Affective Education Isadore L. Sonnier, 1989 *Learning Styles and Second Language Education* Patrycja Marta Kamińska, 2014-06-26 This book contributes to the body of knowledge concerning individual learner differences by addressing the issue of learning styles in developing a second language It comprises five chapters The notion of style together with its place among other individual differences and its relation to learning strategies is presented in Chapter 1 The reasons for researching styles are also delineated in this chapter Chapter 2 describes simple one dimensional models of learning styles contrary to Chapter 3 in which two dimensional compound models are presented Multi dimensional complex models of learning styles are the focus of Chapter 4 Each model discussed

in Chapters 2 through 4 is accompanied by an outline of its significance to second language educators as demonstrated in earlier studies The final fifth chapter is devoted to the discussion of the practical exploitation of the learning style awareness in second language education The options suggested include accommodating learners styles stretching them by exposing the students to the less familiar and less preferred options and mixtures of both approaches The book will be of interest to applied linguists psycholinguists and language teaching practitioners as well as tertiary level students interested in finding out the ways in which learning styles account for linguistic achievement

Differentiating Instruction for At-Risk Students Rita Dunn, Andrea Honigsfeld, 2009 When the activities described herein are introduced to students whose learning styles they match most will demonstrate strong abilities to learn and remember new and difficult content within the first four months of beginning_ if not earlier This book is written to prevent more children from becoming at risk and to help those who already have fallen behind their classmates and do not enjoy school

Resources in Education ,2001 **Improved Test Scores, Attitudes, and Behaviors in America's Schools** Thomas C. DeBello, Rita Dunn, 1999-10-30 Education is a profession in which billions of federal dollars have been spent to reduce academic underachievement particularly for minority children from poverty homes Few funded programs have reduced failure on standardized achievement tests Despite either repetition or innovation most children who fail do not perform substantially better the next time around On the other hand practitioners who have used the Dunn and Dunn learning styles approaches have reported statistically higher standardized achievement test scores among average poorly achieving and special education students This book is based on the practical diverse experiences of more than thirty different supervisors throughout the United States Representing a variety of urban and suburban locations with diverse student populations each supervisor was able to obtain significantly higher standardized achievement test scores for his or her student populations

The Principal's Guide to Instructional Improvement Robert Krajewski, 2012-03-29 Beginning with an abridged history of administrative and clinical supervision The Principal s Guide to Instructional Improvement offers principals both background information as well as comprehensive models and examples to analyze and improve teacher instruction Based on the principle of teacher growth rather than teacher evaluation this book explains both content and process allowing for the establishment of principal teacher rapport the very foundation of successful school supervision The book offers six supervision models that translate the theory to applied practice All models can be used separately or together and they are thoroughly explained with sufficient examples for easy implementation Beneficial for both novice and veteran principals this guide will systematically improve the hierarchy within schools allowing for vast improvement within the classroom
