**Sketches of American Wildlife** Stanley P. Young, 2013-10 This is a new release of the original 1946 edition

Sketches of American Wildlife Stanley Paul Young, 1946      **Drawing America's Wildlife** Doug Lindstrand, 2003 This fully revised portfolio includes field sketches drawings of footprints and four colour photographs of more than 60 species of North American animals taken in their natural habitats Rather than a drawing manual this is a reference geared toward artists of any media interested in drawing animals The hundreds of detailed sketches and photographs capture the true nature of the species Flat artists can use this guide as a starting point for larger compositions while sculptors and woodcarvers can use it to define natural looking poses for their subjects This replaces 1565231430      American Wildlife Art David J. Bronze 1850 1925 is the first full scale exhibition to explore the aesthetic and cultural impulses behind the creation of statuettes with American western themes which have been so popular with audiences then and now Both the exhibition and this accompanying catalogue offer a fresh look at the multifaceted roles played by these sculptors in creating three dimensional interpretations of western life whether based on historical fact mythologized fiction or most often something in between Examples by such archetypal representatives of the West as Frederic Remington and Charles M Russell are complemented by the work of sculptors such as James Earle Fraser and Paulanship who contributed to the popularity of the American bronze statuette even though their western subjects were less frequent Publisher s description      Wildlife in American Art National Museum of Wildlife Art, Adam Duncan Harris, 2009 For more than two decades the National Museum of Wildlife Art in Jackson Wyoming has honored and sustained the tradition of wildlife in American art by assembling the most comprehensive collection of paintings and sculptures portraying North American wildlife in the world Wildlife in American Art presents for the first time a generous sampling of the museum s holdings charts the history of this enduring theme in American art and explores the evolving relationship between Americans and the natural resources of this continent
