Techno Stress The Human Cost Of The Computer Revolution:

Technostress C Brod, 1984-01-21 Een psychotherapeut onderzoekt de invloed van het gebruik van computers op de mens en de intermenselijke relaties en besteedt speciale aandacht aan de omgang van kinderen met computers *Computer Technology and Social Issues* G. David Garson, 1995-01-01 For managers consultants researchers vendors of BPR and academics The Impact of ICT on Quality of Working Life Christian Korunka, Peter Hoonakker, 2014-04-25 This book discusses the impact and effects of Information and Communication Technologies ICT on quality of working life of employees It describes the changes and the acceleration of processes caused by the widespread use of ICT in a broad range of working areas and in different national contexts It explores the important role ICT has come to play in nearly all work places in developed societies and the impact it is starting to have on work places in developing countries The book brings together experts from the fields of ICT and quality of working life and from a variety of backgrounds and disciplines including sociology psychology industrial engineering and macro ergonomics It discusses the range of current positive and negatives effects as well as the possible increase of both kinds of effects in the future The final chapter of the book integrates the diverse perspectives of the authors and gives recommendations on how to increase the possible positive outcomes and to diminish negative effects of ICT in an accelerated society **PC Mag**, 1984-08-07 PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology *Information Systems and Neuroscience* Fred D. Davis, René Riedl, Jan vom Brocke, Pierre-Majorique Léger, Adriane B. Randolph, Gernot R. Müller-Putz, 2024-07-25 This book presents the proceedings of the NeuroIS Retreat 2023 May 30 June 1 Vienna Austria reporting on topics at the intersection of information systems IS research neurophysiology and the brain sciences Readers will discover the latest findings from top scholars in the field of NeuroIS which offer detailed insights on the neurobiology underlying IS behavior essential methods and tools and their applications for IS as well as the application of neuroscience and neurophysiological theories to advance IS theory *A Handbook of Theories on Designing Alignment Between People and the Office Environment* Rianne Appel-Meulenbroek, Vitalija Danivska, 2021-06-16 Although workplace design and management are gaining more and more attention from modern organizations workplace research is still very fragmented and spread across multiple disciplines in academia There are several books on the market related to workplaces facility management FM and corporate real estate management CREM disciplines but few open up a theoretical and practical discussion across multiple theories from different fields of studies Therefore workplace researchers are not aware of all the angles from which workplace management and effects of workplace design on employees has been or could be studied A lot of knowledge is lost between disciplines and sadly many insights do not reach workplace managers in practice Therefore this new book series is started by associate professor Rianne Appel Meulenbroek Eindhoven University of Technology the

Netherlands and postdoc researcher Vitalija Danivska Aalto University Finland as editors published by Routledge It is titled Transdisciplinary Workplace Research and Management because it bundles important research insights from different disciplinary fields and shows its relevance for both academic workplace research and workplace management in practice The books will address the complexity of the transdisciplinary angle necessary to solve ongoing workplace related issues in practice such as knowledge worker productivity office use and more strategic workplace management In addition the editors work towards further collaboration and integration of the necessary disciplines for further development of the workplace field in research and in practice This book series is relevant for workplace experts both in academia and industry This first book in the series focuses on the employee as a user of the work environment The 21 theories discussed and applied to workplace design in this book address people's ability to do their job and thrive in relation to the office workplace Some focus more on explaining why people behave the way they do the psychosocial environment while others take the physical and or digital workplace quality as a starting point to explain employee outcomes such as health satisfaction and performance They all explain different aspects for achieving employee workplace alignment EWA and thereby ensuring employee thriving The final chapter describes a first step towards integrating these theories into an overall interdisciplinary framework for eventually developing a grand EWA theory The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781003128830> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
