The Politics of Parenthood Laurel Elder, Steven Greene, 2012-07-17 Certain events in one's life such as marriage joining the workforce and growing older can become important determinants of political attitudes and voting choice Each of these events has been the subject of considerable study but in *The Politics of Parenthood* Laurel Elder and Steven Greene look at the political impact of one of life's most challenging adult experiences having and raising children Using a comprehensive array of both quantitative and qualitative analyses Elder and Greene systematically reveal for the first time how the very personal act of raising a family is also a politically defining experience one that shapes the political attitudes of Americans on a range of important policy issues They document how political parties presidential candidates and the news media have politicized parenthood and the family over not just one election year but the last several decades They conclude that the way the themes of parenthood and the family have evolved as partisan issues at the mass and elite levels has been driven by and reflects fundamental shifts in American society and the structure of the American family

Fitzgerald, 2014-02-18 Despite radical changes

over the last century race remains a central organizing principle in U S society a key arena of inequality and the subject of ongoing conflict and debate In a refreshing new introduction to the sociology of race Recognizing Race and Ethnicity

encourages students to think differently by challenging the notion that we are or should even aspire to be color blind In this text Kathleen Fitzgerald considers how the continuing significance of race manifests in both significant and obscure ways by looking across all racial ethnic groups within the socio historical context of institutions and arenas rather than discussing each group by group Incorporating recent research and contemporary theoretical perspectives she guides students to examine racial ideologies and identities as well as structural racism at the same time she covers topics like popular culture sports and interracial relationships that will keep students engaged Recognizing Race and Ethnicity provides unparalleled coverage of white privilege while remaining careful to not treat white as the norm against which all other groups are defined Recognizing Race and Ethnicity makes it clear that in a time when race and racism are constantly evolving in response to varied social contexts societal demands and political climates we all must learn to recognize race if we are to get beyond it
