## **Striving For Philanthropic Success Effectiveness And Evaluation In Foundations:**

**Handbook on the Economics of Philanthropy, Reciprocity and Social Enterprise** Stefano Zamagni, Luigino Bruni, 2013-01-01 The recent era of economic turbulence has generated a growing enthusiasm for an increase in new and original economic insights based around the concepts of reciprocity and social enterprise This stimulating and thought provoking Handbook not only encourages and supports this growth but also emphasises and expands upon new topics and issues within the economics discourse Original contributions from key international experts acknowledge and illustrate that markets and firms can be civilizing forces when and if they are understood as expressions of cooperation and civil virtues They provide an illuminating discourse on a wide range of topics including reciprocity gifts and the civil economy which are especially relevant in times of crisis for financial capitalism The Handbook questions the current phase of the market economy that arises from a state of anthropological pessimism Such anthropological cynicism is one of the foundations of the contemporary economic system that is challenged by the contributors This highly original and interdisciplinary Handbook will provide a fascinating read for academics researchers and students across a wide range of fields including economics public sector economics public policy and social policy

**Legitimacy of Philanthropic Foundations** Kenneth Prewitt, Mattei Dogan, Steven Heydemann, Stefan Toepler, 2006-10-27 Though privately controlled foundations perform essential roles that serve society at large They spearhead some of the world's largest and most innovative initiatives in science health education and the arts fulfilling important needs that could not be addressed adequately in the marketplace or the public sector Still many people have little understanding of what foundations do and how they continue to earn public endorsement The Legitimacy of Philanthropic Foundations provides a thorough examination of why foundations exist and the varied purposes they serve in contemporary democratic societies The Legitimacy of Philanthropic Foundations looks at foundations in the United States and Europe to examine their relationship to the state the market and civil society Peter Frumkin argues that unlike elected officials who must often shy away from topics that could spark political opposition and corporate officers who must meet bottom line priorities foundations can independently tackle sensitive issues of public importance Kenneth Prewitt argues that foundations embody elements of classical liberalism such as individual autonomy and limited government interference in private matters and achieve legitimacy by putting private wealth to work for the public good Others argue that foundations achieve legitimacy by redistributing wealth from the pockets of rich philanthropists to the poor But Julian Wolpert finds that foundations do not redistribute money directly to the poor as much as many people believe Instead many foundations focus their efforts on education health and scientific research making investments that benefit society in the long term and focusing on farsighted issues that a myopic electorate would not have patience to permit its government to address Originating from private fortunes but working for the public good independently managed but subject to legal prescriptions philanthropic foundations occupy a unique space somewhere

between the public and private sectors The Legitimacy of Philanthropic Foundations places foundations in a broad social and historical context improving our understanding of one of society's most influential and least understood organizational forms

**Striving for Philanthropic Success** Karsten Timmer, Bertelsmann Stiftung, 2001 The more foundations grow and engage in public tasks the more they will be held accountable for the social impact of their efforts Private investments will create new requirements for the quality and transparency of foundation work In acknowledgement of these developments the Bertelsmann Foundation brings together senior executives of leading private foundations and specialists on foundation activities from around the world to discuss evaluation and performance measurement in foundations Topics include the methods foundations use to evaluate their efforts foundations as centers of excellence in civil society interacting with other players convergence of operating and grant making philosophies and management structures for creating a learning organization Contributors include Paul Boateng minister of state Home Office London Siegmund Gabriel minister president of Lower Saxony Hanover Craig Kennedy president the German Marshall Fund of the United States Bruce Schearer president Synergos Institute New York Luc Tayart de Borms secretary general King Baudouin Foundation Brussels William S White president and CEO Charles Stewart Mott Foundation and Timothy E Wirth president United Nations Foundation

**The Business of Giving** P. Grant, 2011-12-06 The Business of Giving reviews current thinking and surveys the key techniques any philanthropist or grantmaker should adopt It also outlines a generic social investment process that can be utilized for all philanthropic or grantmaking programmes Essential reading for all engaged in or with an interest in philanthropy or civil society in general

*Strategic Giving* Peter Frumkin, 2008-09-15 The philanthropic landscape is changing dramatically as a new generation of wealthy donors seeks to leave its mark on the public sphere Peter Frumkin reveals in Strategic Giving why these donors could benefit from having a comprehensive plan to guide their giving And with this thoughtful and timely book he provides the much needed framework to understand and develop this kind of philanthropic strategy After listening for years to scores of individual and institutional funders discuss the challenges of giving wisely Frumkin argues here that contemporary philanthropy requires a thorough rethinking of its underlying logic Philanthropy should be seen he contends as both a powerful way to meet public needs and a meaningful way to express private beliefs and commitments He demonstrates that finding a way to simultaneously fulfill both of these functions is crucial to the survival of philanthropy and its potential to support pluralism in society And he goes on to identify the five essential elements donors must consider when developing a philanthropic strategy the vehicle through which giving will flow the way impact will be achieved the level of engagement and profile sought the time frame for giving and the underlying purpose of the gift Frumkin's point is that donors must understand strategic giving as the integration of these five critical dimensions to giving Essential reading for donors researchers and anyone involved with the world of philanthropy Strategic Giving provides a new basis for understanding philanthropic effectiveness and a promising new way for philanthropy to achieve the legitimacy that has at

times eluded it      **Partnerships and Foundations in Global Health Governance** S. Rushton, O. Williams, 2011-02-01 This book argues that the new actors in global health constitute a private turn in global health governance and provides theoretical and practical grounds for viewing global health partnerships and philanthropic foundations as closely aligned in their ideational and material approaches to a range of important issues and crises      **Foundation Management** Frank L. Ellsworth, Joe Lumarda, 2003-02-28 A foundation insider's guide to financial management challenges and solutions Foundation Management represents the only single volume reference to cover tried and true and emerging financial planning and management issues in both the domestic and foreign sectors affecting philanthropic foundations A companion to Frank Ellsworth and Joe Lumarda's From Grantmaker to Leader Emerging Strategies for 21st Century Foundations this comprehensive survey not only provides practitioners with a better understanding of the changing financial legal and international landscape but also delivers targeted operational management strategies Topics covered include European foundations Nongovernment organizations in Asia U S and Mexican relations foundations The relationship between the IRS and philanthropic foundations The roles of lawyers accountants and investment professionals Extensive interviews with key industry insiders supplement the commentary throughout Trustees CEOs CFOs members of investment committees tax and estate planning professionals and program officers will find Foundation Management to be an indispensable resource

*Foundations and Evaluation* Marc T. Braverman, Norman A. Constantine, Jana Kay Slater, 2004-07-29 Gathered together in this unique book on evaluation and effective foundation practice are the experienced based perspectives and measured insights of both seasoned practitioners and key philanthropic thought leaders Foundations and Evaluation is a substantial think piece for grantmakers of any size Dorothy S. Ridings president and CEO Council on Foundations Foundations and Evaluation explores the intersection between organizational effectiveness and evaluation and demonstrates the need for commitment to evaluation throughout the foundation A good read for both newcomers to evaluation and those with more experience written by some of the most highly respected leaders in the field Kathleen P. Enright executive director Grantmakers for Effective Organizations      **Guide to Funding for International and Foreign Programs**, 2004

**Performance Measurement in Philanthropic Foundations** Helmut Anheier, Diana Leat, 2018-09-03 The growth of philanthropic foundations in numbers and significance raises two immediate questions First what makes for success and failure of foundations projects and activities Second what yardsticks or benchmarks are used to measure performance and track goal attainment The purpose of this book is to delve deeper into the complex set of issues that lie behind the performance and wider impact of philanthropy Performance Measurement in Philanthropic Foundations looks at the strengths and weaknesses of philanthropic foundations which are independent of both the market and ballot box and yet open to signal and incentive deficiencies The authors use in depth case studies from different countries to illustrate the problems and challenge much of the conventional wisdom on foundation success and failure The book also outlines the main

contours of a proactive governance and management style to address those problems

## **Striving For Philanthropic Succesb Effectiveneb And Evaluation In Foundations** Book Review: Unveiling the Magic of Language
