Hildebrand,Lyman Ott,1998 Focusing on the analysis of data using modern statistical and spreadsheet software Hildebrand and Ott emphasize making sense of data and discuss not only how a statistical method is applied but why and why not

Throughout the book the authors integrate computer use into the development of statistical concepts emphasizing the value of looking at data to make sure the right questions are being asked The real life applications and examples throughout challenge students to think like managers The case that concludes every chapter asks students to deal with a relatively

unstructured situation and to explain the statistical reasoning in nontechnical language Modern statistical methods including resampling and bootstrapping are included In addition the authors emphasize quality control and improvement throughout the book and include three full chapters on regression and correlation methods *Statistics for Managers Using Microsoft*

Excel David M. Levine,Mark L. Berenson,David Stephan,1999 For a one or two term course in Business Statistics at the undergraduate or graduate level This comprehensive 19 chapter business statistics text provides sufficient breadth of coverage and an applied approach which focuses on concepts and applications of statistics to the functional areas of business accounting marketing management and economics and finance Thoroughly revised to shift its emphasis more on concepts than statistical methods it shows students how to properly use statistics to analyze data demonstrates how computer software is an integral part of this analysis and provides myriad cases and projects support the learning process The
