Gender and Sexuality in Ghanaian Societies Martha Donkor, Amoaba Gooden, 2022-09-01 Gender and Sexuality in Ghanaian Societies explores cultural dynamics embedded in the interstices of agency vulnerability and power within patriarchal structures that seek to regulate the sexual lives of women in Ghana Emphasizing the centrality of gender as a motive force for sexual expression the book stresses that contemporary Ghanaian women s sexual expressions are caught at the intersection of traditional gender expectations of heteronormativity and women s perceptions of how heteronormativity should operate in their lives The book s emphasis on women s agency is significant because it highlights a flaw in earlier Western accounts of African women s lives under Africa s special brand of patriarchy that held women in total subjection to men Gender and Sexuality debunks that trope and presents Ghanaian women s dynamism resilience and vulnerabilities embedded in the diverse cultures in which they live

Loader,2021-03-15 This volume brings together essays on the theme of sexuality and gender by William R G Loader one of the leading specialists in the field arising from his extensive investigation of early Jewish and Christian literature about such issues as marriage adultery divorce celibacy gender roles and incest *Historical and Archaeological Perspectives on Gender Transformations* Suzanne M. Spencer-Wood,2012-12-09 In many facets of Western culture including archaeology there remains a legacy of perceiving gender divisions as natural innate and biological in origin This belief follows that men are naturally pre disposed to public intellectual pursuits while women are innately designed to care for the home and take care of children In the interpretation of material culture accepted notions of gender roles are often applied to new findings the dichotomy between the domestic sphere of women and the public sphere of men can color interpretations of new materials In this innovative volume the contributors focus explicitly on analyzing the materiality of historic changes in the domestic sphere around the world Combining a global scope with great temporal depth chapters in the volume explore how gender ideologies identities relationships power dynamics and practices were materially changed in the past thus showing how they could be changed in the future Handbook of Psychology and Sexual Orientation Charlotte Patterson,Anthony R. D'Augelli, Ph.D.,2013 The first authoritative summary of its kind in this area the Handbook of Psychology and Sexual Orientation is the primary resource for the many researchers including a new generation of investigators who are continuing to advance understanding in this field The volume editors along with other leading experts contribute an extraordinary review of contemporary psychological research and theory on sexual orientation in their specific fields of work Gender and Sexual Dissidence on Catalan and Spanish Television Series Silvia Grassi,2016-09-23 Taking as a starting point an interpretation of the television medium as an Ideological State Apparatus this book examines how gender roles and non heteronormative sexualities are constructed in Spanish and Catalan television series In the first part which focuses on the construction of gender roles in Catalan soap operas it applies the analytical paradigms founded by Anglo Saxon feminist scholars for the content of soap operas to a corpus of material which has rarely been analysed through this perspective In the second part which focuses on the construction of non heteronormative sexualities in Spanish and Catalan television series the book challenges the rhetoric of normalisation and the essentialist paradigms which have so far dominated the examination of the construction of sexuality in

television series As such this book addresses the role performed by television in the construction of meanings which surround gender issues and non heteronormative sexualities This is a timely exercise because gender studies and studies of sexual dissidence are fairly recent fields in Spanish and Catalan academia and television has been largely disregarded especially as far as the analysis of characters and storylines is concerned As a result this book represents a major contribution to these fields in the Spanish and Catalan contexts
