## **Smoke Rising:**

**Red Smoke Rising** Rick Anthony, 2012-07-10 Over a hundred years have passed since the invaders came to steal the drug since Mia's homeland was occupied. Once they understood the drug's secrets the Nor army was unstoppable. Superhuman Mia's people were overwhelmed and defeated slaves in their own lands. In the time that has passed Mia and the Underground have stolen the drug along with the knowledge of how to use it to create an army of their own. Now the time has come for the resistance army of shapeshifters Masters and Trademasters to stand against the Nor Empire and take back their homeland before their chance is gone forever. *Traditional Themes and the Homeric Hymns* Cora Angier Sowa, 1984 A thorough analysis of the mechanics of the language of Homer as used in the Iliad and the Odyssey. **Fluxus Vision** Allan Revich, 2007-01-23 Over 100 pages including 50 full page visual poems and accompanying Fluxus instructions. Visual poems are poems for the eyes and are meant to be seen rather than heard. The instructions are like little haiku mind games.

**Knowledge in Formation** Janos J. Sarbo, Jozsef I. Farkas, Auke J.J. van Breemen, 2011-06-16 Humans have an extraordinary capability to combine different types of information in a single meaningful interpretation. The quickness with which interpretation processes evolve suggests the existence of a uniform procedure for all domains. In this book the authors suggest that such a procedure can be found. They concentrate on the introduction of a theory of interpretation and they define a model that enables a meaningful representation of knowledge based on a dynamic view of information and a cognitive model of human information processing. The book consists of three parts. The first part focuses on the properties of signs and sign interpretation. In the second part the authors introduce a model that complies with the conditions for sign processing set by the first part and in the third part they examine applications of their model in the domain of logic, natural language reasoning and mathematics. Finally they show how these domains pop up as perspectives in an overall model of knowledge representation. The reader is assumed to have some interest in human information processing and knowledge modeling. Natural language is considered in the obvious sense. Familiarity with linguistic theories is not required. Sign theoretical concepts are restricted to a manageable subset which is introduced gently. Finally some familiarity with basic concepts of propositional and syllogistic logic may be useful. **Investigation of the Assassination of President John F.**

**Kennedy** United States. Congress. House. Select Committee on Assassinations, 1978. *Rewriting Medieval Japanese Women* Christina Laffin, 2013-01-31 *Rewriting Medieval Japanese Women* explores the world of thirteenth century Japan through the life of a prolific noblewoman known as Nun Abutsu. 1225-1283 Abutsu crossed gender and genre barriers by writing the first career guide for Japanese noblewomen, the first female authored poetry treatise and the first poetic travelogue by a woman. All despite the increasingly limited social mobility for women during the Kamakura era. 1185-1336 Capitalizing on her literary talent and political prowess Abutsu rose from middling origins and single motherhood to a prestigious marriage and membership in an esteemed literary lineage. Abutsu's life is well documented in her own letters.

diaries and commentaries as well as in critiques written by rivals records of poetry events and legal documents Drawing on these and other literary and historiographical sources including The Tale of Genji author Christina Laffin demonstrates how medieval women responded to institutional changes that transformed their lives as court attendants wives and nuns Despite increased professionalization of the arts competition over sources of patronage and rivaling claims to literary expertise Abutsu proved her poetic capabilities through her work and often used patriarchal ideals of femininity to lay claim to political and literary authority Rewriting Medieval Japanese Women effectively challenges notions that literary salons in Japan were a phenomenon limited to the Heian period 794 1185 and that literary writing and scholarship were the domain of men during the Kamakura era Its analysis of literary works within the context of women s history makes clear the important role that medieval women and their cultural contributions continued to play in Japanese history

**The Gold Leaf Lady and Other Parapsychological Investigations** Stephen E. Braude, 2008-11-15 For over thirty years Stephen Braude has studied the paranormal in everyday life from extrasensory perception and psychokinesis to mediumship and materialization The Gold Leaf Lady and Other Parapsychological Investigations is a highly readable and often amusing account of his most memorable encounters with such phenomena Here Braude recounts in fascinating detail five particular cases some that challenge our most fundamental scientific beliefs and others that expose our own credulousness Braude begins with a south Florida woman who can make thin gold colored foil appear spontaneously on her skin He then travels to New York and California to test psychokinetic superstars and frauds like Joe Nuzum who claim to move objects using only their minds Along the way Braude also investigates the startling allegations of K R a policeman in Annapolis who believes he can transfer images from photographs onto other objects including his own body and Ted Serios a deceased Chicago elevator operator who could make a variety of different images appear on Polaroid film Ultimately Braude considers his wife s surprisingly fruitful experiments with astrology which she has used to guide professional soccer teams to the top of their leagues as well as his own personal experiences with synchronicity a phenomenon he argues that may need to be explained in terms of a refined extensive and dramatic form of psychokinesis Heady provocative and brimming with eye opening details and suggestions The Gold Leaf Lady and Other Parapsychological Investigations will intrigue both adherents and detractors of its controversial subject matter alike

**Revelation** Grant R. Osborne, 2023-10-17 The Book of Revelation contains some of the most difficult passages in Scripture Grant Osborne s commentary on Revelation interprets the text while also introducing readers to the perspectives of contemporary scholarship in a clear and accessible manner Osborne begins with a thorough introduction to Revelation and the many difficulties involved in its interpretation He discusses authorship date of writing and the social and cultural setting of the work He also examines elements that complicate the interpretation of apocalyptic literature including the use of symbols and figures of speech Old Testament allusions and the role of prophetic prediction Osborne surveys various approaches commentators have taken on whether Revelation refers primarily to the past or to events that are yet future Rather than exegeting the text narrowly in a verse by verse manner Osborne examines larger sections in order to locate and emphasize the writer s central message and the theology found therein Throughout he presents his conclusions in an accessible manner When dealing with particularly problematic sections he considers the full range of suggested interpretations and introduces the reader to a broad spectrum of commentators Revelation seeks to reach a broad audience

**Man'yōshū and the Imperial Imagination in Early Japan** Torquil Duthie,2014-01-09 In *Man y sh and the Imperial Imagination in Early Japan* Torquil Duthie examines the literary representation of the late seventh century Yamato court as a realm of all under heaven Through close readings of the early volumes of the poetic anthology *Man y sh* c eighth century and the last volumes of the official history *Nihon shoki* c 720 Duthie shows how competing political interests and different styles of representation produced not a unified ideology but rather a bundle of disparate imperial imaginaries collected around the figure of the imperial sovereign Central to this process was the creation of a tradition of vernacular poetry in which Yamato courtiers could participate and recognize themselves as the cultured officials of the new imperial realm      **Rethinking Hell** Christopher M. Date,Gregory Stump,Joshua Anderson,2014-04-15 Most evangelical Christians believe that those people who are not saved before they die will be punished in hell forever But is this what the Bible truly teaches Do Christians need to rethink their understanding of hell In the late twentieth century a growing number of evangelical theologians biblical scholars and philosophers began to reject the traditional doctrine of eternal conscious torment in hell in favor of a minority theological perspective called conditional immortality This view contends that the unsaved are resurrected to face divine judgment just as Christians have always believed but due to the fact that immortality is only given to those who are in Christ the unsaved do not exist forever in hell Instead they face the punishment of the second death an end to their conscious existence This volume brings together excerpts from a variety of well respected evangelical thinkers including John Stott John Wenham and E Earl Ellis as they articulate the biblical theological and philosophical arguments for conditionalism These readings will give thoughtful Christians strong evidence that there are indeed compelling reasons for rethinking hell
