heads their hearts their courage and sometimes their stubbornness to help others and do extraordinary things **The Moral of the Story** John H. Lockwood,1999 The problem this project attempts to solve is to develop a workable moral education in light of the clash between religious forms of moral education and U S Supreme Court decisions concerning them The concept of story and storytelling has been suggested as a unifying focus for disparate prescriptions for moral education Several recent approaches to moral storytelling have been proposed The approaches of William Bennett Nel Noddings and Herbert Kohl are among those which have attempted to combine moral education and storytelling within the last decade Bennett is identified with other theorists whose primary concern is the moral content of a story Noddings is identified as a process theorist whose primary concern is the process of moral storytelling not the content Kohl is identified as a reflection theorist whose approach challenges tradition in the hope of creating a more moral society Each one of these three approaches attempts to provide a comprehensive program of moral education but they fall short of that goal The purpose of this project then is to construct a storytelling moral education program that improves upon earlier approaches Using the three levels of moral thinking posited by R M Hare a three level approach to moral storytelling is proposed The intuitive critical and meta ethical levels of moral thinking that Hare refers to are used to frame a new three level approach to moral storytelling The three level approach combines content process and reflection into a unified prescription for moral education Thus a more comprehensive plan for moral education through storytelling is developed one that respects traditional forms of moral education while remaining within the parameters set by the U S Supreme Court *Resources in Education* ,1997

Leo, 2004-11-29 Management and IT professionals in the healthcare arena face the fear of the unknown they fear that their massive efforts to comply with HIPAA requirements may not be enough because they still do not know how compliance will be tested and measured No one has been able to clearly explain to them the ramifications of HIPAA Until now The H National Memorial Museum of the American Indian United States. Congress. Senate. Select Committee on Indian Affairs, 1989 A Labor of Love James Young, 2006-07 A LABOR OF LOVE Weaving Your Own Virgin Birth on the Loom of Life continues the metaphysical mediation of life once again featuring Christo Sahbays the itinerant metaphysician who infills with heart wisdom igniting inspiration in those who have ears and want now to hear and eyes who want now to see This second entry in the author's new MY SPIRITUAL AWARENESS SERIES is a heartfelt extension of its predecessor that takes the reader to the divine Essence each is in order to encourage letting go of or forgiving those childhood images that are the warp upon which our history has been woven time and again When the freedom to just be what we always have been are and always will be quickens our Spirit we come at last to embrace our own divinity which then leads us to embrace the divinity all of life so beautifully just Is This second offering in the MY SPIRITUAL AWARENESS SERIES stems from the first A third in the series KEYS TO THE DOOR OF TRUTH Metaphysical Musings of a Born Yet Again leads to future writings that will deal with such topics as the metaphysical meaning of Jesus and his disciples the Sermon on the Mount some of the various newfound Gospels and those portions of the remaining three Gospels that do not replicate the content of the Gospel of John all placed in a practical perspective **The Kennedy Family and the Story of Mental Retardation** Edward Shorter, 2000 According to Edward Shorter just forty years ago the institutions housing people with mental retardation MR had become a national scandal The mentally retarded who lived at home were largely isolated and a source of family shame Although some social stigma still attaches to the people with developmental disabilities a range of conditions including what until recently

was called mental retardation they now actively participate in our society and are entitled by law to educational social and medical services The immense improvement in their daily lives and life chances came about in no small part because affected families mobilized for change but also because the Kennedy family made mental retardation its single great cause Long a generous benefactor of MR related organizations Joseph P Kennedy made MR the special charitable interest of the family foundation he set up in the 1950s Although he gave all of his children official roles he involved his daughter Eunice in performing its actual work identifying appropriate recipients of awards and organizing the foundation s activities With unique access to family and foundation papers Shorter brings to light the Kennedy family s strong commitment to public service showing that Rose and Joe taught their children by precept and example that their wealth and status obligated them to perform good works Their parents expected each of them to apply their considerable energies to making a difference Eunice Kennedy Shriver took up that charge and focused her organizational and rhetorical talents on putting MR on the federal policy agenda As a sister of the President of the United States she had access to the most powerful people in the country and drew their attention to the desperate situation of families affected by mental retardation Her efforts made an enormous difference resulting in unprecedented public attention to MR and new approaches to coordinating medical and social services Along with her husband R Sargent Shriver she made the Special Olympics a international annual event in order to encourage people with mental retardation to develop their skills and discover the joy of achievement She emerges from these pages as a remarkable and dedicated advocate for people with developmental disabilities Shorter s account of mental retardation presents an unfamiliar view of the Kennedy family and adds a significant chapter to the history of disability in this country Author note Edward Shorter is a Professor at the University of Toronto where he holds the Hannah Chair in the History of Medicine He is the author of A History of Psychiatry from the Era of the Asylum to the Age of Prozac as well as many other books in the fields of history and medicine
