Marina Warner and the Ethics of Telling Silenced Stories Lisa Propst, 2020-12-17 Efforts to fight back against silencing are central to social justice movements and scholarly fields such as feminist and postcolonial studies But claiming to give voice to people who have been silenced always risks appropriating those people's stories Lisa Propst argues that the British novelist and public intellectual Marina Warner offers some of the most provocative contemporary interventions into this dilemma Tracing her writing from her early journalism to her novels short stories and studies of myths and fairy tales Propst shows that in Warner's work features such as stylized voices and narrative silences tales that Warner's books hint at but never tell question the authority of the writer to tell other people's stories At the same time they demonstrate the power of literature to make new ethical connections between people inviting readers to reflect on whom they are responsible to and how they are implicated in social systems that perpetuate silencing By exploring how to combat silencing through narrative without reproducing it *Marina Warner and the Ethics of Telling Silenced Stories* takes up an issue crucial not just to literature and art but to journalists policy makers human rights activists and all people striving to formulate their own responses to injustice Proceedings of the Board of Education Detroit (Mich.). Succeeding King Lear Emily Sun, 2010 This book investigates the question of the relations between literature and politics in democratic modernity It makes connections between Shakespeare's tragedy Wordsworth's poetry and the documentary nonfiction and photography of James Agee and Walker Evans to offer new ways of thinking of the logic of literary history and the relationship between early modern Romantic and twentieth century texts and it brings literature into dialogue with contemporary philosophical readings of Western political thought King Lear Sun argues opens up a literary succession at the heart of which is a crisis of sovereignty Interrogating what it is to be a political subject as actor and spectator in the kingdom the play issues an injunction to transform spectatorship in plural and nonsovereign terms Thorough engagements with Lear Wordsworth in the 1790s and Agee and Evans in the 1930s assume this injunction by generating new artistic genres and modes for their times
