Trusso,2017-06-14 Philosophy of Love is one of many courses offered at LaGuardia Community College CUNY in the
Philosophy and Critical Thinking Program The journal is a collection of student work inspired by the readings and discussions
from HUP 215 during the Spring 2017 semester Inside you will find each student s final paper along with a critical review
and a response from the author The format reflects the dialectical process that we embarked on during class discussions up
and down the ladder of love The ascent is a challenging struggle The dialectic continues motivated by a love for wisdom self

Sequels: Adult books Mandy Hicken,1982 **Face Value** Christopher Rivers,1994 This book explores ideas about
human physical appearance expressed in French novels of the eighteenth and nineteenth centuries as well as the
pseudoscience of physiognomy that influenced them Physiognomy which purports to read the body as an index to spiritual
intellectual or moral qualities had its greatest proponent in the eighteenth century Swiss theoretician Johann Caspar Lavater
In addition to closely reading the fictional narratives of Marivaux Balzac Gautier and Zola the author offers a critical reading
of Lavater s work He looks at some of the most compelling and explicit literary treatments of physiognomy in the French
canon suggesting that the ways authors use physiognomical ideas to render the world hyper significant poses fundamental
questions about the nature of narrative itself He also shows how physiognomy serves almost invariably as a tool of sexism as
it attempts to ascribe intellectual or moral qualities on the basis of corporal features Linked by more than their
physiognomical themes these novels share similar dynamics of reading rhetoric and representation Narratives of Social
Justice Teaching sj Miller,2008 Counterpoints publishes the most compelling and imaginative books being written in
education today Grounded on the theoretical advances in criticalism feminism and postmodernism in the last two decades of
the twentieth century Counterpoints engages the meaning of these innovations in various forms of educational expression
Committed to the proposition that theoretical literature should be accessible to a variety of audiences the series insists that
its authors avoid esoteric and jargonistic languages that transform educational scholarship into an elite discourse for the
