**Rare Earth Frontiers** Julie M.

Klinger, 2018-01-15 *Rare Earth Frontiers* is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics green energy and medical technologies and essential telecommunications and defense systems Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead and this means the implications of their extraction are global Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power These include legally and logistically forbidding locations in the Amazon Greenland and Afghanistan and on the Moon Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents this book examines the production of the rare earth frontier as a place a concept and a zone of contestation sacrifice and transformation Ecologically

Unequal Exchange R. Scott Frey, Paul K. Gellert, Harry F. Dahms, 2018-07-04 At a time of societal urgency surrounding ecological crises from depleted fisheries to mineral extraction and potential pathways towards environmental and ecological justice this book re-examines ecologically unequal exchange EUE from a historical and comparative perspective The theory of ecologically unequal exchange posits that core or northern consumption and capital accumulation is based on peripheral or southern environmental degradation and extraction In other words structures of social and environmental inequality between the Global North and Global South are founded in the extraction of materials from as well as displacement of waste to the South This volume represents a set of tightly interlinked papers with the aim to assess ecologically unequal exchange and to move it forward Chapters are organised into three main sections theoretical foundations and critical reflections on ecologically unequal exchange empirical research on mining deforestation fisheries and the like and strategies for responding to the adverse consequences associated with unequal ecological exchange Scholars as well as advanced undergraduate and graduate students will benefit from the spirited re-evaluation and extension of ecologically unequal exchange theory research and praxis **Iron & Steelmaker**, 2000 **China and the Transformation of Global**

**Capitalism** Ho-fung Hung, 2009-09-15 This volume explains China's economic rise and liberalization and assesses how this growth is reshaping the structure and dynamics of global capitalism in the twenty-first century China has historically been the center of Asian trade economic and financial networks and its global influence continues to expand in the twenty-first century In exploring the causes for and effects of China's re-surfing power this volume takes a broad long-term view that reaches well beyond economics for answers Contributors explore the vast web of complex issues raised by China's ascendancy The first three chapters discuss the global and historical origins of China's shift to a market economy and that transformation's impact on the international market system Subsequent essays explore the ability of large Chinese

manufacturers to counter the might of transnational retailers the effect of China's rise on world income distribution and labor and the consequences of a stronger China for its two most powerful neighbors Russia and Japan The concluding chapter questions whether China's growth is sustainable and if it will ultimately shift the center of global capitalism from the West to the East *Minerals Yearbook*, 2005 **Iron & Coal Trades Review**, 1921 Vol 115 includes Diamond jubilee issue 1867-1927 *The Road Map of China's Steel Industry* Xinchuang Li, 2020-07-03 This book explores the principles of supply side structural reform and current practices in the Chinese steel industry Focusing on the general requirements for high quality development it reviews the evolution of the global and Chinese steel industries with regard to reduction innovation and transformation It also summarizes industrial development law from a transfer route perspective analyzes major challenges and opportunities for the steel industry in the new era and proposes strategic orientation and implementation measures for the future development of the steel industry The book contends that high quality development of the steel industry must be driven by innovation and it is essential to promote integrated development based on several aspects greenness coordination quality standardization differentiation service intelligence diversification and internationalization in order to reshape the industrial value chain and continuously improve industrial competitiveness This concept is essential to help Chinese steel companies prepare development plans for transformation and upgrading Combining thorough analysis unique insights and many practical cases the book offers a guide to and inspiration for future implementation approaches

These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
