Reaching the Heart of Leadership Avis Glaze, 2017-08-15 Featuring concrete ideas and action steps this book accentuates the need for innovative and thoughtful educational leadership based in self examination trust and equity **Ethics, the Heart of Leadership** Joanne B. Ciulla, 2014-09-09 Top academic scholars ponder the question of ethics as it pertains to all aspects of leadership in business government and nonprofit organizations If leaders were defined by their influence on history Hitler would be on par with Gandhi Lincoln and Mother Theresa Yet most of us believe that our superiors have a responsibility to exercise power with a purpose far greater than any political agenda and a motive more noble than personal gain This thought provoking collection of essays explores the ethical challenges that leaders face in their relationships with followers the choices they make and the ways in which they influence others Joanne Ciulla and her contributors examine the traits and characteristics of top tier leaders She questions the assumption that moral fortitude is an inherent part of being in charge analyzes the roles that charisma morality and delegation play in the leadership paradigm and considers whether individuals who want to lead with integrity but are sometimes forced to get their hands dirty for their constituents can be called moral leaders Readers will gain an appreciation for how ethics is not an add on to the practice of leadership but rather an integral part of it an element that informs the very idea of what it means to lead and to lead well *Courage: The Heart of Leadership* Annabel Beerel, 2025-03-04 Courage lies at the heart of leadership Leaders need courage to make wise decisions not self interested ones They need to be able to set aside their egos to feel vulnerable to face challenges yet remain principled and hold the course This book presents many suggestions on how to make a real difference in organizations and explains how one can develop the courage to be an effective leader step by step The book is designed to give leaders the self awareness and the tools to overcome the obstacles that prevent us from leading effectively Leadership requires working through the systemic barriers that serve as forcefields pulling and pushing us in various directions Drawing on interviews with over 20 organizational leaders in a variety of industries the book helps leaders to address key areas that are rarely discussed the personal baggage attached to authority self esteem and self differentiation ego management and the terror of the group It highlights with examples how fear impairs our ability to make good decisions and how our tendency to reactivity and the quick fix vitiates our attempts at being courageous The hallmark of courage is the ability to have courageous conversations that invite transformation The book is ideal reading for organizational leaders who are seeking ways to break through some of the personal and systemic barriers to leading with purpose in a way that makes a real difference
