The German Presence In Queensland Over The Last 150 Years:

Our Multicultural Heritage, 1788-1945 National Library of Australia, 1995 **Remembering German-Australian Colonial Entanglements** Lars Eckstein, Andrew Wright Hurley, 2020-05-21

Remembering German Australian Colonial Entanglements emphatically promotes a critical and nuanced understanding of the complex entanglement of German colonial actors and activities within Australian colonial institutions and different imperial ideologies Case studies ranging from the German reception of James Cook s voyages through to the legacies of 19th and 20th century settler colonialism foreground the highly ambiguous roles played by explorers missionaries intellectuals and other individuals as well as by objects and things that travelled between worlds ancestral human remains rare animal skins songs and even military tanks The chapters foreground the complex relationship between science religion art and exploitation displacement and annihilation Contributors trace how these entanglements have been commemorated or forgotten over time by Germans settler Australians and Indigenous people Bringing to light a critical understanding of the German involvement in the Australian colonial project Remembering German Australian Colonial Entanglements will be of great interest to scholars of colonialism postcolonialism German Studies and Indigenous Studies But for the editors substantial new introductory chapter these contributions originally appeared in a special issue of Postcolonial Studies

Karl Langer, 2021-12-30 Despite a European training and an early career working with Peter Behrens a migration from Vienna to the Australian state of Queensland positioned the architect Karl Langer 1903 1969 at the very edge of both European and Australian modernism Confronted by tropical heat and glare the economics of affordable housing fiercely proud and regional architectural practices and a suspicion of the foreign Langer moulded the European language of international modernism to the unique climatic and social conditions of tropical Australia This book will tell Langer s story through a series of edited essays focused on key themes and projects Published as part of the Bloomsbury Studies in Modern Architecture series which brings to light the work of significant yet overlooked modernist architects it is both an examination of an architect s work and international legacy and also a case study in the trans global dissemination of design ideas Studying the architect s built and proposed work both regional and metropolitan the scale and reach of Langer s practice will be considered for the first time showing how given his continued influence on the contemporary culture of tropical design Langer has been unjustly ignored by the historiography of both Australian and Modernist architecture to date

An Environmental History of Australian Rainforests until 1939 Warwick Frost, 2020-06-10 This book provides a comprehensive environmental history of how Australia s rainforests developed the influence of Aborigines and pioneers farmers and loggers and of efforts to protect rainforests to help us better understand current issues and debates surrounding their conservation and use While interest in rainforests and the movement for their conservation are often mistakenly portrayed as features of the last few decades the debate over human usage of rainforests stretches well back into the nineteenth century In the modern world rainforests are generally considered

the most attractive of the ecosystems being seen as lush vibrant immense mysterious spiritual and romantic Rainforests hold a special place both providing a direct link to Gondwanaland and the dinosaurs and today being the home of endangered species and highly rich in biodiversity They are also a critical part of Australia s heritage Indeed large areas of Australian rainforests are now covered by World Heritage Listing However they also represent a dissonant heritage What exactly constitutes rainforest how it should be managed and used and how much should be protected are all issues which remain hotly contested Debates around rainforests are particularly dominated by the contradiction of competing views and uses seeing rainforests either as untapped resources for agriculture and forestry versus valuing and preserving them as attractive and sublime natural wonders Australia fits into this global story as a prime example but is also of interest for its aspects that are exceptional including the intensity of clearing at certain periods and for its place in the early development of national parks This book will be of great interest to students and scholars of Environmental History Australian History and Comparative History

Environmental History and Ecology of Moreton Bay Daryl McPhee, 2017-08-01 The south east Queensland region is currently experiencing the most rapid urbanisation in Australia This growth in human population industry and infrastructure puts pressure on the unique and diverse natural environment of Moreton Bay Much loved by locals and holiday goers Moreton Bay is also an important biogeographic region because its coral reefs seagrass beds mangroves and saltmarshes provide a supportive environment for both tropical and temperate species The bay supports a large number of species of global conservation significance including marine turtles dugongs dolphins whales and migratory shorebirds which use the area for feeding or breeding Environmental History and Ecology of Moreton Bay provides an interdisciplinary examination of Moreton Bay increasing understanding of existing and emerging pressures on the region and how these may be mitigated and managed With chapters on the bay s human uses by Aboriginal peoples and later settlers its geology water quality marine habitats and animal communities and commercial and recreational fisheries this book will be of value to students in the marine sciences environmental consultants policy makers and recreational fishers

Muslims In Australia Nahid Kabir, 2013-01-11 Muslims in Australia investigates the basis of Australian society s fear of Muslims by tracing their history since the Afghan settlement in 1860 The author investigates how events such as September 11 and Bali terrorist attacks reinforce suspicion and fear giving an insight into what it means to be a Muslim in contemporary Australia and how the actions of militant Islamic groups have impacted upon Muslims in general in Western society

Queensland Lords Janet Spillman, 2015-09-10 Edward and Eliza Lord came to Moreton Bay in 1844 arriving as the remote convict outpost was opened up for free settlement Members of Lancashire merchant families they had invested their inheritances in NSW lands and a Sydney merchant firm just before the drought and crash of 1841 They moved north to rebuild their fortunes settling at Kangaroo Point before moving to the Darling Downs to start new commercial interests Although financial success continued to elude them the Lord family contributed to the settlement of colonial Queensland Edward and Eliza s great great

grand daughter Janet Spillman explores the way Queensland moulded the Lord family's lives and the way family members contributed to the colony's development

Fighting Words Raymond Evans, 1999 With an open heart and inquiring intellect Raymond Evans sets out to uncover a past not studied in the school books of his youth Growing up in the 1950s he lived in a community devoid of Aboriginal presence It was an enclave of Welsh migrant families with all the rituals and traditions of a faraway Home His evolving historical consciousness was fired by the need to connect with these shadowy absences and to engage with his adopted homeland Interwoven with his personal journey is a revealing selection of race relations histories which cover a wide arena from the Aboriginal European conflicts of colonial Queensland to the anti Chinese riots of 1888 and civilian internment during World War I Evans also moves beyond frontier conflict into the long period of repressive government control of Aboriginal lives In writing on race gender and labour relations he illustrates how selective history can be by omitting the contribution of Aboriginal labourers men and women These form a critical bridge to understanding the complexities of race relations today

Ludwig Leichhardt's Ghosts Andrew Wright Hurley, 2018 A fascinating cultural studies account of the afterlife of Leichhardt revealing both German entanglement in British colonialism in Australia and in a broader sense what happens when we maintain an open stance to the ghosts of the past

Combatting Totalitarianism John A. Moses, 2024-05-16 St Paul the apostle to the gentiles has bequeathed guidelines for both personal and political behavior to individual citizens and to states that have retained their relevance to humanity to this day However his statement in Romans 13 that the powers that be are ordained of God has been interpreted in conflicting ways especially since the time of Martin Luther in sixteenth century Germany Luther's occasional insistence that the ruler had to be obeyed unquestionably led to a political culture in Prusso Germany that was systematized by the philosopher G W F Hegel 1770 1831 His teachings gave rise to the disastrous ultra authoritarian regimes of both Marxist Leninism left wing Hegelianism and National Socialism right wing Hegelianism The author of this book being equipped with a long training in Prusso German history has explained how this happened and why both Imperial Germany and the Nazi Third Reich unleashed expansionist wars and justified them with ideologies that were both hostile to Western European and transatlantic democratic parliamentary values The author's familiarity with the contemporary history of both the liberal parliamentary West Germany and the authoritarian communist East Germany has enabled him to portray the internecine German debate that was largely influenced by the remarkable ministry of the martyred Lutheran pastor Dietrich Bonhoeffer
