Techniques Of Staircase Construction Technical And Design Instructions For Stairs Made Of Wood:

Techniques of Staircase Construction W. Mannes, 2012-12-06 Staircases which today are equally the responsibility of joiners The increasing demand for textbooks on the techniques of stair and carpenters have had a varied history over the last thirty construction is due to two main factors years Until 1945 nearly all staircases even those in large residential blocks were made of wood Because of the amount of 1 The relatively small dwellings that were built twenty to thirty destruction that took place during the war new building regulations years ago are no longer regarded as acceptable New regulations frequently stipulated nonflammable materials for almost all constructions concerning noise and heat insulation as well as government aid available to finance such projects have in addition This resulted in a decline in the quality of stair construction condition stimulated the rebuilding and thus the design of more what is more fewer and fewer craftsmen were trained for this generously proportioned dwellings including of course rewarding and varied branch of woodworking craftsmanship staircases This is a regrettable development since good stair builders must combine the design capabilities and three dimensional approach 2 The style of living has changed The time when sober interior of the carpenter with the exact and neat craftsmanship of the joiners were the order of the day has gone Excessive nostalgic era Techniques of Staircase Construction therefore provides welcome reversal to previous styles has also passed Techniques of Staircase Construction Willibald Mannes, 1979
