Practical Mysticism in Islam and Christianity Saeed Zarrabi-Zadeh,2016-01-29 Practical Mysticism in Islam and Christianity offers a comparative study of the works of the Sufi poet Jalal al Din Rumi 1207 1273 and the practical teachings of the German Dominican Meister Eckhart c1260 1327 8 Rumi has remained an influential figure in Islamic mystical discourse since the thirteenth century while also extending his impact to the Western spiritual arena However his ideas have frequently been interpreted within the framework of other mystical philosophical or religious systems Through its novel approach this book aims to reformulate Rumi s practical mysticism by employing four methodological principles a mysticism is a coherent structure with mutual interconnection between its parts b the imposition of alien structures to interpret any particular mysticism damages its inward coherency c practical mysticism consists of two main parts namely practices and stages and d the proper use of comparative methodology enables a deeper understanding of each juxtaposed system Eckhart s speculative mysticism which differs from and enjoys similarities with the love based mysticism of Rumi provides a mirror that highlights the special features of Rumi s practical mysticism Such comparison also allows a deeper comprehension of Eckhart s practical thought Offering a critical examination of practical mysticism this book is a valuable resource for students and scholars of Islamic studies comparative mysticism and the intellectual history of Islam

Six Stages on the Spiritual Path Ruth Whitney,2021-05-21 In Six Stages on the Spiritual Path we learn about spirituality and its stages as well as how spirituality helps to reduce our suffering and create more love Writings from ancient to contemporary mystics across the world provide us with practical and spiritual wisdom that will make our lives happier and more loving In the first stage on the mystic way children experience awe and wonder but they do not realize that this is a spiritual experience While all indigenous people recognize awe as a mystical experience only some adults and most artists do When parents and religious leaders teach children about God they cause their spiritual growth to flourish or to become stunted at an elementary school level Awakening is an experience of the Divine that helps us realize that the Sacred Spirit is within us and loves us Awakening produces love for our neighbors and ourselves Then love nurtures more awakenings Illumination and union are deeper mystical experiences that the Holy One is not only within all of us and all of creation but also that we are within the ONE Illumination creates more love for all people and all the universe

Ghazālī's Epistemology Nabil Yasien Mohamed, 2023-11-17 Focusing on Abū al-Ghazālī one of the foremost scholars and authorities in the Muslim world who is central to the Islamic intellectual tradition this book embarks on a study of doubt shakk and certainty yaqīn in his epistemology The book looks at Ghazālī's attitude to philosophical demonstration and Sufism as a means to certainty In early scholarship surrounding Ghazālī he has often been blamed as the one who single handedly offered the death blow to philosophy in the Muslim world In much of contemporary scholarship Ghazālī is understood to prefer philosophy as the ultimate means to certainty granting Sufism a secondary status Hence much of previous scholarship has either focused on Ghazālī as a Sufi or as a philosopher this book takes a parallel approach and acknowledges each discipline in its right place It analyses Ghazālī's approach to acquiring certainty his methodological scepticism his foundationalism his attitude to authoritative instruction ta'līm and the place of philosophical demonstration and Sufism in his epistemology Offering a systematic and comprehensive approach to Ghazālī's epistemology

Brümmer on Meaning and the Christian Faith Vincent Brümmer,2006 This volume presents a wide ranging selection from the writings of a leading contemporary philosophical theologian Vincent Brummer In his many books and articles Brummer has demonstrated how the tools of philosophical analysis are not only fruitful but also essential for dealing with the central issues of systematic theology The title of this volume Meaning and the Christian Faith highlights two characteristic themes that recur throughout the many writings of Vincent Brummer Much of his work has been devoted to exploring the meaning of the Christian faith and especially of its central claim that God is a personal being whose fellowship believers may enjoy On the other hand Brummer has also shown that religious belief should not be understood as an explanatory theory but rather as a way in which believers understand the meaning of their lives and their experience of the world and direct their lives accordingly **The Mystic Way** Evelyn Underhill,1914 **The Essentials of Mysticism** Evelyn

Underhill,2017-03-02 Offering different essays of the practice of mysticism Underhill gives a thorough treatment of the practice that relies on experience rather than logic to justify the matters of faith While a dangerous path to follow as it can quickly lead to paths away from God this thinking is valid to a point in that we must be able to experience the fullness of God in some way to be fully alive in the realization of who God the Father is **The Quest of Reality** A. Wyatt Tilby,1927 ??

Harold David Roth,1999 Presents a translation and commentary to the oldest known extant Taoist text Inward Training Nei yeh which is composed of short poetic verses devoted to the practice of breath meditation and its resultant insights about human nature and the cosmos Roth argues that Inward Training is the basis of early Taoism and suggests that there may be more continuity between early philosophical Taoism and later Taoist religion than scholars have thought **The Way of Imitation, Or, How to Attain Knowledge of the Higher World** Rudolf Steiner,1910 *Revival: Mysticism (1911)*

Underhill Evelyn,2018-05-08 This book falls naturally into two parts each of which is really complete in itself though they are

in a sense complementary to one another Whilst the second and longest part contains a somewhat detailed study of the nature and development of man's spiritual or mystical consciousness the first is intended rather to provide an introduction to the general subject of mysticism Exhibiting it by turns from the point of view of metaphysics psychology and symbolism it is an attempt to gather between the covers of one volume information at present scattered amongst many monographs and texts books written in divers tongues and to give the student in a compact form at least the elementary facts in regard to each of those subjects which are most closely connected with the study of the mystics

Naturally Miraculous Peter Stilla, 2023-11-30 Can Christianity experience a twenty first century renaissance Can it again serve as a welcoming home for authentic Truth seekers who aspire to genuine spiritual and mystical experience Naturally Miraculous describes the path of bringing this long sought objective into being First it contains a strong refutation of today's sectarian orthodox Christianity and argues for a return to what Christianity originally was before the rise of Roman Catholicism when it was the more mystical Universalist religion Jesus intended it to be Second it examines mysticism and cosmic consciousness from the theological philosophical and psychological perspectives and how it has been a part of humanity's spiritual quest and religious cultures particularly Christianity throughout history It ultimately describes a new way of being Christian a way in which we are to follow the example of Jesus and take the path he describes to the kingdom of God which is the attainment of Christ consciousness or mystical realization In Naturally Miraculous we see how achieving the consciousness of Christ has been humanity's ultimate purpose all along

The Model of Love Vincent Brümmer, 1993-09-16 Religious believers understand the meaning of their lives and of the world in terms of the way these are related to God The conceptual models whereby this relationship is described therefore play a key role in the conceptual designs which theologians produce to express the faith of the community of believers Vincent Brümmer examines the implications of using the model of love in this context and looks at a number of the most significant views of the nature of love exclusive attention Ortega y Gasset ecstatic union nuptial mysticism passionate suffering courtly love need love Plato Augustine and gift love Nygren All these views are shown to interpret love as an attitude rather than as a relation between persons In the final chapters a relational concept of love is developed and it is shown how all the various attitudes discussed in the previous chapters have a role to play Finally the implications are addressed of using the model of love as a key model in theology
