*Reweaving the Relational Mat* Joan Filemoni-Tofaeono,Lydia Johnson,2016-06-16 *Reweaving the Relational Mat* is an integrative response to the problem of violence against women which grounds theological and sociological analysis in the praxis of Oceanian Christian women s experiences of violence It focuses on the collusion of the church in the problem of violence against women by critiquing the ways in which its theology and practices have contributed to power over ways of relating Employing the Oceanian metaphor of weaving the mat the analysis unravels the patriarchal relational mat paving the way for a constructive reweaving of a Christocentric egalitarian relational mat The study begins by unravelling the correlation between violence and the ideology of patriarchy It then highlights the various strands of violence against women and examines the complex mosaic of socio cultural sources and manifestations of violence against women in Oceania This

leads to an analysis of the interwoven strands of religion and violence focusing particularly on the church's captivity to patriarchy. The ensuing explication of problematic theological and biblical interpretations and church practices ends with a critique of male clergy power particularly as it functions in the Oceanian context. This leads to an examination of the relationship between flawed theological education and violence against women. Case studies of violence against women in the Oceanian theological education setting are analysed. The subsequent reweaving of the relational mat issues forth in specific challenges to church leaders, theological educators and church women.

It is rich in case studies and applications, incorporates traditionally held beliefs and is exceptionally practical in nature. This book will be a valuable resource for students, practitioners and teachers alike. The teaching methods discussed in the text will be extremely useful for community health workers, health care assistants, nurses, social workers, medical doctors, teachers and agricultural extension officers.

web answer the correct option is c explanation the molarity of a mixture mmix can be calculated using the following formula  

$$m_{mix} = \frac{m_1 + m_2 + m_3 + m_4 + m_5}{V_1 + V_2 + V_3 + V_4 + V_5} \times 1000$$
 where m1, m2, m3, m4, m5 are masses of solutes and V1, V2, V3, V4, V5 are volumes of solvents in litres.  
 In this case,  $m_{mix} = \frac{480 + 520 + 480 + 520 + 720}{624 + 1000 + 1344} \times 1000 = 1.344$  m q5 with increase in temperature which of these changes a molality b fraction of solute present in water
