moretti, Candice Odgers, Margaret Jackson, 2012-12-06 Although research on aggressive men and boys has been plentiful much less attention has been directed toward aggression in girls and women The increasing number of young women who find themselves living violent lives both as perpetrators and victims has led to urgent calls for more information on understanding what causes what perpetuates and what can be done about this problem Addressing this need *Girls and Aggression* presents a range of interdisciplinary perspectives on risk and protective factors developmental pathways and intervention principles specific to the problem of aggression and violence in the lives of young women Contributions come from the fields of psychology criminology education and sociology and use both qualitative and quantitative methodologies to explore the issues *Girls and Aggression* will be of interest to academic researchers and mental health practitioners alike by providing an up to date and comprehensive view of this important and underexplored area *Juvenile Delinquency* Kirk Heilbrun, Naomi E. Sevin Goldstein, Richard E. Redding, 2005-03-17 Summarizing the evidence available on juvenile delinquency prevention assessment and intervention this work surveys critical issues in understanding and treating delinquency and anti social behaviour

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
