Biswas,2013-12-01 In the early years of the twentieth century Victor Hess of Germany flew instruments in balloons and so discovered in 1912 that an extra terrestrial radiation of unknown origin is incident on the earth with an almost constant intensity at all times These penetrating non solar radiations which were called Cosmic Rays by Millikan USA opened the new frontier of space physics and many leading scientists were attracted to it At the end of World War II a number of space vehicles e g stratospheric balloons rockets and satellites were developed In 1950 and onwards these vehicles enabled spectacular advances in space physics and space astrophysics New horizons were opened in the explorations of cosmic rays the earth s magnetosphere the Sun and the heliosphere the moon and the planets Using space borne instruments exciting discoveries were made of stars and galaxies in the infra red ultra violet x ray and gamma ray wavelengths In this text book these fascinating new findings are presented in depth and on a level suitable for senior undergraduate and graduate students research scientists and scientists of other disciplines Although there are several excellent books and monographs on different aspects most of these deal with specific areas In this text book the findings of space physics and astrophysics are presented in an integrated manner with proper introductions to the fundamental aspects and these are supplemented by relevant ground based observations

EINSTEIN'S UNIVERSE WITHOUT BIG BANG Christoph Poth,2015-05-07 Einstein was right The Big Bang never

happend www.einsteinsuniverse.com en On the basis of the spiritual ideas of a Belgian priest and an Indian Brahmin so called modern cosmology has been peddling unadulterated mysticism for decades now This mysticism has found worldwide distribution especially through a plethora of television documentaries despite the fact that their pseudoscientific content has been proven to lie completely outside the laws of physics In this way people have been led to believe that 95 percent of our universe consists of mystical dark energy and dark matter and only 5 percent of the universe is accessible to us empirically But what lies behind the scandalous and lamentable failure of an entire branch of astrophysical science and who has an interest in promoting this mysticism The author of the book reveals clearly how the scandalous failure of a whole branch of science came about and explains the actual dynamics of the universe using the reputable physical findings of Isaac Newton Max Planck Albert Einstein and Karl Schwarzschild Almost everything about the universe that you believe to be true is demonstrably false A mixture of mysticism and science fiction After 100 years Einstein's idea of a static universe has turned out to be true after all There was definitely no Big Bang nor are there so called black holes in which space mass and time collapse to a point but rather relativistic black spheres These black spheres are the solution of Hawking's paradox Further information www.einsteinsuniverse.com en
