The Slayer's Guide to Kobolds Alejandro Melchor,Mongoose Publishing,Matthew Sprange,2003-04-03 Kobolds are a common sight in many campaign worlds deemed by most adventurers to be a minor nuisance at best Certainly most experienced adventurers would question the need to study kobolds in any great depth but then few have faced the full might of a kobold clan and lived long enough to warn others of the peril they offer The Slayer s Guide to Kobolds offers insight to all adventurers in the culture and society of this vicious race enabling them to track down engage and wipe out dozens of these murderous beasts It can only be hoped that such efforts will be enough to stall and drive back a race that is almost literally numberless No race in any campaign world however exists solely to provide cannon fodder for allegedly heroic adventurers The Slayers Guide to Kobolds redresses this imbalance by giving Games Masters the information they need to make kobolds a solid and coherent part of their campaign No longer will players merely scoff and draw their swords when they meet a group of kobolds within some ancient ruin Finally kobolds will have the respect they have always deserved Book jacket   Slayer's Guide Compendium I Christopher Allen,2004-12-07 Consisting of eight Slayer s Guide titles brought together for the first time the first Slayer s Guide Compendium provides readers with the opportunity to get their hands on early and out of print Slayer s Guide titles in one convenient hard backed volume The Compendium will also include at least one previously unreleased Slayer s Guide title never before seen in print Furthermore the text will be updated to version 3 5 for the first time bringing all the books up to date   **The Slayer's Guide to Lizardfolk** A. Kenrick,Ralph Horsley,2004-03-01 The Slayer s Guide to Lizardsfolk is a complete resource for a popular creature in roleplaying demonstrating their flexibility for Games Masters and providing a multitude of scenario ideas and extra rules that will keep players guessing even as they engage in bloodthirsty battle The Slayer s Guide to Lizardfolk covers one of the most used yet least detailed monsters within the game developing a well known creature for Games Masters   **The Slayer's Guide to Undead** Gary Gygax,Chris Quilliams,John Creffield,2003-01-03 The Slayer s Guide to Undead is written by Gary Gygax and Jon Creffield and filled with ghoulish secrets and spine chilling lore describing creatures of the night At 128 pages it is another big fat Slayer s Guide in the same vein as the highly popular Slayer s Guide to Dragons The incredible front cover has been done by the talented Chris Quilliams as well as one of the two fantastic but chilling pieces that grace the inside covers Pull this book out during a game and your players will start running for cover The book kicks off with A Demonic Overlord describing the nature of Undead and their relationship with the Lord of the Damned Orcus Excerpts from the Book of Dis give this chapter a creepy tone and

GMs are treated to an overview of what creatures make the best types of Undead as well as a treatise on the nature of Undeath itself be it corporeal or incorporeal free willed or mindless The Free Willed Living Dead is a chapter guaranteed to cause players nightmares in their games Covered here are the more potent forms of Undead including Bodaks Devourers Ghouls including a Ghoul King Mummies Wights Gholles As well as a massive amount of background information and gaming tips each also comes with a full blown template allowing you to turn any existing creature into an absolute nightmare A complete scenario has been included in the form of The Peak of the Nightlord designed for 9 11th level characters and the players had better pray they have a cleric in their ranks Detailed maps are provided to plot the action as the players attempt to penetrate the lair of a vampire and this scenario is very much in the Gary Gygax mould we all know and love The Bestiary of the Damned wraps up this 128 page supplement with 20 creatures of the night that can be pulled out on your players at a moment s notice or be used to fuel your own scenarios A complete index is included allowing handy reference during play

Smith,Jon Hodgson,2004-05 The latest book in the longest running d20 series of sourcebooks This invaluable guide to players and games masters alike presents full rules and complete information on using the deadly Scorpionfolk within and d20 based game   *The Slayer's Guide to Harpies* James Maliszewski,Chris Quilliams,2003-02-03 Harpies are cruel and vicious monsters that delight in the suffering of others They elevate selfishness and narcissism to new heights in their constant drive to establish superiority over lesser species such as humans dwarves and elves Yet many Games Masters consider Harpies as no better than animals unthinking brutes that can be used to challenge low and mid level adventurers once creatures such as orcs cease to pose a threat This fails to take into account the unique strengths and abilities of the Harpy which when used properly allow them to be used as opponents for even high level characters The Slayer s Guide to Harpies is packed with information on how to do just that
