## **The Heart Of The Cave:**

Caves in the Heart & Dance of the Shadows Hariclia Michailidou, 2016-02-27 From the cavemen to Platos conception of the cave from the mothers cavernous womb to the cavernous spaces in the wombs of the earth from where all springs and grows from the firstborn light reaching us from the darkest depths of space to the dimmest light that our soul sheds on the world our love for wisdom or the wisdom of love will master us forevermore Cave as a temporary state of being as a traverse through life as an experience and from that as a derivative to knowledge for our development and advancement physically emotionally intellectually and spiritually We can contemplate cave as mystery as a space of distrust of danger darkness lingering light our ignorance or innocence yet it is a space of temptation of strange and powerful emotions primordial yet known to us since the birth of this world in our seemingly infinite line of evolution Cave as a space of contradictions a space of darkness versus light a space of ignorance versus knowledge of falsity versus truth of passion versus ecstasy of earthly versus the heavenly Some of those caves are extremely dangerous yet like a necessity in our unexplained ability to surrender we surrender and we abandon ourselves in their powerful presence We enter in with feelings of temptation of dilemma of ambivalence of fear We enter as if pulled in by mysterious forces at times unable to resist them even if we fear destruction our own destruction Those are the deepest darkest most dangerous caves yet we enter many already have and others will and will enter them unprepared and most vulnerable We pray for them to survive their magic powers and to exit if necessary by a miracle to exit wiser and tell the world of their wisdom for they will be wiser wiser than they were before and the one who listens of their wisdom will be wiser too Of that wisdom I like to share with all who like to know with my works of the Caves of the Heart Listen as they tell in their deafening silence of the story of my surrender of my love for wisdom and maybe of the wisdom of love

**Paths To The Heart: Sufism And The Chris** James S. Cutsinger, 2010-08-01 Despite the long and well known history of conflict between Christians and Muslims their mystical traditions especially in the Christian East and in Sufism have shared for centuries many of the same spiritual methods and goals The purpose of this book the first major publication of its kind is to promote precisely this more inward kind of

**Archaeologies of the Heart** Kisha Supernant, Jane Eva Baxter, Natasha Lyons, Sonya Atalay, 2020-02-13 Archaeological practice is currently shifting in response to feminist indigenous activist community based and anarchic critiques of how archaeology is practiced and how science is used to interpret the past lives of people Inspired by the calls for a different way of doing archaeology this volume presents a case here for a heart centered archaeological practice Heart centered practice emerged in care based disciplines such as nursing and various forms of therapy as a way to recognize the importance of caring for those on whom we work and as an avenue to explore how our interactions with others impacts our own emotions and heart Archaeologists are disciplined to separate mind and heart a division which harkens back to the origins of western thought The dualism between the mental and the physical is fundamental to the concept that humans can objectively study the world without being immersed in it Scientific approaches to understanding the world assume there is an objective world to be studied and that humans must remove themselves from that world in order to find the truth An archaeology of the heart rejects this dualism rather we see mind body heart and spirit as inextricable An archaeology of the heart provides a new space for thinking through an integrated responsible and grounded archaeology where there is care for the living and the dead acknowledges the need to build responsible relationships with communities and with the archaeological record and emphasize the role of rigor in how work and research is conducted The contributions bring together archaeological practitioners from across the globe in different contexts to explore how heart centered practice can impact archaeological theory methodology and research throughout the discipline
