**Taking Out the Violence** Ursula M. Anderson, 2010-12-08 At a time when the world is reeling from the violence thrust upon it this volume offers new insights into the answers being sought to the question being universally asked why such violence and terror should exist The issues of violence in particular that done to and by children and the learning and behavioral difficulties that so often accompany it are written about in a storytelling manner with the aim of making them easily understood and thereby helping to slow the momentum of a humankind apparently bent on destroying itself The serious mismatch between our current beliefs about the causes of these problems and the methods being used to redress them as measured by their statistically massive failure quite clearly indicates that we have been missing something very fundamental in these equations We are rapidly moving into knowledge about the roles of memory and consciousness and their energies in human behavior Thus the time is right to engage general awareness about how they play relentlessly into every function and dysfunction of body mind and soul and the belief systems of culture and religion that drive their energies in human thought and behavior and thus interactions with other This book is an indispensable and thought provoking guide for those involved with children the adults they become and the future of the earth and her inhabitants Taking Out the Violence Ursula M. Anderson MD, 2010-10-01 In a courageous achingly honest and long overdue insight and expose which just may be on the distaff side of political correctness the author invites a rethinking of our origins and the beliefs on which we build important components of our lives In particular how in spite of the creative compassionate love and energy of God which is our source humanity has become a purveyor of intolerance abuse and violence She traces the role that memory both personal and transgenerational has played in the evolution of human

consciousness and how religious and cultural beliefs therein embedded have dictated attitudes feelings and behavior which too often have served and continue to serve as ignition to violence and wars Looking to the future she pin points what needs to be done to moderate the violence in our world and reignite the divine by fostering the tolerance and compassion that derives from truly believing every child woman and man of all creeds and races come from the same source The British National Bibliography Arthur James Wells,2004 **Forthcoming Books** Rose Arny,2002-02 *The Theosophical Path* Katherine Augusta Westcott Tingley,1920 *Mother Jones Magazine* ,1989-02 Mother Jones is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues **Christian Register and Boston Observer...** ,1923 **English Mechanic and World of Science** ,1878
