Hyde, John F. Setaro, MD, 2013-01-01 Did you know that smoking is the most common drug addiction in the United States Or that it can take only a single cigarette to become addicted Packed with information on how smoking and second hand smoke affect the human body the debate over the right to smoke the status of lawsuits against tobacco companies and much more this in depth resource concludes with a detailed section on how to quit the deadly habit **The Cigarette Book** Chris Harrald, Fletcher Watkins, 2010-11 A truthful and learned treasury of musings on the miracle drug Beryl **The Tipping Point** Malcolm Gladwell, 2006-11-01 From the bestselling author of *The Bomber Mafia* discover Malcolm Gladwell's breakthrough debut and explore the science behind viral trends in business marketing and human behavior The tipping point is that magic moment when an idea trend or social behavior crosses a threshold tips and spreads like wildfire Just as a single sick person can start an epidemic of the flu so too can a small but precisely targeted push cause a fashion trend the popularity of a new product or a drop in the crime rate This widely acclaimed bestseller in which Malcolm Gladwell explores and brilliantly illuminates the tipping point phenomenon is already changing the way people throughout the world think about selling products and disseminating ideas A wonderful page turner about a fascinating idea that should affect the way every thinking person looks at the world Michael Lewis *Paul Auster's Writing Machine* Evija Trofimova, 2014-08-28 Paul Auster is one of the most acclaimed figures in American literature Known primarily as a novelist Auster's films and various collaborations are now gaining more recognition Evija Trofimova offers a radically different approach to the author's wider body of work unpacking the fascinating web of relationships between his texts and presenting Auster's canon as a rhizomatic facto fictional network produced by a set of writing tools Exploring Auster's literal and figurative use of these tools the typewriter the cigarette the doppelgänger figure the city Evija Trofimova discovers Auster's writing machine a device that works both as a means to write and as a construct that manifests the emblematic writer figure This is a book about assembling texts and textual networks the writing machines that produce them and the ways such machines invest them with meaning Embarking on a scholarly quest that takes her from between the lines of Auster's work to between the streets of his beloved New York and finally to the man himself Paul Auster's *Writing Machine* becomes not just a critical investigation but a critical collaboration raising important questions about the ultimate meaning of Auster's work and about the relationship between texts their authors their readers and their critics Mother Jones Magazine , 1993-01 Mother Jones is an award winning national magazine widely respected for its

groundbreaking investigative reporting and coverage of sustainability and environmental issues *Tobacco Industry and Smoking* Fred C Pampel, Fred C. Pampel, 2009 Praise for the previous edition *Ashes to Ashes* Richard Kluger, 2010-05-26 PULITZER PRIZE WINNER No book before this one has rendered the story of cigarettes mankind's most common self-destructive instrument and its most profitable consumer product with such sweep and enlivening detail A great battleship of a book formidable majestic The New York Times Book Review Here for the first time in a story full of the complexities and contradictions of human nature all the strands of the historical process financial social psychological medical political and legal are woven together in a riveting narrative The key characters are the top corporate executives public health investigators and antismoking activists who have clashed ever more stridently as Americans debate whether smoking should be closely regulated as a major health menace We see tobacco spread rapidly from its aboriginal sources in the New World 500 years ago as it becomes increasingly viewed by some as sinful and some as alluring and by government as a windfall source of tax revenue With the arrival of the cigarette in the late nineteenth century smoking changes from a luxury and occasional pastime to an everyday to some indispensable habit aided markedly by the exuberance of the tobacco huskers This free enterprise success saga grows shadowed from the middle of this century as science begins to understand the cigarette's toxicity Ironically the more detailed and persuasive the findings by medical investigators the more cigarette makers prosper by seeming to modify their product with filters and reduced dosages of tar and nicotine We see the tobacco manufacturers come under intensifying assault as a rogue industry for knowingly and callously plying their hazardous wares while insisting that the health charges against them remain unproven and are universally understood so smokers indulge at their own risk Among the eye-opening disclosures here outrageous pseudo-scientific claims made for cigarettes throughout the 30s and 40s and the story of how the tobacco industry and the National Cancer Institute spent millions to develop a safer cigarette that was never brought to market Dealing with an emotional subject that has generated more heat than light this book is a dispassionate tour de force that examines the nature of the companies culpability the complicity of society as a whole and the shaky moral ground claimed by smokers who are now demanding recompense Butt Busters Bert Silva, 2005-08 In 20 years what smoker will legitimately be able to claim that he or she didn't know cigarettes were harmful or addictive And how shocked will a jury really be when it hears that a tobacco executive in the 1960s knew about the addictive nature of cigarettes There's no real evidence that telling kids not to smoke really works Indeed studies have shown that it can often have the opposite effect Children by their very nature love to defy authority and spending millions on advertising to vilify the cigarette could ultimately serve to enhance its appeal The cigarette is and will continue to be forbidden fruit Even though the films of Hollywood's Golden Age once portrayed smoking as a normal activity smoking no longer enjoys such popularity and for good reason An estimated 3.5 million people worldwide still die each year from smoking-related illnesses Through the use of factoids and cartoons author Gilbert M Silva illustrates his belief that smokers are victims of what is essentially a
