NBS Building Science Series United States. National Bureau of Standards,1978 *Life-cycle Costing* Rosalie T. Ruegg,Center for Building Technology. Building Economics and Regulatory Technology Division,1978 *NBS Building Science Series* ,1974 *Energizing Green Cities in Southeast Asia* Dejan R. Ostojic,Ranjan K. Bose,Holly Krambeck,Jeanette Lim,Yabei Zhang,2013-10-07 This book presents a blueprint for transforming East Asian cities to global engines of green growth by choosing energy efficient solutions for their infrastructure needs with case studies in Cebu City the Philippines Da Nang Vietnam and Surabaya Indonesia illustrating the use of sustainable urban energy and emissions planning SUEEP

Greenhouse Gas Control Technologies B. Eliasson,P. Riemer,A. Wokaun,1999-05-20 These proceedings contain 270 papers outlining ideas and contributions to the new scientific technical and political discipline of Greenhouse Gas GHG Control The contributions were presented at the 4th International Conference on Greenhouse Gas Control Technologies GHGT 4 It was the largest gathering of experts active in this new and fast developing field GHGT 4 was different from its predecessors in that it included all greenhouse gases not only CO<sub>2</sub> and all issues which could contribute to the mitigation of the greenhouse problem technical economic and political The main focus was on practical solutions and real demonstrations of mitigation technology being planned and implemented today It also addressed ways to increase the efficiency of power production and utilisation and looked at proposals to encourage the development of renewable energy sources During the Opening Session 10 keynote addresses were heard from prominent personalities in government industry and academia To tackle this very inter disciplinary problem and to achieve acceptable solutions it is essential for industry and government to initiate intense dialogue and cooperation Conferences like this can provide the opportunity for a meeting of minds between engineers and politicians in the face of global challenge The primary attributes of this global challenge are manifold the problem is global and international it is inter disciplinary both in substance and approach it covers technical political and economic issues and involves government science industry and academia it is complex and non linear and it will take the efforts of all parties involved to solve the problem These proceedings contain ideas for starting demonstration projects and for making better use of the power and flexibility of market measures They also show it is a problem we can influence and that there is a wealth of ideas The challenge now is to find the right partners to put these ideas into action Building Technology Project Summaries Center for Building Technology,1976 **Changing by degrees : steps to reduce**

Committee on Science and Technology,1983 **Climate Change and the World Bank Group** World Bank,2011-01-26 This study from the Independent Evaluation Group draws lessons for development and climate change mitigation from the World Bank Group s far reaching portfolio of projects in energy forestry transport coal power and technology transfer Reviewing what has worked what hasn t and why the evaluation s key findings include Energy efficiency

can offer countries direct economic returns that dwarf those of most other development projects while also reducing greenhouse gas emissions Tropical forest protected areas on average significantly reduce tropical deforestation preserving carbon and biodiversity Deforestation rates are lower in areas that allowed sustainable use by local populations than in strictly protected areas Deforestation rates were lowest of all in indigenous forest areas For renewable energy projects long duration loans have been important in making projects financially viable But at prevailing carbon prices carbon offset sales had little impact on most renewable energy projects rate of returns and did not address investors need for up front capital Technology transfer broadly understood to include diffusion of technical and financial innovations related to low carbon development has worked well when the logic of piloting and demonstration is well thought out and when grants are used to mitigate the risk of pioneering efforts
