Unruly Penelopes and the Ghosts Eva Darias-Beautell, 2012-08-06 This collection of essays studies the cultural and literary contexts of narrative texts produced in English Canada over the last forty years It takes as its starting point the nationalist movement of the 1960s and 70s when the supposed absence or weakness of a national sense became the touchstone for official discourses on the cultural identity of the country That type of metaphor provided the nation with the distinctive elements it was looking for and contributed to the creation of a sense of tradition that has survived to the present

In the decades following the 1970s however critics artists and writers have repeatedly questioned such a model of national identity still fragile and in need of articulation by reading the nation from alternative perspectives such as multiculturalism environmentalism neo regionalism feminism or postcolonialism These contributors suggest that the artistic and cultural flowering Canada is experiencing at the beginning of the twenty first century is to a great extent based on the dismantlement of the images constructed to represent the nation only forty years ago Through their readings of representative primary texts their contextual analysis and their selected methodological tools the authors offer a tapestry of alternative approaches to that process of dismantlement Together they read as an unruly Penelopiad their unravelling readings self consciously interrogating Canada s lack of ghosts

Searching for Sycorax Kinitra D. Brooks, 2017-12-07 *Searching for Sycorax* highlights the unique position of Black women in horror as both characters and creators Kinitra D Brooks creates a racially gendered critical analysis of African diasporic women challenging the horror genre's historic themes and interrogating forms of literature that have often been ignored by Black feminist theory Brooks examines the works of women across the African diaspora from Haiti Trinidad and Jamaica to England and the United States looking at new and canonized horror texts by Nalo Hopkinson NK Jemisin Gloria Naylor and Chesya Burke These Black women fiction writers take advantage of horror's ability to highlight U S white dominant cultural anxieties by using African folklore to revise horror's semiotics within their own imaginary Ultimately Brooks compares the legacy of Shakespeare's Sycorax of *The Tempest* to Black women writers themselves who deprived of mainstream access to self articulation nevertheless influence the trajectory of horror criticism by forcing the genre to de centralize whiteness and maleness **The Routledge Companion to Anglophone Caribbean Literature** Michael A. Bucknor, Alison

Donnell, 2011-06-14 This Companion is divided into six sections that provide an introduction to and critical history of the field discussions of key texts and a critical debate on major topics such as the nation race gender and migration In the final section contributors examine the material dissemination of Caribbean literature and point towards the new directions that Caribbean literature and criticism are taking County Folk-lore Folklore Society (Great Britain), 1903 *Caribbean Literary Discourse* Barbara Lalla, Jean D'Costa, Velma Pollard, 2014-02-15 A study of the multicultural multilingual and Creolized languages that characterize Caribbean discourse especially as reflected in the language choices that preoccupy creative writers *Caribbean Literary Discourse* opens the challenging world of language choices and literary experiments characteristic of the multicultural and multilingual Caribbean In these societies the language of the master English in

Jamaica and Barbados overlies the Creole languages of the majority. As literary critics and as creative writers Barbara Lalla Jean D Costa and Velma Pollard engage historical linguistic and literary perspectives to investigate the literature bred by this complex history. They trace the rise of local languages and literatures within the English speaking Caribbean especially as reflected in the language choices of creative writers. The study engages two problems first the historical reality that standard metropolitan English established by British colonialists dominates official economic cultural and political affairs in these former colonies contesting the development of vernacular Creole and pidgin dialects even among the region's indigenous population and second the fact that literary discourse developed under such conditions has received scant attention. Caribbean Literary Discourse explores the language choices that preoccupy creative writers in whose work vernacular discourse displays its multiplicity of origins its elusive boundaries and its most vexing issues. The authors address the degree to which language choice highlights political loyalties and tensions the politics of identity self representation and nationalism the implications of code switching the ability to alternate deliberately between different languages accents or dialects for identity in postcolonial society the rich rhetorical and literary effects enabled by code switching and the difficulties of acknowledging or teaching those ranges in traditional education systems the longstanding interplay between oral and scribal culture and the predominance of intertextuality in postcolonial and diasporic literature. everyman M Shelly
