By exploring central ideas in neuroscience evolutionary biology linguistics music philosophy ethics religion and history Williams shows that it is the circuitry of the brain's hard wired dispositions that continually create similar tales around the world archetypal stories reflecting ancient tensions that arose from our evolutionary past and the very construction of our brains The book asserts that to truly understand literature one must look at the biological creature creating it By using the lens of science to examine literature we can see how stories reveal universal aspects of the biological mind The Trickster character is particularly instructive as an archetypal character who embodies a raft of human traits and concerns for Trickster is often god devil musical sexual silver tongued animal and human at once treading upon the moral dictates of culture Williams brings together science and the humanities demonstrating a critical way of approaching literature that incorporates scientific thought

*The Trickster and the System* Helena Bassil-Morozow, 2014-09-25 For centuries the trickster has been used in various narratives including mythological literary and cinematic to convey the idea of agency rebellion and often turbulent progress In *The Trickster and the System* Identity and Agency in Contemporary Society Helena Bassil Morozow shows how the trickster can be seen as a metaphor to describe the psycho anthropological concept of change an impulse that challenges the existing order of things a progressive force that is a structural and anti structural in its nature The book is about being able to see things from an unusual even odd perspective which does not coincide with the homogenous normality of the mass or the social system or a political ideology or some other kind of authority The Trickster and the System offers an analytical paradigm which can be used to examine relationships between tricksters and systems change and stability in a wide range of social political and cultural contexts It covers a range of systems describes different types of tricksters and discusses possible conflicts tensions and dialogues between the two opposing sides One of the central ideas of the book is that social systems use shame as a tool to control and manage all kinds of tricksters individuality agency creativity spontaneity innovation and initiative to name but a few The author argues that any society that neglects its tricksters agents of change ends up suffering from decay stagnation or even mass hysterical outbursts *The Trickster and the System* Identity and Agency in Contemporary Society provides a fresh perspective on the trickster figure in a variety of cultural contexts It covers a range of psychological cultural social and political phenomena from personal issues to the

**The Bedtrick** Wendy Doniger, 2022-08-22 Somehow I woke up one day and found myself in bed with a stranger Meant literally or figuratively this statement describes one of the best known plots in world mythology and popular storytelling In a tour that runs from Shakespeare to Hollywood and from Abraham Lincoln to Casanova the erudite and irrepressible Wendy Doniger shows us the variety danger and allure of the bedtrick or what it means to wake up with a stranger The Bedtrick brings together hundreds of stories from all over the world from the earliest recorded Hindu and Hebrew texts to the latest item in the *Weekly World News* to show the hilariously convoluted sexual scrapes that people manage to get themselves into and out of Here you will find wives who accidentally commit adultery with their own husbands You will read Lincoln's truly terrible poem about a bedtrick You will learn that in Hong Kong the film *The Crying Game* was retitled *Oh No My Girlfriend Has a Penis* And that President Clinton was not the first man to be identified by an idiosyncratic organ At the bottom of these wonderful stories ancient myths and historical anecdotes lie the dynamics of sex and gender power and identity Why can't people tell the difference in the dark Can love always tell the difference between one lover and another And what kind of truth does sex tell Funny sexy and engaging The Bedtrick is a masterful work of energetic storytelling and dazzling scholarship Give it to your spouse and your lover

**Philosophy, Religious Studies, and Myth** Robert A. Segal, 2014-07-16 Much of the theorizing about myth in philosophy and religious studies grows out of efforts to understand the classics and the Bible In the case of the classics the presence of myth has been taken for granted and conclusions

reached about Greek and Roman mythology have spurred generalizations about myth In the case of the Bible however the existence of myth has been contested In fact Judaism and Christianity are regularly praised for their nonmythic outlook Conclusions reached about the presence or absence of myth in either the Hebrew Bible or the New Testament have led to generalizations about myth per se Many of the essays in this volume apply theories of myth to classical biblical and ancient Near Eastern cases but in so doing they draw conclusions about the nature of myth itself Those essays that criticize past applications make generalizations as well By no means has all theorizing about myth from philosophy and religious studies centered on the ancient world and this volume contains selections from theories in both disciplines that stem from reflections on the nature of science language knowledge and reality *The Renegade Monk of Tibet* Rinjing Dorje, 2005

**Jungian Film Studies** Helena Bassil-Morozow, Luke Hockley, 2016-11-25 Jungian film studies is a fast growing academic field but Jungian and post Jungian concepts are still new to many academics and film critics Helena Bassil Morozow and Luke Hockley present Jungian Film Studies The Essential Guide the first book to bring together all the different strands issues and arguments in the discipline and guide the reader through the various ways in which Jungian psychology can be applied to moving images Bassil Morozow and Hockley cover a range of Jungian concepts including the collective unconscious archetypes the individuation process alchemy and signs and symbols showing how they can be used to discuss the core cinematic issues such as narrative structure gender identity genre authorship and phenomenology The authors argue that as a place where the unconscious and conscious meet cinema offers the potential for imagery that is psychologically potent meaningful and that plays a role in our personal psychological development This much needed book which bridges the space between Jungian concepts and traditional film theory will be essential reading for scholars and students of Analytical Psychology psychoanalysis Jungian film studies media film and cultural studies psychosocial psychology and clinical psychology It will also appeal to analytical psychologists psychotherapists and readers with an interest in film analysis

**Echoes from Forgotten Mountains** Jamyang Norbu, 2023-07-24 Jamyang Norbu has taken the stories of forgotten Tibetans resistance fighters secret agents soldiers peasants merchants even street beggars and skillfully worked their myriad accounts into a single glorious memory history of the Tibetan struggle He uses recollections from his own childhood to ease the reader into an immersive understanding of the complexity of Tibet's modern history the Chinese invasion the uprisings in Kham and Amdo the formation of the Four Rivers Six Ranges Resistance Force the March 59 Lhasa Uprising the CIA supported Air Operations the Nyemo peasant Uprising of 68-69 and the Mustang Guerilla Force in northern Nepal where Norbu later served He writes of leaving home to drive tractors at refugee settlements educate refugee children produce plays at the Tibetan Institute of Performing Arts and collect intelligence for the Tibetan Office of Research and Analysis TORA and for France's External Intelligence Agency SDECE He uses these anecdotes not so much as autobiography but as a framing device to recount the lives deeds and too often tragedies of the many Tibetans he encountered and befriended throughout his

lifenearly all of whom played vital roles in shaping the recent history of their country but whose contributions are still unsung and forgotten Jamyang Norbu s lifelong commitment to collecting and orchestrating the echoes of these many forgotten voices from the past has resulted in a lyrical learned and compassionate book that could well be described as the prose epic of the Tibetan freedom struggle Tibetan Literary Genres, Texts, and Text Types ,2015-09-17 The papers in Tibetan Literary Genres Texts and Text Types deepen our knowledge of Tibetan literature They not only examine particular Tibetan genres and texts pre modern and contemporary but also genre classification transformation and reception Despite previous contributions the systematic analysis of Tibetan textual genres is still a relatively undeveloped field especially when compared with the sophisticated examinations of other literary traditions The book is divided into four parts textual typologies blurred genre boundaries specific texts and text types and genres in transition to modernity The introduction discusses previous classificatory approaches and concepts of textual linguistics The text classes that receive individual attention can be summarised as songs and poetry offering ritual hagiography encyclopaedia lexicographical texts trickster narratives and modern literature Contributors include Franz Karl Ehrhard Ruth Gamble Lama Jabb Roger R Jackson Giacomella Orofino Jim Rheingans Peter Schwieger Ekaterina Sobkovyak Victoria Sujata and Peter Verhagen
