The Human Society Valentin Matcas,2016-04-20 Is the human society fair and fulfilling as you learn in school or it is harmful with corrupt politicians financial cartels and major conspiracies spanning the world as you always notice Both

are the case yet the human society improves gradually despite of all corruption in the news only that the media tends to highlight politicians in order to capture the masses or you never watch the news Because it is always a show even in the news while everybody is happy But is society actually corrupt and harmful The human society has always been exploitive yet people tend to interact in any manner in the world more or less humane while it is meaningful to distinguish your own influence exactly as it is Would you like to learn the truth about the human society Then study yourself and those around very well since society is the direct interconnectivity of all human beings with you in it Therefore you are the one defining society directly at least in everything regarding you and this is the case with everyone else While everybody is relatively good intentioned in society since we are very similar through our human nature and through all natural living needs and meanings that we fulfill Because humanity is never divided into the good and the bad since everybody is good by having similar natural needs and meanings only that people can become more exploitive while fulfilling consensual needs as these make them be whatever their superiors jurisdictions and ideologies desire stepping in this manner outside the actual human nature And this is bad since this is exactly how humans become unhuman with all dreadful consequences manifesting in the world Because humans fulfill mostly consensual needs as orders and duties coming from above but not their own human needs as everyone should While this ends up defining the human society the most changing it altogether into a social machine meant for profit and exploitation and it should never be the case in a human world Because there are two human societies to consider the natural intelligent human society that everyone seeks to have and maintain through their own living natural needs and feelings and the consensual society actually instated in the world regardless if you want it or not Throughout this book we study how life and living human beings gather naturally to form classes of life and living societies meant to make life better safer meaningful and therefore fulfilling We also understand the current human society in its consensual structure and characteristics in all aspects and from all perspectives Furthermore we identify and understand the various modes of society that life and the environment may demand as we recognize what is meaningful among orders agendas and conspiracies already implemented or threatening to take place in the world who the main social actors are and how determined they remain in everything that they do in the human society This helps you understand your own meaning in life in society and in the world while understanding how your meaning is enhanced or altered by your own behavior and interconnectivity in life and in the world If you seek to uncover and understand the human society exactly as it is and as it should be this book is for you
