Techniques Of Sprang Plaiting On Stretched Threads:

The Techniques of Sprang Peter Collingwood, 1974-01 Crafting Textiles Frances Pritchard, 2021-10-13 New research into the techniques of tablet weaving sprang braiding knotting and lace is presented in this lavishly illustrated volume written by leading specialists from Austria Canada Denmark France Germany Sweden Switzerland the UK and USA Drawing inspiration from the pioneering work of Peter Collingwood this publication explores aspects of these craft skills in the prehistoric Roman and medieval world through scientific object based analysis and research through making Chapters include the growth of patterned tablet weaving for trimming garments in prehistoric Central Europe recently identified styles of headdress worn in the Roman Rhineland and pre Islamic Egypt Viking age Dublin as a production center for tablet woven bands a new interpretation of the weaving technique used to make luxurious gold bands in the twelfth to late thirteenth centuries and the development out of plaiting of bobbin lace borders in gold and silver threads from the fifteenth to early seventeenth centuries Practical experiments test methods of hand spinning and the production of figure hugging hose in ancient Greece and Renaissance Italy A typology of braid and knotting structures in late medieval Europe is also set out for the first time Diagrams illustrations and photographs enrich each chapter with a wealth of visual source material The work is the outcome of recent discoveries of archaeological textile finds from excavations as well as fresh examination of material recovered in the past or preserved in treasuries Early textiles form an increasingly popular subject of interest and this publication which is a landmark in the study of various specialized textile techniques aims to provide the reader with a better understanding of these virtuoso craft skills in antiquity **Textile Techniques in Metal** Arline M. Fisch, 2003 In *Textile Techniques in Metal* Arline Fisch describes in detail the application of the fibre techniques to precious and non precious metals and then goes on to describe the tools and materials required Textiles in Ancient Mediterranean Iconography Susanna Harris, Cecilie Brøns, Marta Zuchowska, 2022-02-03 This volume provides an ambitious synopsis of the complex colourful world of textiles in ancient Mediterranean iconography A wealth of information on ancient textiles is available from depictions such as sculpture vase painting figurines reliefs and mosaics Commonly represented in clothing textiles are also present in furnishings and through the processes of textile production The challenge for anyone analysing ancient iconography is determining how we interpret what we see As preserved textiles rarely survive in comparable forms we must consider the extent to which representations of textiles reflect reality and critically evaluate the sources Images are not simple replicas or photographs of reality Instead iconography draws on select elements from the surrounding world that were recognisable to the ancient audience and reveal the perceptions ideologies and ideas of the society in which they were produced Through examining the durable evidence this anthology reveals the ephemeral world of textiles and their integral role in the daily life cult and economy of the ancient Mediterranean *Needlework through History* Catherine Amoroso Leslie, 2007-04-30 Needlework serves functional purposes such as providing warmth but has also communicated individual

and social identity spiritual beliefs and aesthetic ideals throughout time and geography Needlework traditions are often associated with rituals and celebrations of life events Often overlooked by historians practicing needlework and creating needlework objects provides insights to the history of everyday life Needlework techniques traveled with merchants and explorers creating a legacy of cross cultural exchange Some techniques are virtually universal and others are limited to a small geographical area Settlers brought traditions which were sometimes re invented as indigenous arts This volume of approximately 75 entries is a comprehensive resource on techniques and cultural traditions for students information professionals and collectors

Maguey Journey Kathryn Rousso, 2010-12-15 The name maguey refers to various forms of the agave and furcraea genus also sometimes called the century plant The fibers extracted from the leaves of these plants are spun into fine cordage and worked with a variety of tools and techniques to create textiles from net bags and hammocks to equestrian gear In this fascinating book Kathryn Rousso an accomplished textile artist takes a detailed look at the state of maguey culture use and trade in Guatemala She has spent years traveling in Guatemala highlighting maguey workers interactions in many locations and blending historical and current facts to describe their environments Along the way Rousso has learned the process of turning a raw leaf into beautiful and useful textile products and how globalization and modernization are transforming the maguey trade in Guatemala Featuring a section of full color illustrations that follow the process from plant to weaving to product Maguey Journey presents the story of this fiber over recent decades through the travels of an impassioned artist Useful to cultural anthropologists ethnobotanists fiber artists and interested travelers alike this book offers a snapshot of how the industry stands now and seeks to honor those who keep the art alive in Guatemala

Perishable Material Culture in Prehistory Linda M. Hurcombe, 2014-04-24 Perishable Material Culture in Prehistory provides new approaches and integrates a broad range of data to address a neglected topic organic material in the prehistoric record Providing news ideas and connections and suggesting revisionist ways of thinking about broad themes in the past this book demonstrates the efficacy of an holistic approach by using examples and cases studies No other book covers such a broad range of organic materials from a social and object biography perspective or concentrates so fully on approaches to the missing components of prehistoric material culture This book will be an essential addition for those people wishing to understand better the nature and importance of organic materials as the missing majority of prehistoric material culture

Archaeological Artefacts as Material Culture Linda Hurcombe, 2014-05-12 This book is an introduction to the study of artefacts setting them in a social context rather than using a purely scientific approach Drawing on a range of different cultures and extensively illustrated Archaeological Artefacts and Material Culture covers everything from recovery strategies and recording procedures to interpretation through typology ethnography and experiment and every type of material including wood fibers bones hides and adhesives stone clay and metals With over seventy illustrations with almost fifty in full colour this book not only provides the tools an archaeologist will need to interpret past societies from their

artefacts but also a keen appreciation of the beauty and tactility involved in working with these fascinating objects This is a book no archaeologist should be without but it will also appeal to anybody interested in the interaction between people and objects

Heritage Conservation and Research in India Gabriela Krist,Tatjana Bayerová,2010 2009 marked the 60th anniversary of the diplomatic relations of the Republic of India and the Republic of Austria The Conservation Department of the University of Applied Arts Vienna presents this volume largely based on papers reported at the conference Cultural Heritage Counts Research Conservation and Management held in New Delhi in August 2009 The conference was a crucial contribution initiated by the Austrian Cultural Forum New Delhi to celebrate this important jubilee The successful and intensive cooperation of both countries in the fields of the research and conservation of cultural heritage is reflected in numerous research and conservation projects presented in this book

A History Of Textiles Kax Wilson,2021-11-28 Originally published in 1979 this volume acts as a reference for the history textiles It asks questions on the effect of technology on textiles how did particular historical periods and locations expand or limit the possibilities for the manufacture of fabrics and how the textile history related to politics and economics sociology and psychology art and engineering anthropology and archaeology chemistry and physics Addressing these questions the author surveys the development of the technical components of fabrics and discusses the textiles of selected places and times She uses prose drawings and more than 130 photographs to show how each era of textile production reflects its age This book is designed to serve as a college text and as a reference work for museum researchers With sections including illustrations and diagrams key terminology spinning wool spinning and raw materials single ply and cord and fabric construction
