The Golden Age of Railway Posters ,2015-05-07

Few sights can reawaken memories of happy holidays of yesteryear as vividly as the superb railway posters that were so much a part of the great age of mass rail travel Between the 1930s and 1950s regarded by many as the heyday of advertising graphic art a huge range of posters appeared bearing slogans proclaiming the attractions of such resorts as Weston super Mare in Smiling Somerset and presenting a colourful picture of Britain at its best Through images as diverse as bustling cities scenes of rural tranquility and majestic mountain landscapes they offer an escapist paradise where appealingly uncrowded beaches basking in permanent sunshine are just a train journey away This beautiful collection includes over 80 vintage posters from the 30s 40s and 50s with individual poster captions describing the artists and locations depicted Michael Pailin recaptures the spirit of the great days of railway holidays and train excursions in his entertaining introduction an era that is both within living memory and yet part of a bygone age Railway Posters Lorna Frost,2012-07-20 Railway posters have huge appeal for the modern audience but just what explains this continuing interest Enduring images of iconic locomotives bathing beauties and characters such as Sunny South Sam are testament to the creativity of the railway company marketing departments and the posters tell us not only about railway history and technology architectural and engineering accomplishments but also about the cultural and social significance of the railways The influence of the railway industry on our cities and coastlines and on the development of leisure time and holiday resorts can be seen in the recurring images of ramblers bathers and idyllic tourist destinations This book explores the changing styles and functions of the railway poster from the early pre grouping days through to the inter war golden age and nationalised British Railways **All Aboard!** Lynn Johnson,1999-06 Travel back to the wonder years of rail in this beautiful compendium of art and illustration Through luggage labels maps posters advertisements promotional brochures napkins and other colorful ephemera All Aboard celebrates our romance with the railroad Its pages provide a nostalgic look at rail travel as it used to be from the exciting early days at the turn of the century through its heyday in the 30s and through World War II Lynn Johnson and Michael O Leary have collected hundreds of period images from Deco era logos that evoke the sleek streamlined style of the day to wartime propaganda posters highlighting the muscularity of freight locomotives that transported weapons and tanks for American troops All Aboard also explores the art of the Orient Express and great European lines the rugged rails of Canada and exotic points abroad This exciting new resource for train enthusiasts and everyone on the lookout for terrific images recreates the splendor of the modern locomotive era *Poetics of the Poster* David H. T. Scott,2010-01-01 This book sets out to explore the way with the onset of a new and integral relationship between text and image the modern poster is able to evolve distinctive persuasive strategies that will transform modern advertising The book shows how this fundamental development is closely related to contemporary

developments in the visual arts in particular Futurism and Art Deco and reflects the increasing cross fertilisation and symbiosis between art and graphic design The book focuses in particular on the way conventional textual strategies metaphor metonymy rebus are adapted by the modern poster to produce visual or textual visual equivalents which through their employment of combined pictorial and linguistic elements maximise their attractive or persuasive power over the viewer reader A key aim of the book is to clarify the assumptions on which semiology the study of signs is based in the context of modern poster artists practice The text image relation is explored through five chapters focussing on 1 the rhetoric of image text in general 2 text and image in airline logos British Airways and Air France 3 visual metonymies in boxing posters 4 text and image in posters expressing speed 5 text image in Swiss tourist posters There are approximately 120 colour illustrations arranged in groups that reflect the different orientations of the chapters

The World's First Railway System Mark Casson, 2009-09-10 This is the first history of the British railway system written from a modern economic perspective It uses counterfactual analysis to construct an alternative network to represent the most efficient alternative rail network that could have been constructed given what was known at the time the first time this has been done

Travel Marketing and Popular Photography in Britain, 1888-1939 Sara Dominici, 2017-10-05 This book explores how popular photography influenced the representation of travel in Britain in the period from the Kodak led emergence of compact cameras in 1888 to 1939 The book examines the implications of people's increasing familiarity with the language and possibilities of photography on the representation of travel as educational concerns gave way to commercial imperatives Sara Dominici takes as a touchstone the first fifty years of activity of the Polytechnic Touring Association PTA a London based philanthropic turned commercial travel firm As the book reveals the relationship between popular photography and travel marketing was shaped by the different desires and expectations that consumers and institutions bestowed on photography this was the struggle for the interpretation of the travel image
