The Philosophical Diseases of Medicine and their Cure Josef Seifert, 2012-11-02 At all times physicians were bound to pursue not only medical tasks but to reflect also on the many anthropological and metaphysical aspects of their discipline such as on the nature of life and death of health and sickness and above all on the vital ethical dimensions of their practice For centuries almost for two millennia how ever those who practiced medicine lived in a relatively clearly defined ethical and implicitly philosophical or religious world order within which they could safely turn to medical practice knowing right from wrong or at least being told what to do and what not to do Today however the situation has radically changed mainly due to three quite different reasons First and most obviously physicians today are faced with a tremendous development of new possibilities and techniques which allow previously unheard of medical interventions such as cloning cryo conservation genetic interference etc which call out for ethical reflection and wise judgment but regarding which there is no legal and medical ethical tradition Traditional medical education did not prepare physicians for coping with this new brave world of modern medicine Secondly there are the deep philosophical crises and the philosophical diseases of medicine mentioned in the preface that lead to a break down of firm and formative legal and ethical norms for medical actions

Defending the Gospel in Legal Style John Warwick Montgomery, 2017-10-25 Traditional apologetics is either focused on obscure quasi Thomist philosophical arguments for God's existence or on 18th century style answers to alleged biblical contradictions But a new approach has recently entered the picture the juridical defence of historic Christian faith with its particular concern for demonstrating Jesus's deity and saving work for humankind The undisputed leader of this movement is John Warwick Montgomery emeritus professor of law and humanities University of Bedfordshire England and

director International Academy of Apologetics Evangelism and Human Rights Strasbourg France His latest book of more than sixty published during his career shows the strength of legal apologetics its arguments drawn from secular legal reasoning can be rejected only at the cost of jettisoning the legal system itself on which every civilised society depends for its very existence The present work also includes theological essays on vital topics of the day characterised by the author's well known humour and skill for lucid communication
